

evidence, the panel will draft a statement, addressing the following key questions:

- What are the current indications and outcomes for primary TKR?
- How do specific characteristics of the patient, material and design of the prosthesis, and surgical factors affect the short-term and long-term outcomes of primary TKR?
- Are there important perioperative interventions that influence outcomes?
- What are the indications, approaches, and outcomes for revision TKR?
- What factors explain disparities in the utilization of TKR in different populations?
- What are the directions for future research?

On the final day of the conference, the panel chairperson will read the draft statement to the conference audience and invite comments and questions. A press conference will follow, to allow the panel and chairperson to respond to questions from the media.

DEPARTMENT OF HOMELAND SECURITY

Bureau of Customs and Border Protection

Notice of Issuance of Final Determination Concerning Fiber Optic Cable Products

AGENCY: Customs and Border Protection,
Department of Homeland Security.

ACTION: Notice of final determination.

SUMMARY: This document provides
notice that the Bureau of Customs and
Border Protection (CBP) has issued a
final determination concerning the
country of origin of certain fiber optic
cable products to be offered to the

United States Government under an
undesignated government procurement
contract. The final determination found
that based upon the facts presented, the
countries of origin of products referred
to as Glass, Glass Polymer patch cords,
Fiber Interconnect Product cable
assemblies and Multimode (ST MM)
epoxy connectors are the United States,
the United States, and Japan,
respectively.

DATES: The final determination was
issued on August 11, 2003. A copy of
the final determination is attached. Any
party-at-interest, as defined in 19 CFR
177.22(d), may seek judicial review of
this final determination within 30 days
of August 19, 2003.

FOR FURTHER INFORMATION CONTACT:
Craig Walker, Special Classification and
Marking Branch, Office of Regulations
and Rulings (202–572–8836).

SUPPLEMENTARY INFORMATION: Notice is
hereby given that on August 11, 2003,
pursuant to Subpart B of Part 177,
Customs Regulations (19 CFR part 177,
subpart B), CBP issued a final
determination concerning the country of
origin of certain fiber optic cable
products to be offered to the United
States Government under an
undesignated government procurement
contract. The CBP ruling number is HQ
562754. This final determination was
issued at the request of 3M Company
under procedures set forth at 19 CFR
part 177, subpart B, which implements
Title III of the Trade Agreements Act of
1979, as amended (19 U.S.C. 2511–18).

The final determination concluded
that, based upon the facts presented, the
assembly in China of U.S.-origin fiber
optic cable and Chinese-origin
connectors to create Glass, Glass
Polymer (“GGP”) patch cords does not
result in a substantial transformation of
the components into a product of China.
Therefore, the country of origin of the
product is the United States. The final
determination also concluded that
neither the assembly in China of a
Japanese-origin ceramic ferrule with
U.S.-origin components to create
connectors nor the subsequent assembly
in China of the connectors with U.S.-
origin fiber optic cable to produce Fiber
Interconnect Product (“FIP”) cable
assemblies results in a substantial
transformation of the components into
products of China. Accordingly, the
origin of the FIB cable assemblies is the
United States. Finally, the final
determination concluded that the
assembly in China of a Japanese-origin
ceramic ferrule with U.S., Canadian and
Chinese components to produce
Multimode (ST MM) epoxy connectors
does not result in a substantial
