

FY 2012 PROCESSING AND FILING FEE TABLE—Continued

Document/action	FY 2012 Fee
Renewal of existing sand and gravel lease in Nevada	30
Multiple Use; Mining (part 3730)	
Notice of protest of placer mining operations	10
Mining Law Administration (parts 3800, 3810, 3830, 3850, 3860, 3870)	
Application to open lands to location	10
Notice of location*	15
Amendment of location	10
Transfer of mining claim/site	10
Recording an annual FLPMA filing	10
Deferment of assessment work	105
Recording a notice of intent to locate mining claims on Stockraising Homestead Act lands	30
Mineral patent adjudication	2,875 (more than 10 claims) 1,440 (10 or fewer claims)
Adverse claim	105
Protest	65
Oil Shale Management (parts 3900, 3910, 3930)	
Exploration license application	300
Application for assignment or sublease of record title or overriding royalty	60

*To record a mining claim or site location, you must pay this processing fee along with the initial maintenance fee and the one-time location fee required by statute. 43 CFR part 3833.

BILLING CODE 4310-84-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 622****[Docket No. 040205043-4043-01]****RIN 0648-XA677****Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery of the South Atlantic; Closure**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS closes the commercial sector for vermilion snapper in the exclusive economic zone (EEZ) of the South Atlantic. This closure is necessary to protect the vermilion snapper resource.

DATES: This rule is effective 12:01 a.m., local time, September 30, 2011, until 12:01 a.m., local time, January 1, 2012.

FOR FURTHER INFORMATION CONTACT: Catherine Bruger, telephone: 727-824-5305, fax: 727-824-5308, e-mail: Catherine.Bruger@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act by regulations at 50 CFR part 622.

The commercial quota for vermilion snapper in the South Atlantic is 302,523 lb (137,222 kg) for the current fishing period, July 1 through December 31, 2011, as specified in 50 CFR 622.42(e)(4)(ii). On June 15, 2011, NMFS published a final rule implementing a commercial trip limit for vermilion snapper of 1,500 lb (680 kg) per day, which was effective on July 15, 2011 (76 FR 34892). This trip limit, specified in 50 CFR 622.44(c)(6), remains in effect until the commercial quota for vermilion snapper is reached.

Under 50 CFR 622.43(a), NMFS is required to close the commercial sector for vermilion snapper when its quota has been reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS has determined that the commercial quota for South Atlantic vermilion snapper will have been reached by September 30, 2011. Accordingly, the commercial sector for South Atlantic vermilion snapper is closed effective 12:01 a.m., local time,

September 30, 2011, until 12:01 a.m., local time, January 1, 2012.

The operator of a vessel with a valid commercial vessel permit for South Atlantic snapper-grouper having vermilion snapper onboard must have landed and bartered, traded, or sold such vermilion snapper prior to 12:01 a.m., local time, September 30, 2011. During the closure, the bag limit and possession limits specified in 50 CFR 622.39(d)(1)(v) and (d)(2), respectively, apply to all harvest or possession of vermilion snapper in or from the South Atlantic EEZ, and the sale or purchase of vermilion snapper taken from the EEZ is prohibited. The prohibition on sale or purchase does not apply to the sale or purchase of vermilion snapper that were harvested, landed ashore, and sold prior to 12:01 a.m., local time, September 30, 2011, and were held in cold storage by a dealer or processor. For a person on board a vessel for which a Federal commercial permit for the South Atlantic snapper-grouper fishery has been issued, the sale and purchase provisions of the commercial closure for vermilion snapper would apply regardless of whether the fish are harvested in state or Federal waters, as specified in 50 CFR 622.43(a)(5)(ii).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA), finds that the need to immediately

implement this action to close the commercial sector for vermilion snapper constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), as such procedures would be unnecessary and contrary to the public interest. Such procedures would be unnecessary because the rule itself has been subject to notice and comment, and all that remains is to notify the public of the closure.

Allowing prior notice and opportunity for public comment is contrary to the public interest because of the need to immediately implement this action to protect the fishery since the capacity of the fishing fleet allows for rapid harvest of the quota. Prior notice and opportunity for public comment would require time and would potentially result in a harvest well in excess of the established quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

This action is taken under 50 CFR 622.43(a) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 20, 2011.

Emily H. Menashes,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 654

[Docket No. 110707375-1578-02]

RIN 0648-BB07

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Stone Crab Fishery of the Gulf of Mexico; Removal of Regulations

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule to repeal the Fishery Management Plan for the Stone Crab Fishery of the Gulf of Mexico (FMP) and remove its implementing regulations, as requested by the Gulf of Mexico Fishery Management Council (Council). The stone crab fishery takes place primarily

in state waters off the coast of Florida, and the Florida Fish and Wildlife Conservation Commission (FWC) is extending its management of the fishery into Federal waters. Repealing the Federal regulations will eliminate duplication of management efforts, reduce costs for the Federal government, and align with the President's Executive Order 13563, "Improving Regulation and Regulatory Review," to ensure Federal regulations are more effective and less burdensome in achieving regulatory objectives. The intended effect of this action is to enhance the effectiveness and efficiency of managing the stone crab fishery in the Gulf of Mexico (Gulf).

DATES: This rule is effective October 24, 2011.

ADDRESSES: Electronic copies of documents supporting this final rule, which include an environmental assessment, may be obtained from Southeast Regional Office Web site at <http://sero.nmfs.noaa.gov/sf/StoneCrab.htm>.

FOR FURTHER INFORMATION CONTACT:
Susan Gerhart, telephone: 727-824-5305 or e-mail:
Susan.Gerhart@noaa.gov.

SUPPLEMENTARY INFORMATION: The stone crab fishery of the Gulf of Mexico (Gulf) is managed under the FMP. The FMP was prepared by the Council and implemented through regulations at 50 CFR part 654 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

On July 20, 2011, NMFS published a proposed rule to repeal the Federal stone crab FMP and requested public comment (76 FR 43250). The proposed rule and the environmental assessment outline the rationale for the measures contained in this final rule. This final rule will repeal the Federal stone crab FMP and its implementing regulations. The FWC has already voted to extend its authority to regulate stone crab in Federal waters. The intended effect of this rule is to eliminate duplication of management efforts, reduce costs, and enhance regulatory efficiency of the stone crab resource.

Comments and Responses

NMFS received two comments on the proposed rule, one from a Federal agency that was non-substantive and one from an individual that expressed general support for the rule. Neither submission expressed substantive comments on the proposed rule and, therefore, are not repeated here.

Classification

The Regional Administrator, Southeast Region, NMFS, has determined that this final rule is necessary to more efficiently manage the stone crab resource, and is consistent with the Magnuson-Stevens Act and other applicable laws.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration during the proposed rule stage that this action would not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule is not repeated here. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not required and none was prepared.

List of Subjects in 50 CFR Part 654

Fisheries, Fishing, Incorporation by reference.

Dated: September 15, 2011.

Samuel D. Rauch III,
Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

For the reasons set out in the preamble, under the authority of 16 U.S.C. 1801 *et seq.*, part 654 is removed.

PART 654—[REMOVED]

■ 1. Remove part 654.
