

- Airline must verify that every passenger—two years of age or older—onboard the flight has attested to having received a negative Qualifying Test result.
- Airline must confirm that every passenger onboard the aircraft has documentation reflecting a negative Qualifying Test result.

CDC is requiring that individuals retain copies of their negative tests. CDC anticipates this will result in no significant costs or burden in either hard copy or electronic form. CDC is also requiring that the airlines retain the attestation of negative test provided by the passenger. As long as the attestation

conforms to Attachment A of the Order, either electronic or hard copy retention is acceptable. CDC anticipates that any hard copy attestation would be digitized and result in negligible storage costs. Estimated annual burden hours requested are 266,667.
