

significant environmental impact from this proposed rule.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposed to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

2. Add § 165.T05–0050 to read as follows:

§ 165.T05–0050 Security Zone; Potomac River, Washington Channel, Washington, DC.

(a) *Location.* The following area is a security zone: all waters of the Washington Channel, from shoreline to shoreline, bounded on the north along latitude 38°52′03″ N and bounded on the south along latitude 38°51′50″ N (North American Datum 1983).

(b) *Definitions.* As used in this section:

Captain of the Port Baltimore means the Commander, U.S. Coast Guard Sector Baltimore, Maryland.

Designated representative means any Coast Guard commissioned, warrant, or petty officer who has been authorized by the Captain of the Port Baltimore to assist in enforcing the security zone described in paragraph (a) of this section.

(c) *Regulations.* (1) The general security zone regulations found in 33 CFR 165.33 apply to the security zone created by this temporary section, § 165.T05–0050.

(2) Entry into or remaining in this zone is prohibited unless authorized by the Coast Guard Captain of the Port Baltimore. Vessels already at berth, mooring, or anchor at the time the security zone is implemented do not have to depart the security zone. All vessels underway within this security zone at the time it is implemented are to depart the zone.

(3) Persons desiring to transit the area of the security zone must first request authorization from the Captain of the Port Baltimore or his designated representative. To seek permission to transit the area, the Captain of the Port Baltimore and his designated

representatives can be contacted at telephone number 410–576–2693 or on Marine Band Radio, VHF–FM channel 16 (156.8 MHz). The Coast Guard vessels enforcing this section can be contacted on Marine Band Radio, VHF–FM channel 16 (156.8 MHz). Upon being hailed by a U.S. Coast Guard vessel, or other Federal, State, or local agency vessel, by siren, radio, flashing lights, or other means, the operator of a vessel shall proceed as directed. If permission is granted, all persons and vessels must comply with the instructions of the Captain of the Port Baltimore or his designated representative and proceed at the minimum speed necessary to maintain a safe course while within the zone.

(4) *Enforcement.* The U.S. Coast Guard may be assisted in the patrol and enforcement of the zone by Federal, State, and local agencies.

(d) *Enforcement period.* This section will be enforced from 6 a.m. through 5 p.m. on May 25, 2010.

Dated: February 24, 2010.

Mark P. O'Malley,

Captain, U.S. Coast Guard, Captain of the Port Baltimore Maryland.

BILLING CODE 4910–15–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R06–OAR–2006–0850; FRL–9123–9]

Approval and Promulgation of Implementation Plans; Texas; Revisions to Chapter 116 Which Relate to the Application Review Schedule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Texas State Implementation Plan (SIP) submitted by the State of Texas to EPA on September 25, 2003 and January 24, 2008. The portions of the SIP revisions proposed today address requirements found under Title 30 in the Texas Administrative Code (TAC), Chapter 116—Control of Air Pollution by Permits for New Construction or Modification, Section 114—Application Review Schedule. The proposed revisions; amends the requirements related to the voiding of a permit or permit amendment; and implements the requirements of House Bill 3732, 80th Legislature (2007), and the Texas Health and Safety Code, section 382.0566, concerning specific

deadlines for review and issuance of air quality permits for Advanced Clean Energy Projects (ACEP). EPA has determined that these changes to the Texas SIP comply with the Federal Clean Air Act (the Act or CAA) and EPA regulations, are consistent with EPA policies, and will improve air quality. This action is being taken under section 110 and parts C and D of the Act.

DATES: Comments must be received on or before April 7, 2010.

ADDRESSES: Comments may be mailed to Mr. Jeff Robinson, Chief, Air Permits Section (6PD–R), Environmental Protection Agency, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202–2733. Comments may also be submitted electronically or through hand delivery/courier by following the detailed instructions in the **ADDRESSES** section of the direct final rule located in the rules section of this **Federal Register**.

FOR FURTHER INFORMATION CONTACT: If you have questions concerning today's proposal, please contact Ms. Melanie Magee (6PD–R), Air Permits Section, Environmental Protection Agency, Region 6, 1445 Ross Avenue (6PD–R), Suite 1200, Dallas, TX 75202–2733. The telephone number is (214) 665–7161. Ms. Magee can also be reached via electronic mail at magee.melanie@epa.gov.

SUPPLEMENTARY INFORMATION: In the final rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no relevant adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of the rule, and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.

Dated: February 24, 2010.

Al Armendariz,

Regional Administrator, Region 6.

RIN 0648-XQ49

Fisheries of the Northeastern United States; Atlantic Bluefish Fisheries; 2010 Atlantic Bluefish Specifications

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes specifications for the 2010 Atlantic bluefish fishery, including State-by-State commercial quotas, a recreational harvest limit, and recreational possession limits for Atlantic bluefish off the east coast of the United States. The intent of these specifications is to establish the allowable 2010 harvest levels and possession limits to attain the target fishing mortality rate (F), consistent with the Atlantic Bluefish Fishery Management Plan (FMP).

DATES: Comments must be received on or before March 23, 2010.

ADDRESSES: You may submit comments, identified by 0648-XQ49, by any one of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal e-Rulemaking portal: <http://www.regulations.gov>.
- *Fax:* (978) 281-9135, Attn: Regional Administrator.
- *Mail and Hand Delivery:* Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope: "Comments on 2010 Bluefish Specifications."

• *Instructions:* No comments will be posted for public viewing until after the comment period has closed. All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by

the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

NMFS will accept anonymous comments (enter N/A in the required fields, if you wish to remain anonymous). You may submit attachments to electronic comments in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

Copies of the specifications document, including the Environmental Assessment and Initial Regulatory Flexibility Analysis (EA/IRFA) and other supporting documents for the specifications, are available from Daniel Furlong, Executive Director, Mid-Atlantic Fishery Management Council, Room 2115, Federal Building, 300 South Street, Dover, DE 19901-6790. The specifications document is also accessible via the Internet at <http://www.nero.noaa.gov>.

FOR FURTHER INFORMATION CONTACT:

Sarah Heil, Fishery Management Specialist, (978) 281-99257.

SUPPLEMENTARY INFORMATION:

Background

The Atlantic bluefish fishery is managed cooperatively by the Mid-Atlantic Fishery Management Council (Council) and the Atlantic States Marine Fisheries Commission (Commission). The management unit for bluefish specified in the FMP is U.S. waters of the western Atlantic Ocean. Regulations implementing the FMP appear at 50 CFR part 648, subparts A and J. Regulations requiring annual specifications are found at § 648.160.

The FMP requires the Council to recommend, on an annual basis, a total allowable catch (TAC) and total allowable landings (TAL) that will control fishing mortality. An estimate of annual discards is deducted from the TAC to calculate the TAL that can be made during the year by the commercial and recreational fishing sectors combined. The TAL is composed of a commercial quota (allocated to the States from Maine to Florida in specified shares) and a coastwide recreational harvest limit (RHL). A research set-aside (RSA) quota is deducted from the bluefish TAL (after any applicable transfer) in an amount proportional to the percentage of the overall TAL as allocated to the commercial and recreational sectors.

The annual review process for bluefish requires that the Council's Bluefish Monitoring Committee (Monitoring Committee) and Scientific and Statistical Committee (SSC) review and make recommendations based on

the best available data, including, but not limited to, commercial and recreational catch/landing statistics, current estimates of fishing mortality, stock abundance, discards for the recreational fishery, and juvenile recruitment. Based on the recommendations of the Monitoring Committee and SSC, the Council makes a recommendation to the Northeast Regional Administrator (RA). Because this FMP is a joint plan, the Commission also meets during the annual specification process to adopt complementary measures.

The Council's recommendations must include supporting documentation concerning the environmental, economic, and social impacts of the recommendations. NMFS is responsible for reviewing these recommendations to assure they achieve the FMP objectives, and may modify them if they do not. NMFS then publishes proposed specifications in the **Federal Register**. After considering public comment, NMFS will publish final specifications in the **Federal Register**.

In July 2009, the Monitoring Committee and SSC met to discuss the updated estimates of bluefish stock biomass and project fishery yields for 2010. In August 2009, the Council approved the Monitoring Committee and SSC's recommendations, and the Commission's Bluefish Board (Board) adopted complementary management measures.

Proposed Specifications

Updated Model Estimates

According to Amendment 1 to the FMP (Amendment 1), overfishing for bluefish occurs when F exceeds the fishing mortality rate that allows maximum sustainable yield (F_{MSY}), or the maximum F threshold to be achieved. The stock is considered overfished if the biomass (B) falls below the minimum biomass threshold, which is defined as $\frac{1}{2} B_{MSY}$. Amendment 1 also established that the long-term target F is 90 percent of F_{MSY} ($F_{MSY} = 0.19$, therefore $F_{target} = 90$ percent of $F_{MSY} = 0.17$), and the long-term target B is $B_{MSY} = 324$ million lb (146,964 mt).

An age-structured assessment program (ASAP) model for bluefish was approved by the 41st Stock Assessment Review Committee (SARC 41) in 2005 to estimate F and annual biomass. In June 2009, the ASAP model was updated in order to estimate the current status of the bluefish stock (*i.e.*, 2008 biomass and F estimates) and enable the Monitoring Committee and SSC to recommend 2010 specifications using landings information and survey indices
