The Research Steering Committee will report to the Council on refinements to its policy on incorporating the results of cooperative research results into the management process and activities planned for 2004. The Council is then scheduled to review and approve its draft Statement of Organization, Practices and Procedures. The Habitat/Marine Protected Area Committee will ask for approval of its recommendations concerning the timing and scope of Essential Fish Habitat Amendment 2. There will also be a discussion of the committee's rationale to prohibit clam dredges from habitat closed areas designated in Amendment 13 to the Northeast Multispecies FMP. The afternoon session will include a report by the NOAA Fisheries Statistics Office on a proposed rule implementing mandatory dealer electronic reporting and scheduled for publication in 2004. The meeting will conclude with a briefing on NOAA Fisheries National Bycatch Strategy and regional implementation of a plan. Any other Council business that was postponed until the close of the meeting will also be addressed at this time.

Although other non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subjects of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided that the public has been notified of the Council's intent to take final action to address the emergency.
