BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Forest Service

Kenai Peninsula-Anchorage Borough Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Kenai Peninsula-Anchorage Borough Resource Advisory Committee will convene for their first formal meeting in Portage Valley, Alaska, for the purpose of establishing the Committee through the development of bylaws, a chairperson, and a future meeting schedule, under the provisions of Title II of the Secure Rural Schools and Community Self-Determination Act of 2008 (Pub. L. 110-343).

DATES: The meeting will be held on Saturday, June 12, 2010.

ADDRESSES: The meeting will take place at the Begich Boggs Visitor's Center, 800 Portage Lake Loop, Portage, AK 99587.

Send written comments to Kenai Peninsula-Anchorage Borough Resource Advisory Committee, c/o USDA Forest Service, P.O. Box 390, Seward, AK 99664 or electronically to slatimer@fs.fed.us.

FOR FURTHER INFORMATION CONTACT: Travis Moseley, Designated Federal Official, c/o USDA Forest Service, P.O. Box 390, Seward, AK 99664, telephone (907) 288-7730.

SUPPLEMENTARY INFORMATION: The agenda will include background on the provisions of Title II of the Secure Rural Schools and Community Self-Determination Act of 2008 (Pub. L. 110-343) and an overview of the Federal Advisory Committee Act (FACA). In addition, the agenda will include time for the Committee to develop and adopt bylaws, a chairperson, and a future meeting schedule to discuss project proposals.

All Resource Advisory Committee Meetings are open to the public. The public input and comment forum will take place in the afternoon of June 12, 2010. Interested citizens are encouraged to attend.

Dated: May 13, 2010.

Travis Moseley,

District Ranger.

ARCTIC RESEARCH COMMISSION

Notice of Meeting

May 10, 2010.

Notice is hereby given that the U.S. Arctic Research Commission will hold its 93rd meeting in Washington, DC, on June 2-3, 2010. The business session, open to the public, will convene June 3 at 8:30 a.m.

The Agenda items include:

(1) Call to order and approval of the agenda.

(2) Approval of the minutes from the 92nd meeting.

(3) Commissioners and staff reports.

(4) Discussion and presentations concerning Arctic research activities.

The focus of the meeting will be reports and updates on programs and research projects affecting the Arctic.

If you plan to attend this meeting, please notify us via the contact information below. Any person planning to attend who requires special accessibility features and/or auxiliary aids, such as sign language interpreters, must inform the Commission of those needs in advance of the meeting.

Contact person for further information: John Farrell, Executive Director, U.S. Arctic Research Commission, 703-525-0111 or TDD 703-306-0090.

John Farrell,

Executive Director.

BILLING CODE 7555-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

[A-570-956]

Certain Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from the People's Republic of China: Amended Preliminary Determination of Sales at Less Than Fair Value

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 28, 2010.

SUMMARY: The Department of Commerce ("Department") has determined that it made certain significant ministerial errors in the preliminary determination

of sales at less than fair value in the antidumping duty investigation of certain seamless carbon and alloy steel standard, line, and pressure pipe ("seamless pipe") from the People's Republic of China ("PRC"). As a result, we are amending our preliminary determination to correct certain significant ministerial errors with respect to the antidumping duty margins for a mandatory respondent and for exporters eligible for a separate rate.

FOR FURTHER INFORMATION CONTACT:

Magd Zalok, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4162.

SUPPLEMENTARY INFORMATION: On April 28, 2010, the Department published its affirmative preliminary determination in this proceeding. *See Certain Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe From the People's Republic of China: Preliminary Determination of Sales at Less Than Fair Value, Affirmative Preliminary Determination of Critical Circumstances, in Part, and Postponement of Final Determination*, 75 FR 22372 (April 28, 2010) ("Preliminary Determination"). On May 3, 2010, Tianjin Pipe (Group) Corporation and Tianjin Pipe International Economic and Trading Corporation (collectively "TPCO") submitted ministerial error allegations with respect to the margin calculations for TPCO in the *Preliminary Determination*, alleging certain errors in conversion, arithmetic, and surrogate value calculations. No other interested party submitted ministerial error allegations. After reviewing TPCO's allegations, we have determined that the *Preliminary Determination* contains ministerial errors. We agree that the ministerial errors are "significant" as that term is defined in 19 CFR 351.224(g). Therefore, pursuant to 19 CFR 351.224(e), we have made changes to the *Preliminary Determination*.

Scope of Investigation

The merchandise covered by this investigation is certain seamless carbon and alloy steel (other than stainless steel) pipes and redraw hollows, less than or equal to 16 inches (406.4 mm) in outside diameter, regardless of wall-thickness, manufacturing process (e.g., hot-finished or cold-drawn), end finish (e.g., plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish (e.g., bare, lacquered or coated). Redraw hollows are any unfinished carbon or alloy steel (other

than stainless steel) pipe or “hollow profiles” suitable for cold finishing operations, such as cold drawing, to meet the American Society for Testing and Materials (“ASTM”) or American Petroleum Institute (“API”) specifications referenced below, or comparable specifications. Specifically included within the scope are seamless carbon and alloy steel (other than stainless steel) standard, line, and pressure pipes produced to the ASTM A-53, ASTM A-106, ASTM A-333, ASTM A-334, ASTM A-335, ASTM A-589, ASTM A-795, ASTM A-1024, and the API 5L specifications, or comparable specifications, and meeting the physical parameters described above, regardless of application, with the exception of the exclusion discussed below. Specifically excluded from the scope of the investigation are unattached couplings. The merchandise covered by the investigation is currently classified in the Harmonized Tariff Schedule of the United States (“HTSUS”) under item numbers: 7304.19.1020, 7304.19.1030, 7304.19.1045, 7304.19.1060, 7304.19.5020, 7304.19.5050, 7304.31.6050, 7304.39.0016, 7304.39.0020, 7304.39.0024, 7304.39.0028, 7304.39.0032, 7304.39.0036, 7304.39.0040, 7304.39.0044, 7304.39.0048, 7304.39.0052, 7304.39.0056, 7304.39.0062, 7304.39.0068, 7304.39.0072, 7304.51.5005,

7304.51.5060, 7304.59.6000, 7304.59.8010, 7304.59.8015, 7304.59.8020, 7304.59.8025, 7304.59.8030, 7304.59.8035, 7304.59.8040, 7304.59.8045, 7304.59.8050, 7304.59.8055, 7304.59.8060, 7304.59.8065, and 7304.59.8070.

Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the merchandise subject to this scope is dispositive.

Ministerial-Error Allegations

A ministerial error is defined as an error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial. See 19 CFR 351.224(f). A significant ministerial error is defined as a ministerial error, the correction of which, singly or in combination with other errors, (1) would result in a change of at least five absolute percentage points in, but not less than 25 percent of, the weighted-average dumping margin calculated in the original (erroneous) preliminary determination; or (2) would result in a difference between a weighted-average dumping margin of zero or *de minimis* and a weighted-average dumping margin of greater than *de minimis* or vice versa. See 19 CFR 351.224(g).

After reviewing the ministerial error allegations submitted by TPCO in its May 3, 2010, submission, the Department agrees that some of the errors alleged by TPCO are ministerial errors within the meaning of 19 CFR 351.224(f), and that these errors are significant pursuant to 19 CFR 351.224(e). We are amending the *Preliminary Determination* to correct these ministerial errors. See the “Ministerial Error Memorandum, Amended Preliminary Determination of Sales at Less Than Fair Value: Certain Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from the People’s Republic of China,” dated concurrently with this **Federal Register** notice, for a discussion of the ministerial error allegations. See also Appendix I for a list of the ministerial error allegations.

The collection of bonds or cash deposits and suspension of liquidation will be revised accordingly and parties will be notified of this determination, in accordance with section 733(d) and (f) of the Act.

Amended Preliminary Determination

As a result of our correction of significant ministerial errors in the Preliminary Determination, we have determined that the following weighted-average dumping margin applies:

Tianjin Pipe International Economic and Trading Corporation	22.67%
Produced by: Tianjin Pipe (Group) Corporation.	
Xigang Seamless Steel Tube Co., Ltd.	57.30%
Produced by: Xigang Seamless Steel Tube Co., Ltd., and Wuxi Seamless Special Pipe Co., Ltd..	
Jiangyin City Changjiang Steel Pipe Co., Ltd.	57.30%
Produced by: Jiangyin City Changjiang Steel Pipe Co., Ltd..	
Pangang Group Chengdu Iron & Steel Co., Ltd.	57.30%
Produced by: Pangang Group Chengdu Iron & Steel Co., Ltd..	
Yangzhou Lontrin Steel Tube Co., Ltd.	57.30%
Produced by: Yangzhou Lontrin Steel Tube Co., Ltd..	
Yangzhou Chengde Steel Tube Co., Ltd.	57.30%
Produced by: Yangzhou Chengde Steel Tube Co., Ltd..	

International Trade Commission Notification

In accordance with section 733(f) of the Act, we have notified the International Trade Commission (“ITC”) of our amended preliminary determination. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of the preliminary determination or 45 days after our final determination whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports, or

sales (or the likelihood of sales) for importation, of the subject merchandise.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.224(e).

Dated: May 21, 2010.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.

Appendix I

Issue 1: Whether the Department correctly added freight costs to the surrogate value for water.

Issue 2: Whether the Department correctly deducted the value of by-

products from the calculation of the normal value.

Issue 3: Whether the Department correctly added rail freight to the value of ferromanganese.

Issue 4: Whether the Department correctly applied the appropriate price corresponding to the type of blast furnace pellets used by TPCO.

Issue 5: Whether the Department used the correct currency conversion for the inputs of EMAG, TEFRRO, MCARBON, and LCFERRO.

Issue 6: Whether the Department correctly valued steel billets.

Issue 7: Whether the Department's calculations correctly considered the weight of the green pipe caps.

Issue 8: Whether the Department should adjust the adverse facts available rate applied to TPCO's U.S. affiliate's downstream sales.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 39-2010]

Foreign-Trade Zone 3—San Francisco, CA; Application for Reorganization under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the San Francisco Port Commission, grantee of FTZ 3, requesting authority to reorganize the zone under the alternative site framework (ASF) adopted by the Board (74 FR 1170, 1/12/09; correction 74 FR 3987, 1/22/09). The ASF is an option for grantees for the establishment or reorganization of general-purpose zones and can permit significantly greater flexibility in the designation of new "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the Board's standard 2,000-acre activation limit for a general-purpose zone project. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on May 21, 2010.

FTZ 3 was approved by the Board on March 10, 1948 (Board Order 12, 13 FR 1459, 3/19/48) and the boundaries were modified on July 31, 1950 (Board Order 25, 15 FR 1653, 9/8/50) and on December 20, 1956 (Board Order 43, 21 FR 10434, 12/28/56). FTZ 3 was relocated on May 5, 1958 (Board Order 46, 23 FR 3277, 5/14/58), an extension of the relocation granted May 5, 1965 (Board Order 66, 30 FR 6596, 5/13/65) and the zone was relocated again on July 13, 1977 (Board Order 121, 42 FR 38942, 8/1/77). FTZ 3 was expanded on November 21, 2000 (Board Order 1129, 65 FR 76217, 12/6/00).

The current zone project includes the following sites: *Site 1* (5.82 acres)—Pier 19, Pier 23, Pier 50 and Pier 80 port facilities on the Embarcadero, San Francisco; *Site 2* (42.50 acres)—San Francisco International Airport jet-fuel storage and distribution system, which consists of the airport hydrant and storage facilities, two adjacent off-

airport terminals, a pipeline and two off-site terminals and related pipelines in Brisbane and South San Francisco; *Site 3* (55 acres)—Selby Terminal petroleum facilities, 90 San Pablo Avenue, Crockett; and, *Site 4* (164 acres)—Martinez Terminal petroleum facilities, 2801 Waterfront Road, Martinez.

The grantee's proposed service area under the ASF would be the City and County of San Francisco and the County of San Mateo, California, as described in the application. If approved, the grantee would be able to serve sites throughout the service area based on companies' needs for FTZ designation. The proposed service area is within and adjacent to the San Francisco Customs and Border Protection port of entry.

The applicant is requesting authority to reorganize its existing zone project to include existing sites 2, 3 and 4 as "usage-driven" sites. The applicant is also requesting authority to remove Site 1 from the zone project due to changed circumstances. Because the ASF only pertains to establishing or reorganizing a general-purpose zone, the application would have no impact on FTZ 3's authorized subzones.

In accordance with the Board's regulations, Christopher Kemp of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is July 27, 2010. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to August 11, 2010.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via <http://www.trade.gov/ftz>. For further information, contact Christopher Kemp at Christopher.Kemp@trade.gov or (202) 482-0862.

Dated: May 21, 2010.

Andrew McGilvray,
Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

Application(s) for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before June 17, 2010. Address written comments to Statutory Import Programs Staff, Room 3720, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. at the U.S. Department of Commerce in Room 3720.

Docket Number: 10-010. *Applicant:* University of Maine System, 16 Central St., Bangor, ME 04401. *Instrument:* Live Color Cathodoluminescence detector accessory for Scanning Electron Microscope. *Manufacturer:* Gatan, UK. *Intended Use:* The instrument will be used to study the morphology and microstructure of primarily geological but also some archaeological and biological materials. Techniques include imaging using three components of light (red, green, blue) split from a panchromatic signal induced in the sample by an incident electron beam inside an SEM. This instrument offers live color detectors, i.e., panchromatic cathodoluminescence detectors in which the intensity of the light across the entire visible spectrum is measured. *Justification for Duty-Free Entry:* There are no domestic manufacturers of this instrument. *Application accepted by Commissioner of Customs:* April 27, 2010.

Docket Number: 10-011. *Applicant:* Washington University in St. Louis, Purchasing Dept., 1 Brookings Drive, Campus Box 1069, St. Louis, MO 63130. *Instrument:* Electron Microscope. *Manufacturer:* Japanese Electron-Optics, Limited (JEOL), Japan. *Intended Use:* This instrument will be used to study a complete range of medically relevant cells, tissues, and molecules and understand the molecular and cellular basis of a wide range of human diseases. The instrument allows for techniques including advanced forms of biological specimen preparation, as well as more classical procedures for fixation,
