STAMS Committee Membership

Members of the AMSC should have at least 5 years of experience related to maritime or port security operations. The South Texas AMSC has fourteen members, made up of at least one individual from the Corpus Christi, Rio Grande Valley, Port of Port Lavaca-Point Comfort and Victoria Barge Canal, Port Security Working Groups (PSWG). We are seeking to fill two vacancies with this solicitation. Applicants may be required to pass an appropriate security background check prior to appointment to the committee. Members' term of office will be for 5 years; however, a member is eligible to serve an additional term of office. Members will not receive any salary or other compensation for their service on the AMSC. In support of the USCG policy on gender and ethnic diversity, we encourage qualified women and members of minority groups to apply.

Request for Applications

Those seeking membership are not required to submit formal applications to the local Captain of the Port; however, because we do have an obligation to ensure that a specific number of members have the prerequisite maritime security experience, we encourage the submission of résumés highlighting experience in the maritime and security industries.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 256, Leasing of Sulphur or Oil and Gas in the Outer Continental Shelf, and 30 CFR 260, Outer Continental Shelf Oil and Gas Leasing.

Forms: MMS-150, MMS-151, MMS-152, MMS-2028, and MMS-2028A.

OMB Control Number: 1010-0006.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition. Also, the Energy Policy and Conservation Act of 1975 (EPCA) prohibits certain lease bidding arrangements (42 U.S.C. 6213(c)).

The Independent Offices Appropriations Act of 1952, 31 U.S.C.

9701, authorizes Federal agencies to recover the full cost of services that provide special benefits. Under the Department of the Interior's policy implementing this Act, the Minerals Management Service (MMS) is required to charge the full cost for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those that accrue to the public at large. Instruments of transfer of a lease or interest are subject to cost recovery, and MMS regulations specify the filing fee for these transfer applications.

These authorities and responsibilities are among those delegated to the MMS under which we issue regulations governing oil and gas and sulphur operations in the OCS. This information collection request (ICR) addresses the regulations at 30 CFR 256, Leasing of Sulphur or Oil and Gas in the OCS, 30 CFR 260, Outer Continental Shelf Oil and Gas Leasing, and the associated supplementary Notices to Lessees and Operators (NTLs) intended to provide clarification, description, or explanation of these regulations. This ICR also concerns the use of forms to process bonds per subpart I, Bonding, the transfer of interest in leases per subpart J, Assignments, Transfers and Extensions, and the filing of relinquishments per subpart K, Termination of Leases. The forms are:

- MMS-150, Assignment of Record Title Interest in Federal OCS Oil and Gas Lease,
- MMS-151, Assignment of Operating Rights Interest in Federal OCS Oil and Gas Lease,
- MMS-152, Relinquishment of Federal OCS Oil and Gas Lease,
- MMS-2028, OCS Mineral Lessee's and Operator's Bond,
- MMS-2028A, OCS Mineral Lessee's and Operator's Supplemental Plugging and Abandonment Bond.

Regulations implementing these responsibilities are under 30 CFR part 256. Responses are mostly mandatory or required to obtain or retain a benefit. No questions of a sensitive nature are asked. The MMS protects information considered proprietary according to section 26 of the OCS Lands Act, the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2), and 30 CFR 256.10(d).

The MMS uses the information required by 30 CFR part 256 to determine if applicants are qualified to hold leases in the OCS. Specifically, MMS uses the information to:

- Verify the qualifications of a bidder on an OCS lease sale. Once the required information is filed with MMS, a qualification number is assigned to the

bidder so that duplicate information is not required on subsequent filings.

- Develop the semiannual List of Restricted Joint Bidders. This identifies parties ineligible to bid jointly with each other on OCS lease sales, under limitations established by the Energy Policy and Conservation Act.

- Ensure the qualification of assignees and track operators on leaseholds. Once a lease is awarded, the transfer of a lessee's interest to another qualified party must be approved by an MMS Regional Director or Regional Supervisor. Also, a lessee may designate an operator to act on the lessee's behalf. This designation must be approved by MMS before the designated operator may begin operations.

- Document that a leasehold or geographical subdivision has been surrendered by the record title holder.

The MMS will use this information to update the corporate database which is used to determine what leases are available for a lease sale and the ownership of all OCS leases. Non-proprietary information is also publicly available from the MMS corporate database via the Internet.

The MMS uses the information required by subpart J—Assignments, Transfers and Extensions, to track the ownership of leases as to record title, operating rights, and pipeline right-of-ways.

The MMS also uses various forms relating to this subpart. The forms allow lessees to submit the required information in a standardized format that helps MMS process the data in a more timely and efficient manner. The five forms associated with this ICR and their purposes are:

MMS-150—Assignment of Record Title Interest in Federal OCS Oil and Gas Lease

MMS-151—Assignment of Operating Rights Interest in Federal OCS Oil and Gas Lease

These two forms pertain to lease ownership and status information that are extremely important to the oil and gas industry as they strategize long-range planning for oil and gas development and the sharing of the expense and liabilities of OCS offshore drilling and development.

MMS-152—Relinquishment of Federal OCS Oil and Gas Lease Form

Once a respondent submits this form, the lessee has relinquished their interest in the lease.

MMS-2028—Outer Continental Shelf (OCS) Minerals Lessee's and Operator's Bond**MMS 2028A—Outer Continental Shelf (OCS) Mineral Lessee's and Operator's Supplemental Plugging and Abandonment Bond**

The MMS uses these two forms to hold the surety libel for the obligations

and liability of the principal/lessee or operator.

Frequency: On occasion.

Description of Respondents: Potential respondents comprise Federal oil, gas, and sulphur lessees and operators.

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this information collection is a total of

15,732 hours. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified three paperwork non-hour cost burdens associated with the collection of information. Sections 256.62 and 256.64(a) require respondents to pay service fees when submitting either a request for assignment of record title interest, assignment of operating rights interest, and/or to file documents for record purposes. The service fees are required to recover the Federal Government's processing costs. We have not identified any other non-hour cost burdens associated with this collection of information, and we estimate a total reporting non-hour cost burden of \$393,345.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”. Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on October 6, 2009, we published a **Federal Register** notice (74 FR 51316) announcing that

we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 256.0 provides the OMB control number for the information collection requirements imposed by the 30 CFR 256 regulations and their associated forms. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We have received no comments in response to these efforts.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by April 5, 2010.
