

and commercial data available at the time of the review; therefore, we are requesting submission of any new information on this species that has become available since the last 5-year reviews were conducted in 2019.

Why do we conduct 5-year reviews?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Further, our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year reviews, go to <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>.

What information do we consider in our review?

In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

1. The biology of the species, including but not limited to population trends, distribution, abundance, demographics, and genetics;
2. Habitat conditions, including but not limited to amount, distribution, and suitability;
3. Conservation measures that have been implemented that benefit the species;
4. Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and
5. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and will also be useful in evaluating the ongoing recovery programs for the species.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLCO-923000.L1440000.ET0000; COC 028254]

Public Land Order No. 7934; Partial Revocation of Four Secretarial Orders for the Grand Valley Reclamation Project and Opening Order; Colorado

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This Order partially revokes four withdrawals created by Secretarial Orders dated July 2, 1902, August 26, 1902, February 28, 1908, and July 25, 1908, issued pursuant to the Reclamation Act of June 17, 1902, Section 3, to support the Bureau of Reclamation's (BOR's) Grand Valley Reclamation Project. The BOR has determined that 31.10 acres of the withdrawn land are no longer needed for reclamation purposes and has asked that the withdrawals be partially revoked as to these acres. This Order also opens these 31.10 acres to appropriation under the public land laws, subject to valid existing rights. The land has been and will remain open to mineral leasing and will remain closed to location and entry under the United States mining laws.

DATES: This Public Land Order takes effect on January 9, 2024.

FOR FURTHER INFORMATION CONTACT:

Jennifer Jardine, BLM, Colorado State Office, at 970-385-1224, email at jjardine@blm.gov, or write to Branch of Lands and Realty, P.O. Box 151029, Lakewood, Colorado 80215-7093. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or Tele Braille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The BOR requested a partial withdrawal revocation and opening of 31.10 acres of land originally withdrawn in support of the Grand Valley Reclamation Project created by four Secretarial Orders dated July 2, 1902, August 26, 1902, February 28, 1908, and July 25, 1908. The Secretarial Orders classified the land for potential irrigation project purposes. The BOR has determined that the land is no longer needed for reclamation purposes. The revocation of the withdrawal as to these 31.10 acres

would allow the land to be conveyed out of Federal ownership in a proposed land sale. Any land not conveyed will be restored to the administration of the Bureau of Land Management.
