#### **MS Sunflower Project Company, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization**

This is a supplemental notice in the above-referenced proceeding of MS Sunflower Project Company, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of

for off-site storage facility for record keeping. This cost was not related to burden hours, rather an annual estimate of the fees related to offsite storage. This cost has been removed as all recordkeeping is retained electronically per 18 CFR 37.7(b) states: "Audit data must remain available for download on the OASIS for 90 days, except ATC/TTC postings that must remain available for download on the OASIS for 20 days. The audit data are to be retained and made available upon request for download for five years from the date when they are first posted in the same electronic form as used when they originally were posted on the OASIS."

<sup>6</sup>The increase in the number of responses 132 (from OMB's currently approved inventory for FERC-917/918) to 162 is based on the increased number of companies subject to compliance and changes in the last few years as identified by the NERC registry.

<sup>7</sup>While we are using the averaged hourly rate for the majority of the calculations, all recordkeeping tasks are solely completed by a file clerk at \$35.83/hour.

<sup>8</sup>As noted, above the table, the zeroes for respondents and responses are based on having no filings of this type over the past four years.

<sup>9</sup>ATC-related standards include: Implementation by each utility (Reporting), NERC/NAESB Team to develop (Reporting), and Review and comment by utility (Reporting).
