Title: Barriers to Health Care for Women Veterans Survey.

OMB Control Number: 2900–0795.

Type of Review: Reinstatement of a currently approved collection.

Abstract: Legal authority for this data collection is found in Public Law 116–315, Sec. 5402—“Study of Barriers for Women Veterans to Receipt of Health Care from Department of Veterans Affairs,” which requires VA to conduct an independent comprehensive study of the barriers to the provision of health

care for women Veterans. Per Sec. 5402, this current study is to build on previous studies “National Survey of Women Veterans in Fiscal Year 2007–2008” and “Study of Barriers for Women Veterans to VA Health Care 2015.” The aim of the proposed survey is to better understand barriers women Veterans face accessing VA care, the comprehensiveness of care, and progress made in reducing barriers to VA healthcare for women Veterans since the previous study conducted in 2015. The data collected will allow VA to plan and provide better health care for women Veterans and to support reports to Congress about the status of women Veterans’ health care.

Affected Public: Individuals or households.

Estimated Annual Burden: 5,400 hours.

Estimated Average Burden per Respondent: 45 minutes.

Correction

FR Doc. 2022–21017, published on Wednesday, September 28, 2022, at 87 FR 187, make the following corrections. On page 58945, under the heading “Abstract,” please correct and replace the language with, “VA Form 21–526EZ is used to collect the information needed to process a claim for disability compensation and related compensation benefits. Though, this form was initially created to be used to submit fully developed claims (FDC), it has evolved into a standard claim form to be used for any benefit associated with disability compensation; to include new or initial claims and claims for increase.

The respondent burden for VA Form 21–526EZ has increased due to: the number of receivables averaged over the past year, general program changes—such as regulatory changes, and the continuing improvement of VA’s electronic claims processing systems.

VA Form 21–526EZ has been updated, to include: new instructions on presumptive service connection; the GENDER question has been removed; a new Section IV: Exposure Information, including new questions that identify toxic exposures the claimant may have been exposed to during service; and an ‘Addendum’ has been added to provide additional space for disabilities if the claimant has more than the space provided in Section V: Claim Information.

By direction of the Secretary.

Maribel Aponte,

VA PRA Clearance Officer, Office of Enterprise and Integration/Data Governance Analytics, Department of Veterans Affairs.
