Note: Competitive Grants to be awarded in years 1 and 2. Estimate 200 grants will be awarded to eligible applicants. All grant funds will be tracked in the same automated format. In year 1, competitive grants will not be let until the 2nd quarter.

Total Burden Cost (capital/startup):
\$0

Total Burden Cost (operating/maintaining): \$0

Description: This request for approval of the WtW Formula and Competitive Cumulative Quarterly Status report formats is necessary so that the Department may collect statutorily required data from the States and other grant recipients on a quarterly basis. The information will provide a means for the Secretary of Labor to manage and evaluate the WtW program as well as to develop a formula for measuring State performance to be utilized in determining and awarding bonuses to States. These performance bonuses are authorized under the Act in Section 403(a)(5)(E).

Karin G. Kurz,

Acting Departmental Clearance Officer.

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of a Change in Status of an Extended Benefit (EB) Period for Alaska

This notice announces a change in benefit period eligibility under the EB Program for Alaska.

Summary

The following change has occurred since the publication of the last notice regarding the State's EB status:

- May 27, 2000 Alaska's 13-week insured unemployment rate for the week ending May 6, 2000 fell below 6.0 percent and was less than 120 percent of the average for the corresponding period for the prior two years, causing Alaska to trigger "off" EB effective May 27, 2000.

Information for Claimants

The duration of benefits payable in the EB Program, and the terms and conditions on which they are payable,

are governed by the Federal-State Extended Unemployment Compensation Act of 1970, as amended and the operating instructions issued to the States by the U.S. Department of Labor. In the case of a State ending an EB period, the State employment security agency will furnish a written notice to each individual who is currently filing a claim for EB of the forthcoming end of the EB period and its effect on the individual's rights to EB (20 CFR 615.13(c)(4)).

Signed at Washington, DC., on July 12, 2000.

Raymond Bramucci,

Assistant Secretary of Labor for Employment and Training.

BILLING CODE 7533-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-336]

In the Matter of Northeast Nuclear Energy Company, et al. (Millstone Nuclear Power Station, Unit 2); Exemption

I

Northeast Nuclear Energy Company, et al., is the holder of Facility Operating License No. DPR-65 which authorizes operation of Millstone Nuclear Power Station, Unit 2. Millstone Nuclear Power Station, Unit 2 is a pressurized water reactor located in Waterford, Connecticut. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (the Commission or NRC) now or hereafter in effect.

II

Appendix R, "Fire Protection Program for Nuclear Power Facilities Operating Prior to January 1, 1979," to title 10 of the Code of Federal Regulations (10 CFR) part 50, establishes fire protection features required to satisfy General Design Criterion 3, "Fire protection," of Appendix A to 10 CFR part 50, with respect to certain generic issues for nuclear power plants licensed to operate prior to January 1, 1979. By letter dated February 14, 2000, as supplemented by letters dated April 5 and May 31, 2000, Northeast Nuclear Energy Company, (NNECO), the licensee for Millstone Nuclear Power Station, Unit No. 2, requested an exemption from the technical requirements of 10 CFR part 50, appendix R, section III.J to the extent that it requires emergency lighting units with at least an 8-hour battery power supply to light all areas needed for operation of safe shutdown equipment and in access and egress routes thereto. NNECO proposed to credit the security lighting system currently installed at the plant for access and egress route emergency lighting in lieu of providing separate emergency lighting units with an 8-hour battery supply in the Unit 3 yard area.

III

As a result of the decommissioning of Unit 1, the existing tie to Unit 1 Vital
