

• Nongovernmental membership organizations, the primary mission of which concerns protection of the environment;

The USE IT Act also requires one expert in each of the following fields:

- Health and environmental effects, including exposure evaluation; and
- Pipeline safety.

In addition, members may also include not less than one representative in each of the following categories at the request of a Tribal or local government:

- A local government in the geographical area covered by the Non-Federal Task Force; and
- A Tribal government in the geographical area covered by the Non-Federal Task Force.

To ensure that recommendations of the Non-Federal Task Force have considered the needs of diverse groups served by the Federal Government, opportunities will be sought to increase diversity, equity, inclusion, and accessibility for the membership of the Non-Federal Task Force. Please note that federally registered lobbyists serving in an “individual capacity” are ineligible for appointment or reappointment.

In selecting members, CEQ will consider technical expertise, coverage of broad stakeholder perspectives, diversity, and the duties of the Non-Federal Task Force as outlined in the USE IT Act. CEQ will use the following criteria to evaluate nominees:

- Background and experiences that help members contribute to the diversity of perspectives on the Non-Federal Task Force;
- Experience working for a state, Tribal, or local government on regulatory and permitting issues associated with CCUS projects and CO₂ pipelines;
- CCUS and pipeline project development experience, or expertise and experience in closely related fields from a project developer, private sector perspective;
- Experience working for environmental nongovernmental organizations;
- Experience working on environmental justice issues at the national, state, or local level;
- Expertise in health and environmental effects of carbon dioxide, including exposure evaluation;
- Expertise in Federal and state financing mechanisms available to project developers;
- Expertise in the regulation, siting, and safety of carbon dioxide pipelines;
- Experience or expertise in emerging activities to transform CO₂ into a product of commercial value;

• Demonstrated experience working on environmental, public health and climate change issues;

- Experience and/or responsibilities associated with Federal and state regulations and permitting requirements associated with CCUS projects and carbon dioxide pipelines, including but not limited to experience obtaining and/or issuing permits/rights of way/leases and knowledge regarding state legal requirements, processes, timeframes, costs, barriers, public engagement requirements, state environmental requirements as well as opportunities to improve/enhance all of the above;
- Executive management-level experience;
- Excellent interpersonal, oral and written communication and consensus-building skills; and
- Ability to volunteer time to attend meetings and to contribute to the duties assigned to the Non-Federal Task Force.

Taking into account the nominations CEQ received in response to its notices of July 28, 2022, CEQ is particularly interested in additional nominations for members who represent a local government in the geographical area covered by the Non-Federal Task Force; members who represent a Tribal government in the geographical area covered by the Non-Federal Task Force; members who are experts in pipeline safety; and members who have experience working on environmental justice issues at the national, state, or local level.

Dated: December 21, 2022.

Amy B. Coyle,

Deputy General Counsel.

BILLING CODE 3325–F3–P

COUNCIL ON ENVIRONMENTAL QUALITY

Carbon Dioxide Capture, Utilization and Sequestration (CCUS) Federal Lands and Outer Continental Shelf Permitting Task Force

AGENCY: Council on Environmental Quality (CEQ).

ACTION: Request for nominations.

SUMMARY: As required by the Utilizing Significant Emissions with Innovative Technologies (USE IT) Act, the Council on Environmental Quality (CEQ) is seeking additional member nominations from a diverse range of qualified candidates to serve on the “Carbon Dioxide Capture, Utilization and Sequestration (CCUS) Federal Lands and Outer Continental Shelf Permitting Task Force” (Federal and OCS Task

Force). Vacancies are anticipated to be filled by February 17, 2023.

DATES: CEQ must receive nominations by January 27, 2023.

ADDRESSES: You may submit nominations, identified by “CEQ CCUS Federal Lands and OCS Permitting Task Force,” by email to ccus.taskforce@ceq.eop.gov.

Instructions: All nominations must include a resume; a short biography providing an adequate description of the nominee’s qualifications (including information that will enable CEQ to make a determination as to whether the nominee meets the membership requirements of the Federal and OCS Task Force); and contact information for the nominee. Interested candidates may self-nominate.

FOR FURTHER INFORMATION CONTACT:

Caroline M. Gignoux, Attorney-Advisor, 730 Jackson Place NW, Washington, DC 20503, (202) 395–5750 or ccus.taskforce@ceq.eop.gov.

SUPPLEMENTARY INFORMATION: The USE IT Act, Div. S, sec. 102 (d)(2)(D), Public Law 116–260, 134 Stat. 1182, directs the establishment of no less than two regionally based task forces to: (1) identify challenges and successes that permitting authorities, project developers, and operators face to permit CCUS projects in an efficient, orderly, and responsible manner; and (2) provide recommendations to improve the performance of the permitting process and regional coordination for the purpose of promoting the efficient, orderly, and responsible development of CCUS projects and carbon dioxide pipelines. The regulatory authorities and permitting frameworks differ on Federal lands and the Outer Continental Shelf, and non-Federal lands; therefore, one task force will address permitting and other challenges for CCUS projects on Federal lands and the Outer Continental Shelf, and the other task force will address permitting and other challenges for CCUS projects on non-Federal lands.

On July 28, 2022, CEQ published two notices in the **Federal Register** requesting nominations for membership on the task forces. 87 FR 45304; 87 FR 45306.

The purpose of this notice is to request additional nominations for membership on the Federal and OCS Task Force, one of the two task forces that will be established under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. 2, and its implementing regulations at 41 CFR parts 101–6 and 102–3. A separate **Federal Register** notice seeking additional member nominations for the

Carbon Dioxide Capture, Utilization and Sequestration (CCUS) Non-Federal Lands Permitting Task Force has been issued simultaneously with this notice.

Members will be selected by the Council on Environmental Quality (CEQ) Chair pursuant to the USE IT Act. As required by FACA, the Federal and OCS Task Force membership will be fairly balanced in terms of the points of view represented and the functions to be performed by the Federal and OCS Task Force. Members of the Federal and OCS Task Force will serve without compensation. However, each member may be reimbursed for authorized travel and per diem expenses incurred while attending Federal and OCS Task Force meetings in accordance with Federal Travel Regulations. The Federal and OCS Task Force shall meet not less than twice each year. To the maximum extent practicable, all task forces established under this provision of the USE IT Act shall meet collectively not less than once each year.

Responsibilities of the Federal and OCS Task Force

As provided by the USE IT Act, the duties of the Federal and OCS Task Force will be to:

- Inventory existing or potential Federal and state approaches to facilitate reviews associated with the deployment of CCUS projects and carbon dioxide pipelines, including best practices that avoid duplicative reviews to the extent permitted by law; engage stakeholders early in the permitting process; and make the permitting process efficient, orderly, and responsible;
- Develop common models for state-level carbon dioxide pipeline regulation and oversight guidelines that can be shared with states in the geographical area covered by the Federal and OCS Task Force;
- Provide technical assistance to states in implementing regulatory requirements and models developed by the Federal and OCS Task Force;
- Inventory current or emerging activities that transform captured carbon dioxide into a product of commercial value, or as an input to products of commercial value;
- Identify any priority carbon dioxide pipelines needed to enable efficient, orderly, and responsible development of CCUS projects at increased scale;
- Identify gaps in the current Federal and state regulatory framework and in existing data for the deployment of CCUS projects and carbon dioxide pipelines;

- Identify Federal and state financing mechanisms available to project developers; and

- Develop recommendations for relevant Federal agencies on how to develop and research technologies that can capture carbon dioxide and would be able to be deployed within the region covered by the Federal and OCS Task Force including any projects that have received technical or financial assistance for research under section 103(g)(6) of the Clean Air Act (42 U.S.C. 7403(g)).

Vacancies To Fill

The Federal and OCS Task Force must include no less than one representative in each of the following categories as specified in the USE IT Act. Div. S, sec. 102 (d)(2)(D)(ii)(II), Public Law 116–260, 134 Stat.1182. Nominations are sought to fill at least one position in each category:

- Any state that requests participation in the geographical area covered by the Federal and OCS Task Force;
- Developers or operators of CCUS projects or carbon dioxide pipelines;
- Nongovernmental membership organizations, the primary mission of which concerns protection of the environment;

The USE IT Act also requires one expert in each of the following fields:

- Health and environmental effects, including exposure evaluation; and
- Pipeline safety.

In addition, members may also include not less than one representative in each of the following categories at the request of a Tribal or local government:

- A local government in the geographical area covered by the Federal and OCS Task Force; and
- A Tribal government in the geographical area covered by the Federal and OCS Task Force.

To ensure that recommendations of the Federal and OCS Task Force have considered the needs of diverse groups served by the Federal Government, opportunities will be sought to increase diversity, equity, inclusion, and accessibility for the membership of the Federal and OCS Task Force. Please note that federally registered lobbyists serving in an “individual capacity” are ineligible for appointment or reappointment.

In selecting members, CEQ will consider technical expertise, coverage of broad stakeholder perspectives, diversity, and the duties of the Federal and OCS Task Force as outlined in the USE IT Act. CEQ will use the following criteria to evaluate nominees:

- Background and experiences that help members contribute to the

diversity of perspectives on the Federal and OCS Task Force;

- Experience working for a state, Tribal, or local government on regulatory and permitting issues associated with CCUS projects and CO₂ pipelines;
 - CCUS and pipeline project development experience, or expertise and experience in closely related fields from a project developer, private sector perspective;
 - Experience working for environmental nongovernmental organizations;
 - Experience working on environmental justice issues at the national, state, or local level;
 - Expertise in health and environmental effects of carbon dioxide, including exposure evaluation;
 - Expertise in Federal and state financing mechanisms available to project developers;
 - Expertise in the regulation, siting, and safety of carbon dioxide pipelines;
 - Experience or expertise in emerging activities to transform CO₂ into a product of commercial value;
 - Demonstrated experience working on environmental, public health and climate change issues;
 - Experience and/or responsibilities associated with Federal and state regulations and permitting requirements associated with CCUS projects and carbon dioxide pipelines, including but not limited to experience obtaining and/or issuing permits/rights of way/leases and knowledge regarding state legal requirements, processes, timeframes, costs, barriers, public engagement requirements, state environmental requirements as well as opportunities to improve/enhance all of the above;
 - Executive management-level experience;
 - Excellent interpersonal, oral and written communication and consensus-building skills; and
 - Ability to volunteer time to attend meetings and to contribute to the duties assigned to the Federal and OCS Task Force.
- Taking into account the nominations CEQ received in response to its notices of July 28, 2022, CEQ is particularly interested in additional nominations for members who represent a local government in the geographical area covered by the Federal and OCS Task Force; members who represent a Tribal government in the geographical area covered by the Federal and OCS Task Force; members who are experts in pipeline safety; and members who have experience working on environmental justice issues at the national, state, or local level.

BILLING CODE 3325–F3–P

DEPARTMENT OF EDUCATION

[Docket No.: ED–2022–SCC–0131]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Form for Maintenance of Effort Waiver Requests

AGENCY: Office of Elementary and Secondary Education (OESE), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing an extension without change of a currently approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before January 27, 2023.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link www.reginfo.gov/public/do/PRAMain to access the site. Find this information collection request (ICR) by selecting “Department of Education” under “Currently Under Review,” then check the “Only Show ICR for Public Comment” checkbox. *Reginfo.gov* provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the “View Information Collection (IC) List” link. Supporting statements and other supporting documentation may be found by clicking on the “View Supporting Statement and Other Documents” link.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Todd Stephenson, 202–205–1645.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the

information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Form for Maintenance of Effort Waiver Requests.

OMB Control Number: 1810–0693.

Type of Review: An extension without change of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 20.

Total Estimated Number of Annual Burden Hours: 1,600.

Abstract: Section 8521(a) of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act (ESEA) provides that a local educational agency (LEA) may receive funds under Title I, Part A and other ESEA “covered programs” for any fiscal year only if the State educational agency (SEA) finds that either the combined fiscal effort per student or the aggregate expenditures of the LEA and the State with respect to the provision of free public education by the LEA for the preceding fiscal year was not less than 90 percent of the combined fiscal effort or aggregate expenditures for the second preceding fiscal year. This provision is the maintenance of effort (MOE) requirements for LEAs under the ESEA. If an LEA fails to meet the MOE requirement, under section 8521(b) of the ESEA, the SEA must reduce the amount of funds allocated under the programs covered by the MOE requirement in any fiscal year in the exact proportion by which the LEA fails to maintain effort by falling below 90 percent of either the combined fiscal effort per student or aggregate expenditures, if the LEA has also failed to maintain effort for 1 or more of the 5 immediately preceding fiscal years. In reducing an LEA’s allocation because it failed to meet the MOE requirement, the SEA uses the measure most favorable to the LEA. Section 8521(c) gives the U.S. Department of Education (ED) the authority to waive the ESEA’s MOE requirement for an LEA if it would be equitable to grant the waiver due to an exceptional or uncontrollable circumstance such as a natural disaster or a change in the organizational structure of the LEA or a precipitous decline in the LEA’s financial resources. If an MOE waiver is granted, the reduction required by section 8521(b) does not occur for that year. A request for a waiver of the MOE requirement is

discretionary. Only an LEA that has failed to maintain effort and that believes its failure justifies a waiver would request one. To review an MOE waiver request, ED relies primarily on expenditure, revenue, and other data relevant to an LEA’s request provided by the SEA. To assist an SEA with submitting this information, ED developed an MOE waiver form as part of the 2009 Title I, Part A Waiver Guidance, which covered a range of waivers that ED invited at that time. The purpose of this request is to renew approval for the MOE waiver form. This collection includes burden at the SEA level.

Dated: December 22, 2022.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Notice of request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. The information collection request, State Energy Program (SEP), was previously approved on August 31, 2020, under OMB Control Number 1910–5126 and its current expiration date is August 31, 2023. This ICR will include SEP Annual Appropriations and Infrastructure Investment and Jobs Act (IIJA). This ICR makes updates to the SEP reporting metrics to ensure the requested information can be shared on an annual basis with Congress.

DATES: Comments regarding this proposed information collection must be received on or before January 27, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at (202) 881–8585.
