**SUPPLEMENTARY INFORMATION:**

**Notice of Application**

The Occupational Safety and Health Administration (OSHA) hereby gives notice that TUV Product Services GmbH (TUVPSG) has applied for expansion of its current recognition as a Nationally Recognized Testing Laboratory (NRTL). TUVPSG's expansion request covers the use of additional test standards. OSHA's current scope of recognition for TUVPSG may be found in the following informational web page: <http://www.osha-slc.gov/dts/otpca/nrtl/tuvpsg.html>.

OSHA recognition of any NRTL signifies that the organization has met the legal requirements in § 1910.7 of title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform *independent* safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products "properly certified" by the NRTL to meet OSHA standards that require testing and certification.

The Agency processes applications for initial recognition or for expansion or renewal of this recognition following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on an application. These notices set forth the NRTL's scope of recognition or modifications of this scope. We maintain an informational web page for each NRTL, which details its scope of recognition. These pages can be accessed from our Web site at <http://>

[/www.osha-slc.gov/dts/otpca/nrtl/index.html](http://www.osha-slc.gov/dts/otpca/nrtl/index.html).

The most recent notices published by OSHA for TUVPSG's recognition covered its initial recognition, which became effective on July 20, 2001 (66 FR 38032).

The current address of the facility (site) that OSHA recognizes for TUVPSG is: TUV Product Services GmbH, Ridlerstrasse 65, D-80339, Munich, Germany.

**General Background on the Application**

TUVPSG has submitted an application, dated August 1, 2002 (see Exhibit 7), to expand its recognition to use 46 additional test standards. The NRTL Program staff has determined that two test standards cannot be included in the expansion because they are not "appropriate test standards," within the meaning of 29 CFR 1910.7(c). The staff makes similar determinations in processing expansion requests from any NRTL. Therefore, OSHA would approve 44 test standards for the expansion, which are listed below. One of the test standards requested by TUVPSG, UL 3101-2-20, is listed below using its current designation, UL 61010A-2-020.

As part of OSHA's regular audit of TUVPSG, NRTL Program assessment staff learned of TUVPSG's planned request for expansion and reviewed the NRTL's capability to test to the standards listed below. In a memo, dated July 31, 2002, (see Exhibit 8) the OSHA assessor recommended the expansion request.

TUVPSG seeks recognition for testing and certification of products for demonstration of conformance to the following 44 additional test standards.

OSHA's recognition of TUVPSG, or any NRTL, for a particular test standard is limited to equipment or materials (*i.e.*, products) for which OSHA standards require third party testing and certification before use in the workplace. Consequently, any NRTL's scope of recognition excludes any product(s) that fall within the scope of a test standard, but for which OSHA standards do not require NRTL testing and certification.

Many of the UL test standards listed above also are approved as American National Standards by the American National Standards Institute (ANSI). However, for convenience, we use the designation of the standards developing organization (*e.g.*, UL 1026) for the standard, as opposed to the ANSI designation (*e.g.*, ANSI/UL 1026). Under our procedures, any NRTL recognized for an ANSI-approved test standard may use either the latest proprietary version of the test standard or the latest ANSI version of that standard. (Contact ANSI or the ANSI Web site (<http://www.ansi.org>) and click "NSSN" to find out whether or not a test standard is currently ANSI-approved.)

#### Preliminary Finding

TUVPSG has submitted an acceptable request for expansion of its recognition. As previously mentioned, in connection with the request, OSHA has performed an on-site review (evaluation) of TUVPSG's testing capability relative to the standards listed above. The NRTL has resolved any discrepancies noted by the assessor following the review, and the assessor factored such resolution into the memo on the recommendation (*see* Exhibit 8).

Following a review of the application file, the assessor's memo, and other pertinent information, the NRTL Program staff has concluded that OSHA can grant to TUVPSG the expansion of recognition to include the test standards listed above. The staff therefore recommended to the Assistant Secretary that the application be preliminarily approved, subject to the above condition.

Based upon the recommendations of the staff, the Assistant Secretary has made a preliminary finding that TUV Product Services GmbH can meet the requirements as prescribed by 29 CFR 1910.7 for the expansion of recognition, subject to the above condition. This preliminary finding, however, does not constitute an interim or temporary approval of the applications for TUVPSG.

OSHA welcomes public comments, in sufficient detail, as to whether TUVPSG has met the requirements of 29 CFR 1910.7 for expansion of its recognition as a Nationally Recognized Testing Laboratory. Your comments should consist of pertinent written documents and exhibits. To consider a comment, OSHA must receive it at the address provided above (*see ADDRESSES*), no later than the last date for comments (*see DATES* above). Should you need more time to comment, OSHA must receive your written request for extension at the address provided above no later than the last date for comments. You must include your reason(s) for any request for extension. OSHA will limit any extension to 30 days, unless the requester justifies a longer period. We may deny a request for extension if it is frivolous or otherwise unwarranted. You may obtain or review copies of TUVPSG's request, the assessor's memo, and all submitted comments, as received, by contacting the Docket Office, Room N2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. Docket No. NRTL1-2001 contains all materials in the record concerning TUVPSG's application.

The NRTL Program staff will review all timely comments and, after resolution of issues raised by these comments, will recommend whether to grant TUVPSG's expansion request. The Assistant Secretary will make the final decision on granting the expansion, and in making this decision, may undertake other proceedings that are prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of this final decision in the **Federal Register**.

Signed in Washington, DC this 15th day of January, 2003.

**John L. Henshaw,**  
Assistant Secretary.
