

for inspection and reproduction at the address in item h above.

n. Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

All filings must (1) Bear in all capital letters the title "PROTEST", "MOTION TO INTERVENE", "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS," "TERMS AND CONDITIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

o. *Procedural schedule:* The application will be processed according to the following Hydro Licensing Schedule. Revisions to the schedule will be made if the Commission determines it necessary to do so:

Milestone	Tentative date
Notice of the availability of the draft EIS.	March 2007.

Milestone	Tentative date
Notice of the availability of the final EIS.	August 2007.
Ready for Commission's decision on the application.	October 2007.

Magalie R. Salas,

Secretary.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2155-024]

Pacific Gas and Electric Company; Notice of Application Ready for Environmental Analysis and Soliciting Comments, Recommendations, Terms and Conditions, and Prescriptions

July 28, 2006.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* New Major License.

b. *Project No.:* 2155-024.

c. *Date Filed:* July 15, 2005.

d. *Applicant:* Pacific Gas and Electric Company.

e. *Name of Project:* Chili Bar Project.

f. *Location:* On the South Fork American River in El Dorado, near Placerville, California. The project affects 48 acres of Federal land administered by the Bureau of Land Management.

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Randal S. Livingston, Power Generation Senior Director, Pacific Gas and Electric Company, P.O. Box 770000, Mail Code: N11E, San Francisco, CA 94177.

i. *FERC Contact:* Jim Fargo, (202) 502-6095 or james.fargo@ferc.gov.

j. *Deadline for filing comments, recommendations, terms and conditions, and prescriptions is 60 days from the issuance of this notice; reply comments are due 105 days from the issuance date of this notice.*

All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project.

Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments, recommendations, terms and conditions, and prescriptions may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

k. This application has been accepted and is now ready for environmental analysis.

l. The existing Chili Bar Project consists of: (1) A 120-foot-high concrete gravity dam; (2) a 110-acre reservoir with a useable storage of 1,339 acre-feet; (3) a powerhouse with one 7-MW unit and (9) appurtenant facilities. The applicant estimates that the total average annual generation would be 33,500 megawatt hours. All generated power is utilized within the applicant's electric utility system.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659. A copy is also available for inspection and reproduction at the address in item h above.

All filings must (1) bear in all capital letters the title "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS", "TERMS AND CONDITIONS", or "PRESCRIPTIONS"; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. Each filing must be accompanied by proof of service on all persons listed on the service list prepared by the Commission in this proceeding, in

accordance with 18 CFR 4.34(b), and 385.2010.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

n. *Procedural schedule:* The application will be processed according to the following Hydro Licensing Schedule. Revisions to the schedule will be made if the Commission determines it necessary to do so:

Milestone	Tentative date
Notice of the availability of the draft EIS.	March 2007
Notice of the availability of the final EIS.	August 2007
Ready for Commission's decision on the application.	October 2007

Magalie R. Salas,
Secretary.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8206-6]

EPA Science Advisory Board (SAB) Staff Office; Clean Air Scientific Advisory Committee; Request for Nominations for CASAC Review Panels for NO_x and SO_x

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) Staff Office is seeking nominations of nationally recognized experts for consideration of membership on two new Clean Air Scientific Advisory Committee (CASAC) Review Panels. One Review Panel will provide advice to EPA on primary (human health-based) air quality standards for oxides of nitrogen (NO_x) and sulfur oxides (SO_x), while the second will focus on secondary (welfare-based) standards.

DATES: New nominations should be submitted by August 28, 2006.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Request for Nominations may contact Mr. Fred Butterfield, Designated Federal Officer (DFO), EPA Science Advisory Board (1400F), U.S. Environmental Protection

Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; via telephone/voice mail: (202) 343-9994; fax: (202) 233-0643; or e-mail at: butterfield.fred@epa.gov. General information concerning the CASAC or the EPA Science Advisory Board can be found on the EPA Web site at: <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The Clean Air Scientific Advisory Committee (CASAC) was established under section 109(d)(2) of the Clean Air Act (CAA or Act) (42 U.S.C. 7409) as an independent scientific advisory committee. The chartered CASAC provides advice, information and recommendations on the scientific and technical aspects of air quality criteria and national ambient air quality standards (NAAQS) under sections 108 and 109 of the Act. Section 109(d)(1) of the Clean Air Act (CAA) requires that EPA carry out a periodic review and revision, as appropriate, of the air quality criteria and the NAAQS for the six criteria air pollutants. EPA is currently preparing to review the air quality criteria for NO_x and SO_x. The SAB Staff Office is establishing two separate CASAC NO_x and SO_x Review Panels. One will provide advice to EPA on primary (human health-based) air quality standards for oxides of nitrogen (NO_x) and sulfur oxides (SO_x), while the second will focus on secondary (welfare-based) standards. The CASAC NO_x and SO_x Review Panels will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

The CASAC NO_x and SO_x Review Panels will each consist of the seven members of the chartered CASAC supplemented by additional subject matter experts. This **Federal Register** notice seeks nominations for the subject matter experts described below. The CASAC NO_x and SO_x Review Panels will comply with the provisions of FACA and all appropriate EPA procedural policies.

Expertise Sought: The SAB Staff Office requests nominees who are nationally-recognized experts regarding NO_x and SO_x in one or more of the following disciplines.

(1) CASAC Primary (Health-Based) Review Panel

(a) *Atmospheric Science.* Expertise in physical and chemical properties of nitrogen oxides and sulfur oxides; atmospheric processes involved in their formation and transport on urban to global scales; transformation of these pollutants in the atmosphere; and movement of the pollutants between media through deposition and other

such mechanisms. Also, expertise in the evaluation of natural and anthropogenic sources and emissions of nitrogen oxides and sulfur oxides and resulting ambient levels due to natural sources; pertinent monitoring or measurement methods for these pollutants; and spatial and temporal trends in their atmospheric concentrations.

(b) *Human Health Exposure and Risk Assessment/Modeling.* Expertise in measuring human population exposure to nitrogen oxides and sulfur oxides, or in modeling human population exposure to pollutants from ambient and indoor sources. Expertise in human health risk analysis modeling for nitrogen oxides and sulfur oxides related to respiratory and other non-cancer health effects.

(c) *Dosimetry.* Expertise in evaluation of the dosimetry of animal and human subjects, including identification of factors determining differential patterns of inhalation and/or deposition/uptake in respiratory tract regions that may contribute to differential susceptibility of human population subgroups and animal-to-human dosimetry extrapolations.

(d) *Toxicology.* Expertise in evaluation of experimental laboratory animal studies and in vitro studies of the effects of sulfur oxides and/or oxides of nitrogen on pulmonary and extra-pulmonary (e.g., cardiovascular, immunological) endpoints.

(e) *Controlled Human Exposure.* Expertise in evaluations of controlled human exposure studies of the effects of nitrogen oxides and sulfur oxides on healthy and compromised (e.g., having pertinent preexisting disease such as asthma) human adults and children, including physicians with experience in the clinical treatment of asthma and chronic lung diseases.

(f) *Epidemiology and Biostatistics.* Expertise in epidemiologic evaluation of the effects of exposures to ambient nitrogen oxides and sulfur oxides and/or other major air pollutants (e.g., particulate matter, ozone, carbon monoxide) on human population groups, including mortality and morbidity effects (e.g., respiratory symptoms, lung function decrements, asthma medication use, emergency department visits, respiratory-related hospital admissions). Also, expertise in associated biostatistics and/or health risk analysis.

(2) CASAC Secondary (Welfare-Based) Review Panel

(a) *Atmospheric Science.* Expertise in physical and chemical properties of nitrogen oxides and sulfur oxides; atmospheric processes involved in their
