Site Visits

Penobscot and FERC staff will conduct a project site visit beginning at 2:00 p.m. on October 3, 2000. All interested individuals, organizations, and agencies are invited to attend. All participants should meet at the Howland Project powerhouse, off Route 116 in Howland, Maine. All participants are responsible for their own transportation to the site. Anyone who wishes to attend the site visit, or with questions about the visit, should contact Mr. Scott Hall of Penobscot at (207) 827-5364.

Objectives

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA; (2) Solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the relative depth of analysis for issues to be addressed in the EA; and (5) identify resource issues that are of lesser importance, and, therefore, do not require detailed analysis.

Procedures

The meetings will be recorded by a stenographer and will become part of the formal record of the Commission proceeding on the project. Individuals presenting statements at the meetings will be asked to sign in before the meeting starts and to clearly identify themselves for the record. Speaking time for attendees at the meetings will be determined before the meeting, based on the number of persons wishing to speak and the approximate amount of time available for the session. All speakers will be provided at least 5 minutes to present their views.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meetings and to assist the staff in defining and clarifying the issues to be addressed in the EA.

Persons choosing not to speak at the meetings, but who have views on the issues, may submit written statements for inclusion in the public record at the meeting. In addition, written scoping comments may be filed with the Secretary, Federal Energy Regulatory

Commission, 888 First Street, NE, Washington, DC 20426, until November 6, 2000. All filings should contain an original and eight copies, and must clearly show at the top of the first page "Howland Hydroelectric Project, FERC No. 2721-013."
