[Docket No. CP10-509-000]

Sawgrass Storage LLC; Notice of Petition

October 7, 2010.

Take notice that on September 27, 2010, Sawgrass Storage LLC (Sawgrass Storage), 3333 Warrenville Road, Suite 630, Lisle, Illinois 60532, filed in Docket No. CP10-509-000, a petition for Exemption of Temporary Acts and Operations and Request for Expedited Approval, pursuant to Rule 207(a)(5) of the Commission's Rules of Practice and Procedure, and section 7(c)(1)(B) of the Natural Gas Act (NGA), to perform specific temporary activities related to drill site preparation and drilling of a test well and water well located in Lincoln Parish, Louisiana. Specifically, Sawgrass Storage proposes to drill a test well to determine the feasibility of developing a depleted natural gas production reservoir in the Vaughn Sandstone of the Cotton Valley formation into a natural gas storage facility, and a water well to assist in the drilling of the test well, all as more fully set forth in the application which is on

file with the Commission and open to public inspection. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, call (202) 502-8659 or TTY, (202) 208-3676.

Any questions regarding this application should be directed to Stephen Cittadine, Vice President, Sawgrass Storage LLC, 3333 Warrenville Road, Suite 630, Lisle, Illinois 60532, or by calling (630) 245-7801 (telephone) or (630) 245-7839 (fax), scittad@nicor.com or to Christopher A. Schindler, Eric S. Lashner, Hogan Lovells US LLP, Columbia Square, 555 13th Street, NW., Suite 600, Washington, DC 20004, or by calling (202) 637-5723 (telephone) or (202) 637-5910 (fax), christopher.schindler@hoganlovells.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit

14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). [Project No. 13798-000]

Lanai Hydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

October 7, 2010.

On June 10, 2010, Lanai, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Lanai Pumped Storage Project to be located on the Pacific Ocean in the vicinity of Lanai City, in Maui County, Hawaii. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) An artificial, lined 57-acre reservoir created by the construction of embankments; (2) an approximately 11,650-foot-long conduit joined to the Pacific Ocean; (3) three reversible pump-turbines, totaling 300 megawatts (MW) of generating capacity, with up to 100 MW of additional pumping capacity; (4) an approximately 6-mile-long, single-circuit 230-kilovolt transmission line; and (5) appurtenant facilities. The estimated annual generation of the Lanai Pumped Storage project would be 919,800 megawatt-hours.
