DEPARTMENT OF LABOR

Office of Labor-Management Standards

Agency Information Collection Activities; Information Collection Request; Labor Organization and Auxiliary Reports Comment Period Extension

AGENCY: Office of Labor-Management Standards, Department of Labor.

ACTION: Notice.

SUMMARY: This document extends the period for comments on the proposal, published on May 20, 2015 (80 FR 29096), to amend the information collection request 1245–0003, particularly the Form LM–2, LM–3, and LM–4 Labor Organization Annual Report instructions, to require filers of such reports to submit the reports electronically, and to modify the hardship exemption process for Form LM–2 filers. The comment period, which was to expire on July 20, 2015, is extended to August 19, 2015. A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

DATES: Written comments on the proposal to amend the information collection request 1245–0003, published on May 20, 2015 (80 FR 29096), must be submitted to the office listed in the addresses section below on or before August 19, 2015.

ADDRESSES: Andrew R. Davis, Chief of the Division of Interpretations and Standards, Office of Labor-Management Standards, U.S. Department of Labor, 200 Constitution Avenue NW., Room N–5609, Washington, DC 20210, olms-public@dol.gov, (202) 693–0123 (this is not a toll-free number), (800) 877–8339 (TTY/TDD).

Please use only one method of transmission (mail or submission via www.regulations.gov using RIN: 1245–AA06) to submit comments or to request a copy of this information collection and its supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden. You may also request a copy of this information collection and its supporting documentation by sending an email to olms-public@dol.gov.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of May 20, 2015 (80 FR 29096), the Department sought public comments on the proposal to amend Labor Organization and Auxiliary Reports information collections approved under OMB Control Number 1245–0003, specifically the Form LM–3 and LM–4 instructions, to require mandatory electronic filing of these reports, as well as modify the Form LM–2 hardship exemption process to correspond with that proposed for the Form LM–3 and LM–4 reports, which would only permit temporary hardship exemption submissions, not continuing. As stated in the notice, the Department believes that reasonable changes must be made to the means by which the forms required under the Labor-Management Reporting and Disclosure Act (LMRDA) Title II are filed. The most efficient way to provide meaningful access to this information by interested members of the public is to require that the reports filed by small and medium-sized labor organizations be filed in electronic form. This change will benefit the filers, union members, and the public, as well as the Department.

Interested persons were invited to submit comments on or before July 20, 2015, 60 days after the publication of the original notice. A public commenter has requested a 30-day extension of time to submit comments. In response to these requests, the Department has decided to extend the comment period for an additional 30 days. Comments on

the proposed information collection must be received on or before August 19, 2015. An extension of this duration is appropriate, because it will afford parties a meaningful opportunity to submit comments on the proposal without unduly delaying final action on the proposed regulation.

Dated: July 15, 2015.

Andrew R. Davis,

Chief, Division of Interpretations and Standards, Office of Labor-Management Standards.

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Establish an Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: Under the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public or other Federal agencies to comment on this

proposed continuing information collection.

Comments are invited on whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility; the accuracy of the Foundation's estimate of the burden of the proposed collection of information; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

DATES: Written comments on this notice must be received by September 18, 2015, to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT: Ms. Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: Community College Innovation Challenge Information Collection.

OMB Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Type of Request: Intent to seek approval to establish an information collection for post-challenge outcome monitoring system.

Abstract

Proposed Project

NSF provides nearly 20 percent of federal funding for basic research to academic institutions.¹ The Office of Legislative and Public Affairs (OLPA) communicates information about the activities, programs, research results and policies of NSF. OLPA employs a wide variety of tools and techniques to engage the general public and selected audiences including Congress, the news media, state and local governments, other Federal agencies, and the research and education communities. To these

ends, OLPA provides support for innovative new initiatives designed to increase public engagement and scientific progress. An important aspect of scientific progress is the education of future scientists. Improvements in science, technology, engineering and mathematics (STEM) curricula, particularly changes that engage students in the process of research and discovery, have become a focal point for attracting more students into science. Undergraduate research is a significant strategy for improving undergraduate STEM education.

Community colleges prepare technicians who will become an integral part of research efforts and students who will continue their education at four-year institutions. Further, they play a significant role in the preparation of underrepresented groups in science. Community colleges have long recognized the importance of mentoring students and have a history of success in educating underrepresented students for successful careers in STEM. Thus, community colleges play an important role in workforce development in their states and local communities. Industry frequently looks to community colleges to provide an educated and technologically up-to-date workforce. The National Science Foundation's (NSF) thrust of incorporating research into the traditional teaching mission of the community college is a relatively new expansion of its mission. This challenge furthers NSF's mission by enabling students to discover and demonstrate their capacity to use science to make a difference in the world, and to transfer knowledge into action.

The Office of Legislative and Public Affairs (OLPA) requests of the Office of Management and Budget (OMB) an approval for an information collection intended to monitor outputs, short-term, intermediate and long term outcomes of OLPA's new Community College Innovation Challenge.

The survey questionnaire, individually tailored to measure outputs and outcomes for this initiative, will provide essential information for program monitoring purposes. Data collected by this collection will be used for program planning, management, and evaluation. A summary of monitoring data can be used to respond to queries from Congress, the public, NSF's external merit reviewers who serve as advisors, including Committees of Visitors (COVs), and NSF's Office of the Inspector General. These data are needed for effective administration, program and project monitoring, evaluation, and for measuring
