consideration of the issues likely to be involved in preemption actions.

The Public Notice establishes guidelines relating to its consideration of preemption petitions. Consideration of a petition requesting Commission action pursuant to Section 253 necessarily will involve state or local statutes, regulations, ordinances, or other legal requirements that will likely be initially unfamiliar to the Commission. In order to render a timely and informed decision, the Commission expects petitions and commenters to provide it with relevant information sufficient to describe the legal regime involved in the controversy and to establish the factual basis necessary for decision.

The Commission will use the information to discharge its statutory mandate relating to the preemption of state or local statutes or other state or local legal requirements.

Telecommunications Act of 1996 (1996 Act) directed the Commission to initiate a rulemaking to reform our system of universal service so that universal service is preserved and advanced as markets move toward competition. To fulfill that mandate, based on the recommendations of the Federal-State Joint Board on Universal Service, the Commission adopted a Report and Order in CC Docket No. 96-45, on May 7, 1997, to implement the congressional directives set out in section 254 of the Communications Act of 1934, as amended by the 1996 Act. In the Report and Order (released July 18, 1997), the Commission appointed the National Exchange Carrier Association, Inc. (NECA) the temporary administrator of the universal service support mechanisms, subject to creating a separate subsidiary, the Universal Service Administrative Company (USAC), to administer the support

programs. The Commission also directed NECA, as a condition of its appointment as temporary administrator, to create two unaffiliated corporations to administer portions of the schools and libraries and rural health care programs. NECA established the Schools and Libraries Corporation (SLC) and the Rural Health Care Corporation (RHCC).

In connection with supplemental appropriations legislation enacted on May 1, 1998, Congress directed the Commission to establish a single entity to administer federal universal service. In a May 8, 1998 Report to Congress, the Commission proposed that, by January 1, 1999, USAC would serve as the single entity responsible for administering all of the universal service support mechanisms including the schools and libraries and rural health care support mechanisms. On November 20, 1998, the Commission released an Order directing the merger of SLC and RHCC into USAC as the single entity responsible for administering the universal service support mechanisms as of January 1, 1999. The Order adopted rules that will govern USAC following the required merger.

Pursuant to 47 CFR 54.703, industry an non-industry groups may submit to the Commission for approval nominations for individuals to be appointed to the USAC Board of Directors.

The USAC Board currently consists of the following seventeen members: (1) Three incumbent local exchange carrier representatives (one director representing Bell Operating Companies and GTE, one director representing ILECs (other than Bell Operating Companies) with annual operating revenues in excess of \$40 million, and one director representing ILECs (other than Bell Operating Companies) with annual revenues of \$40 million or less); (2) two interexchange carrier representatives (one director representing interexchange carriers with more than \$3 billion in annual operating revenues and one director representing interexchange carriers with annual operating revenues of \$3 billion or less; (3) one commercial mobile radio service representative; (4) one competitive local exchange carrier representative; (5) one cable operator representative; (6) one information service provider representative; (7) three school representatives; (8) one library representative; (9) one rural health care provider representative; (10) one low income consumer representative; (11) one state telecommunications regulator; and (12) one state consumer advocate representative.

47 CFR 54.719-54.725 contain the procedures for Commission review of USAC decisions, including the general filing requirements pursuant to which parties must file requests for review. An affected party would be permitted to file a petition for Commission review with the Bureau within thirty days of an action taken by USAC. The appellant must state specifically its interest in the matter presented for review. The appellant also must provide the Commission with a full statement of relevant, material facts with supporting affidavits and documentation. In addition, the appellant must state concisely the question presented for view, with reference, where appropriate, to the relevant Commission rule, Commission order, or statutory provision. The appellant also must state the relief sought and the relevant statutory or regulatory provision pursuant to which such relief is sought. If an appellant alleges prohibited conduct by a third party, the appellant shall serve a copy of the appeal on such third party, who shall have an opportunity to file an opposition. Similarly, appellants shall serve on USAC a copy of the appeal of a USAC decision filed with the Commission.

Affected parties are encouraged to bring issues to the attention of the division head or the USAC CEO to determine whether the matter can be handled without a formal appeal to the Commission.

The Commission uses the information to select USAC's Board of Directors and to ensure that requests for review are filed properly with the Commission. The information requested is not otherwise available. Without such information, the Commission could not appoint a representative body to USAC's Board of Directors nor resolve requests for review and, therefore, could not fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended.
