

Inventory Completion Correction (78 FR 27993–27994, May 13, 2013). A re-inventory and reassessment of collections resulted in a revision to the minimum number of individuals. The minimum number of individuals increased because two human remains were identified in a faunal collection, and some infant and juvenile human remains were comingled with each other, as well as with adult human remains. The re-inventory also resulted in the discovery of additional associated funerary objects from site LA 297. Transfer of control of the items in this correction notice has not occurred.

BILLING CODE 4312–52–P

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

United States Section; Notice of Availability of the Final Environmental Assessment (EA) and Finding of No Significant Impact Arroyo Colorado at Harlingen Flood Flow Improvement Project, Cameron County, Texas

AGENCY: United States Section, International Boundary and Water

Commission, United States and Mexico (USIBWC).

ACTION: Notice.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969; the Council on Environmental Quality Final Regulations, and the USIBWC Operational Procedures for Implementing Section 102 of NEPA, published in the **Federal Register** September 2, 1981, the USIBWC hereby gives notice that the *FINAL Environmental Assessment and Finding of No Significant Impact Arroyo Colorado at Harlingen Flood Flow Improvement Project, Cameron County Texas* is available.

FOR FURTHER INFORMATION CONTACT:

Kelly Blough, Environmental Protection Specialist, USIBWC, 4191 N Mesa, El Paso, Texas 79902. Telephone: (915) 832–4734, Fax: (915) 493–2428, email: Kelly.Blough@ibwc.gov.

SUPPLEMENTARY INFORMATION: The USIBWC prepared the EA to evaluate the environmental effects of several options that would restore the full flood conveyance capabilities to a 6.3-mile reach of Arroyo Colorado between U.S. Highway 77 Business (US 77 Business) and Cemetery Road in Harlingen, Cameron County Texas. The Preferred Alternative would dredge sediment from the channel throughout the reach and expand existing vegetation management operations. Vegetation management currently occurs along a 3.7-mile reach of Arroyo Colorado between US 77 Business and Farm-to-Market Road 509 (FM 509). The Preferred Alternative would expand vegetation management operations to include the 2.6-mile reach from FM 509 to Cemetery Road. These actions are intended to restore Arroyo Colorado's design flood conveyance capacity of 21,000 cubic feet per second.

The final EA evaluates potential environmental impacts of the No Action Alternative and the Preferred Alternative. Two additional alternatives were considered and evaluated but were removed from consideration because they were either not effective or not feasible. Potential impacts on natural, cultural, and other resources were evaluated. A Finding of No Significant Impact has been prepared for the Preferred Alternative based on a review of the facts and analyses contained in the EA.

An open-house public scoping meeting was held for the proposed project on December 12, 2019, at the Harlingen Community Center located at 201 E. Madison Avenue, Harlingen, Texas 78552. Notifications of the

meeting and instructions to access materials and provide comment electronically were sent by mail to approximately 200 recipients. Recipients included adjacent landowners, regional and local representatives of federal and state resource agencies, interested Native American tribes, and local elected officials. Additionally, notifications were posted in newspapers of local circulation and on City of Harlingen and USIBWC media outlets during the first week of December.

Thirty-five attendees signed in and 13 comments were received within the comment period. Approximately seven commenters stated that they were in general support of the Expanded Vegetation & Sediment Removal Alternative (*i.e.*, the Preferred Alternative). One commenter expressed support for a combination of the three actions that would include Off-Channel Storage, Expanded Vegetation Removal, and Expanded Vegetation & Sediment Removal. The remaining five comments proposed additional actions outside of the scope of this project that may be considered in the future. An environmental impact statement will not be prepared unless additional information which may affect this decision is brought to our attention within 30 days from the date of this Notice.

Availability: The electronic version of the Final EA is available on the USIBWC web page: https://www.ibwc.gov/Files/FinalEA_ArroyoColorado_Harlingen_Signed_082420.pdf.

Dated: September 16, 2020.

Chief Legal Counsel, International Boundary and Water Commission, United States and Mexico, United States Section.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of an expedited review pursuant to the Tariff Act of 1930 (“the Act”) to determine whether

revocation of the antidumping duty order on tetrahydrofurfuryl alcohol from China would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time.

DATES: June 5, 2020.

FOR FURTHER INFORMATION CONTACT:

Jason Duncan (202–205–3432), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission’s TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this review may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On June 5, 2020, the Commission determined that the domestic interested party group response to its notice of institution (85 FR 12337, March 2, 2020) of the subject five-year review was adequate and that the respondent interested party group response was inadequate. The Commission did not find any other circumstances that would warrant conducting a full review.¹ Accordingly, the Commission determined that it would conduct an expedited review pursuant to section 751(c)(3) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(3)).

For further information concerning the conduct of this review and rules of general application, consult the Commission’s Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Please note the Secretary’s Office will accept only electronic filings at this time. Filings must be made through the Commission’s Electronic Document Information System (EDIS, <https://edis.usitc.gov>). No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

Staff report.—A staff report containing information concerning the subject matter of the review will be placed in the nonpublic record on

September 25, 2020, and made available to persons on the Administrative Protective Order service list for this review. A public version will be issued thereafter, pursuant to section 207.62(d)(4) of the Commission’s rules.

Written submissions.—As provided in section 207.62(d) of the Commission’s rules, interested parties that are parties to the review and that have provided individually adequate responses to the notice of institution,² and any party other than an interested party to the review may file written comments with the Secretary on what determination the Commission should reach in the review. Comments are due on or before October 2, 2020 and may not contain new factual information. Any person that is neither a party to the five-year review nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the review by October 2, 2020. However, should the Department of Commerce (“Commerce”) extend the time limit for its completion of the final results of its review, the deadline for comments (which may not contain new factual information) on Commerce’s final results is three business days after the issuance of Commerce’s results. If comments contain business proprietary information (BPI), they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s *Handbook on Filing Procedures*, available on the Commission’s website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission’s procedures with respect to filings.

In accordance with sections 201.16(c) and 207.3 of the rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Determination.—The Commission has determined this review is extraordinarily complicated and therefore has determined to exercise its authority to extend the review period by up to 90 days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission’s rules.

¹ A record of the Commissioners’ votes is available from the Office of the Secretary and at the Commission’s website.

² The Commission has found the response submitted by Penn A Kem LLC to be individually adequate. Comments from other interested parties will not be accepted (*see* 19 CFR 207.62(d)(2)).
