SUPPLEMENTARY INFORMATION:

Background

ICC produces the only family of Codes
and Standards that are comprehensive,
coordinated, and necessary to regulate
the built environment. Federal agencies
frequently use these codes and
standards as the basis for developing
Federal regulations concerning new and
existing construction.

This is the second year of ICC's three
year cycle. The fifteen International
Codes are updated on a three year cycle
where each code is updated in a specific
year. In this current three year cycle, 5
codes were updated in 2012, 9 will be
updated in 2013 and one will be
updated in 2014. Completion of this
cycle results in the 2015 edition of the
International Codes which are
scheduled to be published in the first
half of 2014. For detailed information
on the 2012/2013/2014 Cycle, including
a list of codes to be updated and in
which cycle, go to: http://www.iccsafe.org/cs/codes/Web_pages/cycle.aspx.

The Code Development Process is
initiated when proposals from
interested persons, supported by written
data, views, or arguments are solicited
and published in the Code Change
Agenda document. This document is
posted a minimum of 30 days in
advance of the Committee Action
Hearing serves as the agenda.

At the Committee Action Hearing, the
ICC Code Development Committee
considers testimony on every proposal
and acts on each one individually
(Approval, Disapproval, or Approval as
Modified). The results are published in
a report entitled the Report of the
Committee Action Hearing, which
identifies the disposition of each
proposal and the reason for the
committee's action. Anyone wishing to
submit a comment on the committee's
action, expressing support or opposition
to the action, is provided the
opportunity to do so. Comments
received are published and distributed
in a document called the Public

Comment Agenda which serves as the
agenda for the second hearing called the
Public Comment Hearing. As part of
ICC's Governmental Consensus Process,
at the Public Comment Hearing, only
ICC's Governmental Members are
permitted to vote as they have no vested
interest other than health, safety and
welfare in the enforcement of the code.
Proposals which are approved at the
Public Comment Hearing are
incorporated in the subsequent Edition,
with the next cycle starting with the
submittal deadline for proposals.

International Code Council, 4051 W
