SUPPLEMENTARY INFORMATION:**I. Abstract**

The U.S. Census Bureau plans to request clearance for the collection of data concerning the Voting and Registration Supplement to be conducted in conjunction with the November 2012 CPS. The Census Bureau sponsors the supplement questions, which were previously collected in November 2010, and have been asked biennially since 1964.

This survey has provided statistical information for tracking historical trends of voter and nonvoter characteristics in each Presidential or Congressional election since 1964. The data collected from the November supplement relates demographic characteristics (age, sex, race, education, occupation, and income) to voting and nonvoting behavior. The November CPS supplement is the only source of data that provides a comprehensive set of voter and nonvoter characteristics distinct from independent surveys, media polls, or other outside agencies. Federal, state, and local election officials use these data to formulate

policies relating to the voting and registration process. College institutions, political party committees, research groups, and other private organizations also use the voting and registration data.

II. Method of Collection

The voting and registration information will be collected by both personal visit and telephone interviews in conjunction with the regular November CPS interviewing. All interviews are conducted using computer-assisted interviewing.
