

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or during any period in which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities: Petroleum refinery wastewater systems.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart QQQ).

Estimated number of respondents: 149 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 10,200 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,200,000 (per year), which includes \$19,400 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The burden in labor hours is unchanged from the previous ICR renewal and the number of responses is unchanged. The costs of performance testing and CEMS monitoring are unchanged from the previous ICR renewal. The regulations have not changed over the past three years and are not anticipated to change over the next three years. The growth rate for the industry is very low, negative or non-existent, so there is no change in the estimate of the number of

sources subject to this regulation since the previous ICR renewal.

The Lifeline Fifth Report and Order restores the traditional state and federal roles in designating eligible telecommunications carriers (ETC) and eliminates the Lifeline Broadband Provider (LBP) category. The Order also codifies a requirement that enrollment representatives must register with USAC before interacting with USAC's systems. Finally, the 2019 Lifeline Order implements several process and procedural changes to further bolster program integrity efforts. These changes require minor modifications to the previously approved requirements. The changes made by the Lifeline Fifth Report and Order have a moderate impact on overall burden, increasing the burden hours for some requirements and decreasing the burden hours for other requirements.
