#### Abstract of Proposed Collection

The Refugee Biographic Data Sheet describes a refugee applicant's personal characteristics and is needed to initiate refugee resettlement processing, adjudicate the refugee applicant's application for admission to the United States, to run security checks on refugees by intelligence and federal law enforcement agencies, to conduct medical screenings, and to plan international travel before a refugee applicant can be permitted to travel to the United States. In addition, the information is used to match the refugee with a sponsoring voluntary agency for initial reception and placement in the U.S. under the United States Refugee Admissions Program administered by the Bureau of Population, Refugees, and Migration.

The information collected includes date and place of birth, gender, contact information, including social media handles, marital status, family ties, religion, ethnic group, background, education, occupation, skills, medical information, English language ability, associated family members' refugee resettlement cases, and identity documents. The data is used to initiate refugee resettlement processing, to adjudicate the refugee claim by USCIS, to run security checks on refugees by the federal law enforcement and intelligence community before refugees can be permitted to travel to the United States. Data is also provided to conduct a medical screening before the refugee's arrival in the United States, to plan the refugee's international travel, and to resettlement agencies to determine an appropriate resettlement location in the United States. If the data were not collected, refugees could not be properly vetted by the federal law enforcement and intelligence community, and therefore refugee applicants could no longer be processed through the U.S. Refugee Admissions Program. In addition, the resettlement

agencies would not be able to provide appropriate initial reception and placement services as provided for in the Refugee Act.

#### Methodology

Biographic information is collected in a face-to-face intake process with the applicant overseas. An employee of a Resettlement Support Center, under cooperative agreement with PRM, collects the information and enters it into the Worldwide Refugee Admissions Processing System.

#### Abstract of Proposed Collection

The TechWomen program seeks to empower, connect, and support the next generation of women leaders in science, technology, engineering, and mathematics (STEM) by providing opportunities for them to reach their full potential and become role models for women and girls in their communities. Through mentorship and exchange, the TechWomen program is designed to strengthen participants' professional capacity, increase mutual understanding between key networks of professionals, and expand women and girls' interest in

STEM careers by exposing them to female role models. During the five-week program, foreign participants engage with female leaders in project-based mentorships at leading companies in the Silicon Valley and Bay Area, participate in professional development workshops and networking events, and travel to Washington, DC for targeted meetings and special events to conclude the program. After their completion of the program, emerging leaders and mentors have the opportunity to reconnect during delegation trips to program countries in Africa, South and Central Asia, and the Middle East, which focus on expanding networks of women in STEM fields, creating and strengthening partnerships, encouraging girls to pursue STEM careers and ensuring the sustainability of mentor-fellow relationships. The authority for this program is the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2451 *et seq.*).

To evaluate the impact of the program, the Bureau of Educational and Cultural Affairs (ECA) intends to conduct an evaluation of the program covering the period of 2011 through 2019. The evaluation will determine the strength and sustainability of professional networks created by the program and the extent to which these networks have been leveraged for collaborations between Alumnae to enact change. In order to do so, ECA contracted Social Impact (SI) in early 2020 to conduct an evaluation of the TechWomen program.

### Methodology

The evaluation will use a mixed-methods design including a quantitative survey and key informant interviews (KIIs). Data from these methods will be used to assess the strength of mentor-alumnae networks as a result of the TechWomen project. The evaluation's approach prioritizes ECA utilization of recommendations to maximize the reach and impact of the TechWomen program. The evaluation will include 40 Key Informant Interviews in the Silicon Valley/Bay Area. The sampling will include Professional Mentors, Cultural Mentors, and Impact Coaches. The Evaluation Team (ET) will gather survey data using the network survey platform *ONASurveys.com* and will use data from the online survey to provide visual

representations and analytic data of the TechWomen network structure.

## SURFACE TRANSPORTATION BOARD

[Docket No. EP 730 (Sub-No.1)]

### Roster of Arbitrators—Annual Update

Pursuant to 49 U.S.C. 11708, the Board's regulations establish a voluntary and binding arbitration process to resolve rail rate and practice complaints that are subject to the Board's jurisdiction. Section 11708(f) provides that, unless parties otherwise agree, an arbitrator or panel of arbitrators shall be selected from a roster maintained by the Board. Accordingly, the Board's rules establish a process for creating and maintaining a roster of arbitrators. 49 CFR 1108.6(b).

The Board most recently updated its roster of arbitrators by decision served February 13, 2020. The roster is published on the Board's website at <https://www.stb.gov/> (click the "Resources" tab, select "Litigation Alternatives" from the dropdown menu, and then click on the "arbitration" link).

As provided under 49 CFR 1108.6(b), the Board updates the roster of arbitrators annually. Accordingly, the Board is now requesting the names and qualifications of new arbitrators who wish to be placed on the roster. Current arbitrators who wish to remain on the roster must notify the Board of their continued availability and confirm that the biographical information on file with the Board remains accurate and, if not, provide any necessary updates. Arbitrators who do not confirm their continued availability will be removed from the roster. This decision will be served on all current arbitrators.

Any person who wishes to be added to the roster should file an application describing his or her experience with rail transportation and economic regulation, as well as professional or business experience, including agriculture, in the private sector. Each applicant should also describe his or her training in dispute resolution and/or experience in arbitration or other forms of dispute resolution, including the number of years of experience. Lastly, the applicant should provide his or her contact information and fees.

This year, all comments—including filings from new applicants, updates to

existing arbitrator information, and confirmations of continued availability—should be submitted via e-filing on the Board's website by January 15, 2021.<sup>1</sup> The Board will assess each new applicant's qualifications to determine which individuals can ably serve as arbitrators based on the criteria established under 49 CFR 1108.6(b). The Board will then establish an updated roster of arbitrators by no-objection vote. The roster will include a brief biographical sketch of each arbitrator, including information such as background, area(s) of expertise, arbitration experience, and geographical location, as well as contact information and fees. The roster will be published on the Board's website.

### It is ordered:

1. Applications from persons interested in being added to the Board's roster of arbitrators, and confirmations of continued availability (with updates, if any, to existing arbitrator information) from persons currently on the arbitration roster, are due by January 15, 2021.

2. This decision will be served on all current arbitrators and published in the **Federal Register**.

3. This decision is effective on the date of service.

Decided: December 2, 2020.

By the Board, Allison C. Davis, Director, Office of Proceedings.

**Tammy Lowery,**  
*Clearance Clerk.*
