Accordingly, the proposal will take effect upon filing with the Commission. At any time within 60 days of the filing of such proposed rule change, as amended, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.³⁶

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it had received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Phlx has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Sections (i)(11) and (l)(6) of Phlx Rule 803 provide listing standards for Trust Shares and Index Fund Shares, respectively, to permit listing and trading of these securities pursuant to Rule 19b–4(e) under the Act.³ Rule 19b–4(e) provides that the listing and trading of a new derivative securities product by a self-regulatory organization shall not be deemed a proposed rule change, pursuant to paragraph (c)(1) of Rule 19b–4, if the Commission has approved, pursuant to Section 19(b) of the Act, the self-regulatory organization's trading rules, procedures and listing standards for the product class that would include the new derivative securities product, and the self-regulatory organization has a surveillance program for the product class.⁴

The Phlx rules for Trust Shares and Index Fund Shares currently provide that the current index value for the index underlying a series of Trust Shares (in the case of Phlx Rule 803(i)(11)) and Index Fund Shares (in the case of Phlx Rule 803(l)(6)) will be disseminated every 15 seconds over the Consolidated Tape Association's Network B. The Phlx believes that, rather than identifying specifically in their rules the index dissemination service (that is, the Consolidated Tape Association's Network B), it is preferable to reflect in the rules a requirement for wide dissemination of the underlying index values. This proposed rule change would make clear that the value of the underlying index must be widely disseminated by a reputable index dissemination service, such as the Consolidated Tape Association, Reuters, or Bloomberg. The Phlx believes that the specific identity of the index dissemination service is not necessary, and the purpose of the rule would be achieved, as long as the service used for dissemination is reputable, accepted in the investment community, and effects appropriately wide dissemination of the particular index.

The Exchange therefore proposes to change the generic listing standards for Trust Shares and Index Fund Shares to provide that the value of the underlying index must be widely disseminated by one or more major market data vendors

at least every 15 seconds during the time when the Trust Shares or Index Fund Shares trade on the Exchange.

As currently is the case, if the official index does not change during some or all of the period when trading is occurring (as is typically the case with pre-market-open and after-hours trading, and also with foreign indexes because of time zone differences or holidays in the countries where such indexes' components trade), then the last official calculated index value must remain available throughout the Phlx trading hours.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the provisions of Section 6(b) of the Act,⁵ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁶ in particular, in that it is designed to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Phlx believes that clarifying the rules helps all market participants.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder, applicable to a national securities exchange.⁷ In particular, the Commission believes that the proposed rule change is consistent with Section 6(b)(5) of the Act.⁸ The Commission notes that the proposed index dissemination requirement is similar to the index dissemination requirements used in the listing standards for narrow-based index options.⁹ The Phlx defines "one or more

major market data vendor" to include the Consolidated Tape Association or private vendors, such as Reuters or Bloomberg.¹⁰ The Commission believes, however, that it is critical that such service widely disseminate such index value to market participants.

The Phlx has requested that the Commission find good cause for approving the proposed rule change prior to the thirtieth day after publication of notice thereof in the **Federal Register**. The Commission notes that it has recently approved similar proposals regarding the dissemination of the underlying index value for exchange traded funds traded on Nasdaq, the American Stock Exchange LLC ("Amex"), and the New York Stock Exchange, Inc. ("NYSE").¹¹ The Commission believes that granting accelerated approval of the proposal will allow the Phlx to immediately implement these listing standards for dissemination of the underlying index value that are in place on Nasdaq, the Amex, and the NYSE. Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,¹² for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹³ that the proposed rule change (SR-Phlx-2005-57) be, and hereby is, approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁴

index value be reported at least once every 15 seconds during the time the index option trades on the exchange).

¹⁰ The Commission notes, however, that if a self-regulatory organization designates a data vendor, on an exclusive basis, to disseminate an index value on behalf of the self-regulatory organization, such vendor would be an "exclusive processor" under Section 3(a)(22)(B) of the Act and, absent an exemption, required to register as a securities information processor under Section 11A(b)(1) of the Act.
