The Agency received requests for extension of the comment period for the revised draft guidance. After considering the requests, and in light of the fact that the original comment period is scheduled to close on December 26, 2023, FDA has decided to extend the comment period for the revised draft guidance until January 5, 2024. The Agency believes that this extension allows adequate time for interested persons to submit comments to ensure that FDA can consider the comments before it begins work on the final version of the guidance.

Dated: November 20, 2023.

Associate Commissioner for Policy.
