

and wet meadows, and increase the acreage in cropland and wet meadow. Wetlands would be managed to increase productivity and reduce water pumping costs. Invasive species and State- and county-listed noxious weeds would continue to be a primary management concern. Enhancing and restoring bottomland forest and oak woodland habitats would increase. We would complete habitat assessments to guide restoration of streams and tidally influenced wetlands. We would conduct feasibility studies for reintroducing native species such as Columbian white-tailed deer and western pond turtle, and inventory and monitoring efforts would increase. Current public use areas and closures would remain in effect under Alternative 2. The waterfowl hunt area/location would remain unchanged. Proposed changes in wetland management would improve the hunt program's quality over time. A new access point to the River 'S' Unit, including a 2-lane bridge and 1-mile entrance road, would be developed. The existing auto tour route would be open year round in its current location; however, the route would be shortened slightly to provide habitat for dusky Canada geese and cranes. A new 1.5-mile dike-top walking trail would be constructed. Environmental and cultural resources education and interpretation programs would increase.

Alternative 3

Under Alternative 3, actions to protect, maintain, and restore habitat for priority species are the same as under Alternative 2. Current public use areas and closures would remain in effect. The waterfowl hunt area/location would remain the same; however, core dusky habitat on the south end of the River 'S' Unit (207 acres) would be closed to goose hunting. The existing access point to the River 'S' Unit would be retained; a new 2-lane bridge would be constructed to eliminate the at-grade railroad crossing; and the entrance road would be widened. Implementation of this alternative would require either land acquisition or easement relocation/expansion. The existing auto tour route would remain unchanged. A new 1.5-mile dike-top walking trail would be constructed. Environmental and cultural resources education and interpretation programs would increase.

Alternative 4

Under Alternative 4, actions to protect, maintain, and restore habitat for priority species would be the same as under Alternatives 2 and 3, except slightly more crops would be grown. The total wildlife sanctuary area (closed

to public use) would be slightly less than the other alternatives; however, this alternative provides the largest contiguous sanctuary for dusky Canada geese and sandhill cranes on the south end of the refuge. A new access point to the River 'S' Unit, including a 2-lane bridge and 1-mile entrance road north of the current access point, would be developed. Closing the south end of the River 'S' Unit to public use during waterfowl and crane migration season, to benefit dusky Canada geese and sandhill cranes is proposed in this alternative. The south end of the River 'S' Unit (207 acres) would be closed to hunting, and the south end of the auto tour route would be closed during waterfowl season (October 1–March 15), which would reduce its length from 4.3 miles to 2.6 miles during that time. To offset the loss of hunting opportunities on the south end of the River 'S' Unit, 250 acres of Bachelor Island would be opened to waterfowl hunting. The northern portion of this area would be closed early to hunting (January 15) to prevent disturbance to a great blue heron nesting colony. A new 1.5-mile dike-top walking trail would be constructed. Environmental and cultural resources education and interpretation programs would increase.

Public Availability of Documents

In addition to the information in **ADDRESSES**, you can obtain a CD-ROM copy of the DCCP/EA from the refuge at phone number (360) 887-4106. Copies may be reviewed at the refuge and on the Internet at <http://www.fws.gov/ridgefieldrefuges/ridgefield>. Printed copies will be available for review at the following libraries: Ridgefield Community Library, 210 North Main Ave., Ridgefield, WA 98642; Vancouver Community Library, 1007 East Mill Plain Blvd., Vancouver, WA 98663; and Multnomah County Central Library, 801 SW. 10th Ave., Portland, OR 97205.

Next Steps

After this comment period ends, we will analyze the comments and address them in the final CCP and decision document.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your identifying information from the public, we cannot guarantee that we will be able to do so.

Dated: April 20, 2010.

Carolyn A. Bohan,

Acting Regional Director, Region 1, Portland, Oregon.

INTERNATIONAL TRADE COMMISSION

[USITC SE-10-019]

Sunshine Act Meeting Notice

AGENCY HOLDING THE MEETING: United States International Trade Commission.

TIME AND DATE: June 15, 2010 at 9:30 a.m.

PLACE: Room 101, 500 E Street, SW., Washington, DC 20436. *Telephone:* (202) 205-2000.

STATUS: Open to the public.

Matters To Be Considered:

1. *Agenda for future meetings:* None.
2. Minutes.
3. Ratification List.
4. Inv. No. 731-TA-44 (Third Review) (Sorbitol from France)—briefing and vote. (The Commission is currently scheduled to transmit its determination and Commissioners' opinions to the Secretary of Commerce on or before June 28, 2010.)

5. *Outstanding action jackets:* None.

In accordance with Commission policy, subject matter listed above, not disposed of at the scheduled meeting, may be carried over to the agenda of the following meeting.

Issued: June 8, 2010.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.
