SUPPLEMENTARY INFORMATION:

Title: Reporting Requirements for Disability-Related Complaints.

OMB Control Number: 2105-0551.

Type of Request: Renewal of currently approved Information Collection Request.

Background: On July 8, 2003, the Office of the Secretary published a final rule that requires most certificated U.S. and foreign air carriers operating to, from and within the U.S. that conduct passenger-carrying service utilizing large aircraft to record complaints that they receive alleging inadequate accessibility or discrimination on the basis of disability. The carriers must also categorize these complaints according to the type of disability and nature of complaint, prepare a summary report annually of the complaints received during the preceding calendar year, submit the report to the Department's Aviation Consumer Protection Division, and retain copies of correspondence and records of action taken on the reported complaints for three years. The rule requires carriers to submit their annual report via the World Wide Web except if the carrier can demonstrate an undue burden in doing so and receives permission from the Department to submit it in an alternative manner. The first required report covering calendar year 2004 was due to the Department on January 24, 2005, the second report covering calendar year 2005 was due on January 30, 2006, the third report covering calendar year 2006 was due on January 29, 2007, the fourth report covering calendar year 2007 was due on January 28, 2008, and the fifth report covering calendar year 2008 was due on January 26, 2009. Subsequent reports of disability-related complaints received by carriers are due each year on the last Monday in January for the prior calendar year. On August 24, 2007, OMB approved information collection of disability-related complaints, "Reporting Requirements for Disability-Related Complaints" through August 31, 2010.

Respondents: Certificated U.S. and foreign air carriers operating to, from, and within the United States that conduct passenger-carrying service with large aircraft.

Estimated Number of Respondents: 370.

Estimated Total Burden on Respondents: 185 hours.

Comments are invited on: (a) Whether the collection of information is

necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Issued in Washington, DC on March 3, 2010.

Samuel Podberesky,

Assistant General Counsel for Aviation Enforcement and Proceedings, U.S. Department of Transportation.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Docket No. AB-55 (Sub-No. 695X)]

CSX Transportation, Inc.— Abandonment Exemption—in Jefferson County, NY

CSX Transportation, Inc. (CSXT) has filed a verified notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon a 0.24-mile rail line, known as the Roe Feed Industrial Track, on its Northern Region, Albany Division, St. Lawrence Subdivision, from milepost QMC 87.2 to the end of track at milepost QMC 87.44, in Philadelphia, Jefferson County, NY. The line traverses United States Postal Service Zip Code 13673, and there are no stations on the line.

CSXT has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; (3) no formal complaint filed by a user of rail service on the line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Surface Transportation Board (Board) or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental report), 49 CFR 1105.8 (historic report), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on April 7, 2010, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,¹ formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),² and trail use/rail banking requests under 49 CFR 1152.29 must be filed by March 18, 2010. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by March 29, 2010, with: Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to CSXT's representative: Kathryn R. Barney, 500 Water Street—J150, Jacksonville, FL 32202.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

CSXT has filed a combined environmental and historic report which addresses the effects, if any, of the abandonment on the environment and historic resources. SEA will issue an environmental assessment (EA) by March 12, 2010. Interested persons may obtain a copy of the EA by writing to SEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling SEA, at (202) 245-0305. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339.] Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking

¹ The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Section of Environmental Analysis (SEA) in its independent investigation) cannot be made before the exemption's effective date. See *Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

² Each OFA must be accompanied by the filing fee, which currently is set at \$1,500. See 49 CFR 1002.2(f)(25).

conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), CSXT shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by CSXT's filing of a notice of consummation by March 8, 2011, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at "WWW.STB.DOT.GOV."

Decided: March 1, 2010.

By the Board, Rachel D. Campbell, Director, Office of Proceedings.

Kulunie L. Cannon,
Clearance Clerk.

Federal Aviation Administration

Notice of Intent To Request Revision From the Office of Management and Budget of a Currently Approved Information Collection Activity, Request for Comments; Fuel Venting and Exhaust Emission Requirements for Turbine Engine Powered Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FAA invites public comments about our intention to request the Office of Management and Budget (OMB) to approve a current information collection. The date of manufacture and compliance status stamped on a nameplate of each turbojet engine permits rapid determination by FAA inspectors, owners, and operators whether an engine can legally be installed and operated on an aircraft in the United States.

DATES: Please submit comments by May 7, 2010.

FOR FURTHER INFORMATION CONTACT: Carla Mauney on (202) 267-9895, or by e-mail at: Carla.Mauney@faa.gov.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

Title: Fuel Venting and Exhaust Emission Requirements for Turbine Engine Powered Airplanes.

Type of Request: Extension without change of an approved collection.

OMB Control Number: 2120-0508.

Form(s): There are no FAA forms associated with this collection.

Affected Public: A total of 1,200 Respondents.

Frequency: The information is collected on occasion.

Estimated Average Burden per Response: Approximately 5 minutes per response.

Estimated Annual Burden Hours: An estimated 100 hours annually.

Abstract: The date of manufacture and compliance status stamped on a nameplate of each turbojet engine permits rapid determination by FAA inspectors, owners, and operators whether an engine can legally be installed and operated on an aircraft in the United States. The information is to be used by FAA inspectors, purchasers, owners, and operators periodically, during the course of the year, to confirm that the engines meet U.S. EPA pollution requirements in lieu of searching through extensive paper records.

ADDRESSES: Send comments to the FAA at the following address: Ms. Carla Mauney, Room 712, Federal Aviation Administration, IT Enterprises Business Services Division, AES-200, 800 Independence Ave., SW., Washington, DC 20591.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on February 25, 2010.

Carla Mauney,

FAA Information Collection Clearance Officer, IT Enterprises Business Services Division, AES-200.
