## II. Request for Data and Information

The conditions piroctone olamine, 0.05 percent to 0.5 percent and 0.1 percent to 1.0 percent, as a dandruff control single active ingredient in leave-on and rinse-off dosage forms, respectively, will be evaluated for inclusion in the monograph for OTC drug products for the control of dandruff, seborrheic dermatitis, and psoriasis (21 CFR part 358, subpart H). Accordingly, FDA invites all interested persons to submit data and information, as described in § 330.14(f), on the safety and effectiveness of these conditions for FDA to determine whether they can be GRAS/E and not misbranded under recommended conditions of OTC use. The TEA did not include an official or proposed United States Pharmacopeia-National Formulary (USP-NF) drug monograph for piroctone olamine. According to § 330.14(i), an official or proposed USP-NF monograph for piroctone olamine must be included as part of the safety and effectiveness data for this ingredient. Interested parties should provide an official or proposed USP-NF monograph and safety and effectiveness data for both leave-on and rinse-off dosage forms containing this ingredient.

Interested persons should submit comments, data, and information to the Division of Dockets Management (see **ADDRESSES**) by May 18, 2004. Three copies of all comments, data, and information are to be submitted. Individuals submitting written information or anyone submitting electronic comments may submit one copy. Submissions are to be identified with the docket number found in brackets in the heading of this document and may be accompanied by supporting information. Received submissions may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday. Information submitted after the closing date will not be considered except by petition under 21 CFR 10.30.

## III. Marketing Policy

Under § 330.14(h), any product containing the conditions for which data and information are requested may not be marketed as an OTC drug in the United States at this time unless it is the subject of an approved new drug application or abbreviated new drug application.
