

Need and Use of the Information: FNS collects information from state and local agencies, for-profit and non-profit businesses, and individuals and households. This collection is mandatory for the states, local agencies, and the businesses, but it is required to obtain or maintain benefits for the individuals and households. The information collected from the state and local agencies is used for a variety of program activities such as ordering USDA foods; arranging for their delivery to storage facilities; sharing information concerning inaccurate or incomplete orders; providing inventory data; applying to participate in the programs and preparing plans to initiate or continue program operations; recovering unused funds; responding to audits; conducting on-site reviews; reporting on financial status and administrative costs; and other program monitoring activities. The information collected from the individuals and households permits them to apply for benefits (including assistance during disasters or situations of distress) or to recertify their eligibility. FNS uses this information to manage the Food Distribution Programs and monitor the use of Federal funds.

Description of Respondents: State, Local, or Tribal Government; Business or other for-profit; Not-for-profit institutions; and Individuals or households.

Number of Respondents: 756,147.

Frequency of Responses:

Recordkeeping; Reporting: On occasion; Quarterly; Semi-annually; Monthly; and Annually.

Total Burden Hours: 1,218,438.

Ruth Brown,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410-30-P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request; Reinstatement

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and reinstatement under the Paperwork Reduction Act of 1995, Public Law 104-13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including

the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by August 21, 2023. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Field Crops Production.

OMB Control Number: 0535-0002.

Summary of Collection: The primary functions of the National Agricultural Statistics Services' (NASS) are to prepare and issue State and national estimates of crop and livestock production, disposition, and prices and to collect information on related environmental and economic factors. The Field Crops Production Program consists of probability field crops surveys and supplemental panel surveys. These surveys are extremely valuable for commodities where acreage and yield are published at the county level. NASS will use surveys to collect information through a combination of the internet, mail, telephone, and personnel interviews. The general authority for these data collection activities is granted under U.S. Code title 7, section 2204.

Need and Use of the Information: NASS collects information on field crops to monitor agricultural developments across the country that may impact on the nation's food supply. The Secretary of Agriculture uses estimates of crop production to administer farm program legislation and

import and export programs. Collecting this information less frequently would eliminate the data needed to keep the Department abreast of changes at the State and national level.

Description of Respondents: Farms; Business or other for-profits.

Number of Respondents: 532,853.

Frequency of Responses: Reporting: Weekly, Monthly, Quarterly, Annually.

Total Burden Hours: 142,236.
