

Monument, the Secretaries are to ensure that any sustenance, recreational, or traditional indigenous fishing in the Islands Unit be managed as a sustainable activity. Proclamation 8335 also provided that Marianas Trench Marine National Monument management plans shall provide for traditional access by indigenous persons, as identified by the Secretaries in consultation with the Commonwealth of the Northern Mariana Islands (CNMI) government, for culturally significant subsistence, cultural and religious uses within the Islands Unit. Presidential Proclamation 8337 for the Pacific Remote Islands Marine National Monument states that non-commercial fishing may be permitted and directs the Secretaries to provide a process to ensure that recreational fishing be sustainable. The Presidential Proclamations establishing the monuments identified the Magnuson-Stevens Fishery Conservation and Management Act (MSA; 16 U.S.C. 1801 *et seq.*) as the statutory authority to develop regulations related to fisheries. In following the MSA process to promulgate fishing regulations for the Rose Atoll, Islands Unit of the Marianas Trench, and Pacific Remote Islands Marine National Monuments, the National Marine Fisheries Service (NMFS), which acts on behalf of the Secretary of Commerce, has requested that the Western Pacific Fishery Management Council undertake the process to recommend definitions and fishing regulations for the types of fishing activities mentioned above.

The Western Pacific Fishery Management Council will hold public meetings to gather information and views from the public regarding potential management measures for non-commercial fishing in the Rose Atoll, Islands Unit of the Marianas Trench, and Pacific Remote Islands Marine National Monuments as follows:
