

that operate Rail Fixed Guideway Public Transportation Systems in their jurisdictions to consider signal system safety and train control as part of the RTA's Safety Risk Management (SRM) process. In addition, FTA recommends SSOAs incorporate SA 22-2 into their oversight activities. FTA SA 22-1 "Rail Car Passenger Door Inspection and Functional Testing" and SA 22-2 "Signal System Safety and Train Control" are available in their entirety on the agency's public website: (<https://www.transit.dot.gov/regulations-and-guidance/safety/fta-safety-advisories>).

DATES: FTA recommends that SSOAs direct RTAs within their jurisdiction to evaluate the sufficiency of rail car passenger door inspection and function testing procedures, and to consider signal system safety and train control as part of the RTA's SRM process on an as-needed basis for SA 22-1 and SA 22-2 by November 14, 2022. In addition, FTA recommends that SSOAs obtain any completed risk assessments and any associated risk mitigations from the RTAs for SA 22-2 by April 11, 2023.

Federal Transit Administration

Announcement of Fiscal Year 2022 Low or No Emission Program and Grants for Buses and Bus Facilities Program and Project Selections; Correction

AGENCY: Federal Transit Administration (FTA), U.S. Department of Transportation (DOT).

ACTION: Notice; correction.

SUMMARY: On August 18, 2022, the Federal Transit Administration (FTA) published a notice in the **Federal Register** announcing project selections for the Fiscal Year 2022 Low or No Emission (Low-No) Vehicle Program. This notice provides a correction to eight project descriptions.

FOR FURTHER INFORMATION CONTACT: For general information about this notice contact Amy Volz, Program Manager,

Office of Transit Programs, at amy.volz@dot.gov, or (202) 366-7484. Please contact the appropriate FTA Regional Office for any specific requests for information or technical assistance. FTA Regional Office contact information is available at: <https://www.transit.dot.gov/about/regional-offices/regional-offices>.

SUPPLEMENTARY INFORMATION: The Bipartisan Infrastructure Law, enacted as the Infrastructure Investment and Jobs Act (Pub. L. 117-58), requires that 25 percent of the funding made available for the Low or No Emission Program each year be awarded to low-emission projects. In order to help meet this requirement, FTA selected eight projects which applied for a mixture of low-emission and zero-emission components, only funding the low-emission components of the project. The notice, published on August 18, 2022, 87 FR 50916, which included the list of selected projects, did not make this distinction in the project descriptions. The following table contains the corrections to the project descriptions found in Table 1 "FY 2022 Low or No Emission Project Selections" in the prior publication.
