

Township 20 North, Range 32 West, Principal Meridian, Montana, was accepted September 15, 2000.

**T. 20 N., R. 33 W.**

The plat, representing Amended Protraction Diagram 30 of unsurveyed Township 20 North, Range 33 West, Principal Meridian, Montana, was accepted September 15, 2000.

The amended protraction diagrams were prepared at the request of the U.S. Forest Service to accommodate Revision of Primary Base Quadrangle Maps for the Geometrics Service Center.

A copy of the preceding described plats of the amended protraction diagrams accepted September 15, 2000, will be immediately placed in the open files and will be available to the public as a matter of information.

If a protest against these amended protraction diagrams, accepted September 15, 2000, as shown on these plats, is received prior to the date of the official filings, the filings will be stayed pending consideration of the protests.

These particular plats of the amended protraction diagrams will not be officially filed until the day after all protests have been accepted or dismissed and become final or appeals from the dismissal affirmed.

### National Park Service

#### **Finding of No Significant Impact and Notice of Decision for the Placement of Wireless Telecommunication Facility for Bell Atlantic Mobile (Verizon Wireless) at the Ridge Trail Site in Great Falls Park, Virginia**

**AGENCY:** National Park Service, Interior.

**ACTION:** Availability of the Finding of No Significant Impact (FONSI) And Notice of Decision for the Placement of Wireless Telecommunication Facility for Bell Atlantic Mobile (Verizon Wireless) at the Ridge Trail Site in Great Falls Park, Virginia.

**SUMMARY:** Pursuant to the Council on Environmental Quality Regulations and National Park Service Policy, the National Park Service (NPS) announces the availability of a Finding of No Significant Impact (FONSI) And Notice of Decision for the placement of a

wireless telecommunication facility for Verizon Wireless at the Ridge Trail site in Great Falls Park, Virginia. Great Falls Park is a unit of the George Washington Memorial Parkway (GWMP). The Final Environmental Assessment includes several alternatives showing a monopole at different heights, different building sizes and an alternative technology. The alternative of a facility no higher than 126 feet disguised as a "tree" with limited ground level support structures was chosen after review of public comments from two public hearings and from written comments. This alternative provides increased service for the applicant to meet the needs of its customers while minimizing the visual impacts from various locations along the Potomac River near Great Falls in both Virginia and Maryland including the Chesapeake and Ohio Canal National Historical Park and the GWMP. It also mitigates any impact to historic resources at the site of the facility. This action will lead to the issuance of a Right-of-Way permit to Verizon Wireless. Along with the tower and the support buildings, the permit will provide for improvements to a portion of the Ridge Trail, for the purposes of construction and maintenance activities associated with the wireless communications facility. If certain lights are required for aircraft navigation, Verizon Wireless will be required to develop and install a mechanism that will allow the USPP and other law enforcement agencies to activate the light when needed for rescue operations. If it is not possible, or regulatory agencies do not allow this mechanism for the light to be controlled, the height of the tower will be lowered to tree canopy height (approximately 100 feet) where it will not be as visible and will not interfere with aircraft flights. If technological advances result in the capability of the applicant to provide this service to customers without the dedication and use of public lands, all facilities will be removed and the lands restored to the satisfaction of the NPS. This action is effective on the date of signature; however, there are reviews by various agencies, either required or recommended, that may alter the final design appearance of the facility. Regardless of those reviews and revisions, the height will not be greater than 126 feet, the support buildings will not rise higher than 20 feet above grade, and the land taken by the perimeter fence and all structures will not exceed 2,000 square feet.

**DATES:** The FONSI and Notice of Decision was signed by the National Capital Regional Director on August 30, 2000.

**ADDRESSES:** Copies of the FONSI, Notice of Decision and the Final Environmental Assessment will be available for public inspection at GWMP Headquarters, Turkey Run Park, McLean, VA, Monday through Friday, 8:00 a.m. to 4:00 p.m.; and at Great Falls Park Visitor Center on weekdays from 10 a.m. to 5 p.m. and on weekends from 10 a.m. to 6pm. An electronic copy will be available on the Great Falls Park website: [http://www.nps.gov/gwmp/GRFA\\_EA/grfa\\_ea\\_title.htm](http://www.nps.gov/gwmp/GRFA_EA/grfa_ea_title.htm). A limited number of copies are also available upon request by contacting George Washington Memorial Parkway at (703) 289-2500.

**SUPPLEMENTARY INFORMATION:** Bell Atlantic Mobile (Verizon Wireless) proposed to construct a telecommunications facility.

### Bureau of Reclamation

[DES-00-417]

#### **East Bay Municipal Utility District Supplemental Water Supply Project**

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of availability of draft recirculated environmental impact report/supplemental environmental impact statement (REIR/SEIS).

**SUMMARY:** Pursuant to the National Environmental Policy Act (NEPA) and the California Environmental Quality Act, the Bureau of Reclamation (Reclamation) and the East Bay Municipal Utility District (EBMUD) have prepared a joint REIR/SEIS for the East Bay Municipal Utility District Supplemental Water Supply Project. Reclamation and EBMUD originally prepared a draft environmental impact report/draft environmental impact statement (DEIR/DEIS) for the proposed project in November 1997.

The proposed action is for EBMUD to obtain a supplemental water supply to help reduce customer deficiencies during droughts, and provide system reliability and to allow EBMUD to use its existing contract with Reclamation for delivery of water from the American River.

**DATES:** The REIR/SEIS will be available for a 45-day public review period.

Comments are due on November 20, 2000. Public hearings on the REIR/SEIS will be held on October 17, 2000 from 7 p.m. to 9 p.m. in Sacramento and on October 19, 2000 from 7 p.m. to 9 p.m. in Oakland.

**ADDRESSES:** The public hearings will be held at the Sacramento Red Lion Inn, Yosemite Room, 1401 Arden Way, Sacramento, CA and at the EBMUD Office, 375 11th Street, Oakland CA 94623.

Copies of the REIR/SEIS may be requested from Mr. Kurt Ladensack, Water Supply Improvements Division, EBMUD, P.O. Box 24055, MS #305, Oakland, CA 94623, telephone (510) 287-1197.

See **SUPPLEMENTARY INFORMATION** section for locations where copies of the REIR/SEIS are available for inspection.

**FOR FURTHER INFORMATION CONTACT:** Mr. Robert Schroeder, Environmental Specialist, U.S. Bureau of Reclamation, Central California Area Office, 7794 Folsom Dam Road, Folsom, CA 95630, telephone (916) 988-1707, or Mr. Kurt Ladensack, Water Supply Improvements Division, EBMUD, P.O. Box 24055, MS #305, Oakland, CA 94623, telephone (510) 287-1197.

**SUPPLEMENTARY INFORMATION:** The U.S. Bureau of Reclamation (Reclamation) and the East Bay Municipal Utility District (EBMUD) have prepared an REIR/SEIS for the East Bay Municipal Utility District Supplemental Water Supply Project. Reclamation and EBMUD originally prepared a draft environmental impact report/draft environmental impact statement (DEIR/DEIS) for the proposed project in November 1997.

EBMUD currently holds a contract with Reclamation, signed in 1970, for delivery of up to 150,000 acre-feet per year from the existing Folsom South Canal (FSC). The existing contract specifies a delivery location at an existing turnout structure near Grant Line Road in Sacramento County. The proposed action is for EBMUD to obtain a supplemental water supply to help in reducing customer deficiencies during droughts, and providing system reliability and to allow EBMUD to use its existing contract with Reclamation for delivery of water from the American River. Two primary alternatives were considered in the 1997 DEIR/DEIS, and alternate project configurations of one of these primary alternatives were also considered.

The first alternative considered in the 1997 DEIR/DEIS was an EBMUD-only project that involves deliveries from the American River via FSC to a new pipeline connection between FSC in

south Sacramento County and EBMUD's Mokelumne Aqueducts in San Joaquin County. Alternate project alternatives considered would involve pipeline connections from the turnout location described above, which would not require an amendment of the existing water service contract, and from the terminus of FSC, which would require an amendment of the water service contract.

The second alternative considered in the 1997 DEIR/DEIS involves a joint project between EBMUD, the City of Sacramento (City), and the County of Sacramento (County). Under this project alternative, water for EBMUD and the County would be delivered through a new intake location on the American River near its confluence with the Sacramento River, which would require an amendment of the water service contract. The City and County have subsequently indicated that they are not interested in pursuing such a joint project.

During public review of the 1997 DEIR/DEIS, EBMUD and Reclamation received a number of comments. In particular, some commenters focused on the range of alternatives considered in detail in the 1997 DEIR/DEIS, and on certain impact assessment methodologies related to water temperatures and fishery resources. After reviewing these comments, EBMUD and Reclamation have decided to prepare this REIR/SEIS to address these specific comments.

This REIR/SEIS describes the environmental effects of taking delivery of water under EBMUD's contract from the lower American River near its confluence with the Sacramento River, two locations on the Sacramento River between its confluence with the American River and Freeport, California, and the Bixler location in the Sacramento-San Joaquin River Delta. Emphasis is directed toward potential effects related to American River fisheries, endangered species, CVP water users, pipeline construction, and biological resources in the EBMUD service area.

Reclamation and EBMUD are releasing the REIR/SEIS for a 45-day public review period, after which the Final EIR/EIS will be prepared and released to the public. After the required 30-day waiting period, Reclamation will be preparing a Record of Decision (ROD) and EBMUD will be preparing a Notice of Determination, both of which will state the action that will be implemented and will discuss all factors leading to the respective decision of each agency. When an alternative is selected and the ROD is signed,

Reclamation and EBMUD will resume negotiations on the amendatory contract to develop contract terms that more accurately reflect the selected alternative.

## DEPARTMENT OF JUSTICE

### **Justice Management Division; Agency Information Collection Activities: Proposed Collection; Comments Requested**

**ACTION:** Notice of Information Collection Under Review; Extension of a currently approved collection; Certification of Identity.

The Department of Justice, Justice Management Division, has submitted the following information collection request to the Office of Management and Budget for review and clearance in accordance with the Paperwork Reduction Act of 1995. This proposed information collection is published to obtain comments from the public and affected agencies. Comments are encouraged and will be accepted until December 4, 2000.

Request written comments and suggestions from the public and affected agencies concerning the proposed collection of information. Your comments should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

If you have additional comments, suggestions, or need a copy of the proposed information collection instrument with instructions, or additional information, please contact Patricia D. Harris, at 301-436-1018 or write to FOIA/PA Coordinator, Mail Management Services, Facilities and Administrative Services Staff, Justice Management Division, United States Department of Justice, 10th and Pennsylvania Ave., NW., Washington, DC 20530.

### **Overview of This Collection**

(1) *The type of information collection:* Extension of a currently approved collection.

(2) *The title of the form/collection:* Certification of Identity.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form: DOJ-361. Facilities and Administrative Services Staff, Justice Management Division, U.S. Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals. The information collection will be used by the Department to identify individuals requesting certain records under the Privacy Act. Without this form an individual cannot obtain the information requested.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 21,000 respondents at 15 minutes per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 5,250 annual burden hours.

If additional information is required contact Mr. Robert B. Briggs, Clearance Officer, United States Department of Justice, Information Management and Security Staff, Justice Management Division, Suite 1220, 1331 Pennsylvania Ave, NW, Washington, DC 20530.

Dated: September 27, 2000.
