Although these subheadings include both pipes and tubes, the scope of these orders is limited to welded austenitic stainless steel. Although the HTSUS subheadings are provided for convenience and Customs purposes, our written description of the scope of these orders are dispositive.

#### Determination

As a result of the determination by the Department and the Commission that revocation of the antidumping duty orders on certain welded stainless steel pipe from South Korea and Taiwan would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.222(i)(1), the Department hereby orders the continuation of the antidumping duty orders on certain welded stainless steel pipe from South Korea and Taiwan. The Department will instruct the Customs Service to continue to collect antidumping duty deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of continuation of these orders will be the date of publication in the **Federal Register** of this notice. Pursuant to section 751(c)(2) and 751(c)(6) of the Act, the Department intends to initiate the next five-year review of the orders on certain welded stainless steel pipe from South Korea and Taiwan not later than September 2005.

**SUPPLEMENTARY INFORMATION:** Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules"). These Rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686).

A first Request for Panel Review was filed with the Canadian Section of the NAFTA Secretariat, pursuant to Article 1904 of the Agreement, on September 22, 2000, requesting panel review of the final determination described above.

The Rules provide that:

(a) A Party or interested person may challenge the final determination in whole or in part by filing a Complaint in accordance with Rule 39 within 30 days after the filing of the first Request for Panel Review (the deadline for filing a Complaint is October 23, 2000);

(b) A Party, investigating authority or interested person that does not file a Complaint but that intends to appear in

support of any reviewable portion of the final determination may participate in the panel review by filing a Notice of Appearance in accordance with Rule 40 within 45 days after the filing of the first Request for Panel Review (the deadline for filing a Notice of Appearance is November 06, 2000); and

(c) The panel review shall be limited to the allegations of error of fact or law, including the jurisdiction of the investigating authority, that are set out in the Complaints filed in the panel review and the procedural and substantive defenses raised in the panel review.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Massachusetts Division of Marine Fisheries has been conducting an experimental fishery, referred to as the Raised Footrope Whiting Trawl Experimental Fishery (Raised Footrope Experiment), to allow trawlers to target whiting, red hake, dogfish and other small mesh species using a raised footrope trawl. The experiment was designed to assess the effectiveness of a raised footrope small mesh otter trawl in reducing bycatch of regulated multispecies. Framework Adjustment 35 to the Multispecies Fishery Management Plan made the Raised Footrope Experiment a multispecies exempted fishery. The collection-of-information requirements are: (1) a request for a certificate to fish in the Raised Footrope Whiting Trawl Exemption, and (2) a notification of intention to withdraw from the Raised Footrope Whiting Trawl Exemption. Requests for a certificate identify the person, the vessel name, the permit number, and how long he/she intends to fish in the exemption area (no less than 7 days but not more than 4 months). These collection-of-information requirements were approved by OMB under emergency procedures for 6 months; NOAA is soliciting comments on its intent to request a 3-year Paperwork Reduction Act approval for the requirements.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

Foreign fishing activities can be authorized under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*). Collection of information from permitted foreign vessels is necessary to monitor their activities and whereabouts in U.S. waters. Reports are also necessary to monitor the amounts of fish, if any, such vessels receive from U.S. vessels in joint venture operations, wherein U.S. vessels catch and transfer at-sea to permitted foreign vessels certain species for which U.S. demand is low relative to the abundance of the species.

**II. Method of Collection**

Activity reports are made by radio when fishing begins or ceases, to report on the transfers of fish, and to file weekly reports on the catch and receipt of fish. Foreign vessels are also subject to recordkeeping requirements. These include a communications log, a transfer log, a daily fishing log, a consolidated fishing or joint venture log, and a daily joint venture log. These records must be maintained for three years.
