BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Indian Health Service

Privacy Act System of Records

AGENCY: Indian Health Service (IHS), HHS.

ACTION: Amendment of one altered Privacy Act system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, as amended, 5 U.S.C. 552a(e)(4), the IHS has amended and is publishing the proposed alteration of a system of records, System No. 09-17-0001, "Medical, Health and Billing Records." The amended and altered system of records makes only administrative edits and revisions as necessary.

DATES: The amended and altered system, which incorporates the comments received following the initial publication, shall become effective December 30, 2005.

FOR FURTHER INFORMATION: Contact Ms. Patricia Gowan, IHS Lead Health Information Management (HIM) Consultant (Acting), Office of Health Programs, Phoenix Area Office IHS, Two Renaissance Square, Suite 606, 40 North Central Avenue, Phoenix, AZ 85004 or via the Internet at Patricia.Gowan@ihs.gov.

SUPPLEMENTARY INFORMATION: As required by the Privacy Act of 1974, as amended, 5 U.S.C. 552a(e)(4), this document sets forth the amendment of the proposed alteration of a system of records maintained by the IHS, in response to comments received following the initial publication in the **Federal Register** at 70 FR 49931 on August 25, 2005. The purpose of altering System No. 09-17-0001, "Health and Medical Records," is to enable the IHS to clarify that IHS also uses the records in the system to process, document, and monitor third-party payment billing and reimbursement claims, in addition to debt collection activities; to include contract health service records; to include several new and modified purposes and new and modified routine uses that are in line with the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule provisions and Agency policy changes. IHS published the notification of the altered Privacy Act system of records in the **Federal Register** on August 25, 2005. During the comment period, IHS received several responses from the public. After a careful review of their concerns, IHS does not agree with the suggested changes and therefore has not revised the notice. One of the commentors suggested revising routine use #10 so that it would provide an exception that would enable IHS to disclose patient health information for public health purposes. IHS has decided not to accept the recommendation of this comment because the IHS already complies with state laws that specifically require disclosures of health

information for public health activities under the current routine use #7. In addition, the proposed routine use #10 modifies and replaces the current routine use #7 to allow disclosures "as authorized by law" which is a broader standard than the current "as required by law" standard. In fact, the particular example submitted by the commentor in support of the recommendation does not meet the public health authority and activities criteria of the HIPAA Privacy Rule. The Nevada State Pharmacy Board is not a public health authority and reporting such information to a state database appears to be primarily for law enforcement purposes. The Nevada statute also does not specifically require IHS or other Federal agencies to report to their database.

Another comment stated that "IHS consider changing the permissive word 'may' to the mandatory word 'shall' in regards to the proposed Routine Use Number 23." In response to the comment, IHS has decided to reject the comment based on the fact that routine use disclosures are not mandatory but are discretionary disclosures made by the appropriate IHS Privacy Act System Manager for which is defined in the Privacy Act of 1974, as amended, 5 U.S.C. 552a; and the OMB Privacy Act Implementation Guidelines and Responsibilities of July 9, 1975.

The revision or modification of various IHS and Federal Records addresses in Appendix 1 and Appendix 2 is necessary to this system of records as administrative edits or changes. In Appendix 1, the address for the Fort McDermitt Clinic under the Phoenix Area IHS was inadvertently omitted;

and under Appendix 2, the Federal Archives and Records Center located in Laguna Niguel, California has moved to Perris, California as noted by the IHS Records Officer.

This Notice meets the requirement to notify the public that the IHS is amending the proposed changes in the IHS system of records by incorporating the administrative changes following the initial publication at 70 FR 49931, August 25, 2005. With this notification, this system of records is effective December 30, 2005.

09-17-0001

SYSTEM NAME:

Medical, Health, and Billing Records Systems, HHS/IHS/OHP.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Indian Health Service (IHS) hospitals, health centers, school health centers, health stations, field clinics, Service Units, IHS Area Offices (Appendix 1), and Regional Federal Records Centers (Appendix 2). Automated, electronic and computerized records, including Patient Care Component (PCC) records, are stored at the Information Technology Support Center (ITSC), IHS, located in Albuquerque, New Mexico (Appendix 1). Records may also be located at contractor sites. A current list of contractor sites is available by writing to the appropriate System Manager (Area or Service Unit Director/Chief Executive Officer) at the address shown in Appendix 1.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals, including both IHS beneficiaries and non-beneficiaries, who are examined/treated on an inpatient and/or outpatient basis by IHS staff and/or contract health care providers (including tribal contractors).

CATEGORIES OF RECORDS IN THE SYSTEM:

Note: Records relating to claims by and against DHHS are maintained in the Administrative Claims System, 09-90-0062, HHS/OS/OGC. Such claims include those arising under the Federal Torts Claims Act, Military Personnel and Civilian Employees Claims Act, Federal Claims Collection Act, Federal Medical Care Recovery Act, and Act for Waiver of Overpayment of Pay.

1. Health and medical records containing examination, diagnostic and treatment data, proof of IHS eligibility, social data (such as name, address, date of birth, Social Security Number (SSN), tribe), laboratory test results, and dental, social service, domestic violence, sexual

abuse and/or assault, mental health, and nursing information.

2. Follow-up registers of individuals with a specific health condition or a particular health status such as cancer, diabetes, communicable diseases, suspected and confirmed abuse and neglect, immunizations, suicidal behavior, or disabilities.

3. Logs of individuals provided health care by staff of specific hospital or clinic departments such as surgery, emergency, obstetric delivery, medical imaging, and laboratory.

4. Surgery and/or disease indices for individual facilities that list each relevant individual by the surgery or disease.

5. Monitoring strips and tapes such as fetal monitoring strips and EEG and EKG tapes.

6. Third-party reimbursement and billing records containing name, address, date of birth, dates of service, third party insurer claim numbers, SSN, health plan name, insurance number, employment status, and other relevant claim information necessary to process and validate third-party reimbursement claims.

7. Contract Health Service (CHS) records containing name, address, date of birth, dates of care, Medicare or Medicaid claim numbers, SSN, health plan name, insurance number, employment status, and other relevant claim information necessary to determine CHS eligibility and to process CHS claims.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Departmental Regulations (5 U.S.C. 301); Privacy Act of 1974 (5 U.S.C. 552a); Federal Records Act (44 U.S.C. 2901); Section 321 of the Public Health Service Act, as amended (42 U.S.C. 248); Section 327A of the Public Health Service Act, as amended (42 U.S.C. 254a); Snyder Act (25 U.S.C. 13); Indian Health Care Improvement Act (25 U.S.C. 1601 *et seq.*); and the Transfer Act of 1954 (42 U.S.C. 2001-2004).

PURPOSES:

The purposes of this system are:

1. To provide a description of an individual's diagnosis, treatment and outcome, and to plan for immediate and future care of the individual.

2. To provide statistical data to IHS officials in order to evaluate health care programs and to plan for future needs.

3. To serve as a means of communication among members of the health care team who contribute to the individual's care; e.g., to integrate information from field visits with records of treatment in IHS facilities and with non-IHS health care providers.

4. To serve as the official documentation of an individual's health care.

5. To contribute to continuing education of IHS staff to improve the delivery of health care services.

6. For disease surveillance purposes. For example:

(a) The Centers for Disease Control and Prevention (CDC) may use these records to monitor various communicable diseases;

(b) The National Institutes of Health (NIH) may use these records to review the prevalence of particular diseases (e.g., malignant neoplasms, diabetes mellitus, arthritis, metabolism, and digestive diseases) for various ethnic groups of the United States; or

(c) Those public health authorities that are authorized by law may use these records to collect or receive such information for purposes of preventing or controlling disease, injury, or disability, including, but not limited to, the reporting of disease, injury, vital events such as birth or death and the conduct of public health surveillance, investigations, and interventions.

7. To compile and provide aggregated program statistics. Upon request of other components of the Department of Health and Human Services (DHHS), IHS will provide statistical information, from which individual/personal identifiers have been removed, such as:

(a) To the National Committee on Vital and Health Statistics (NCVHS) for its dissemination of aggregated health statistics on various ethnic groups;

(b) To the Assistant Secretary for Planning and Evaluation (ASPE), Health Policy to keep a record of the number of sterilizations provided by federal funding;

(c) To the Centers for Medicare & Medicaid Services (CMS) to document IHS health care covered by the Medicare and Medicaid programs for third-party reimbursement; or

(d) To the Office of Clinical Standards and Quality, CMS to determine the prevalence of end-stage renal disease among the American Indian and Alaska Native (AI/AN) population and to coordinate individual care.

8. To process and collect third-party claims and facilitate fiscal intermediary functions and to process debt collection activities.

9. To improve the IHS national patient care database by means of obtaining and verifying an individual's SSN with the Social Security Administration (SSA).

10. To provide information to organ procurement organizations or other entities engaged in the procurement, banking, or transplantation of organs to

facilitate organ, eye, or tissue donation and transplant.

11. To provide information to individuals about treatment alternatives or other types of health-related benefits and services.

12. To provide information to the Food and Drug Administration (FDA) in connection with an FDA-regulated product or activity.

13. To provide information to correctional institutions as necessary for health and safety purposes.

14. To provide information to governmental authorities (e.g., social services or protective services agencies) on victims of abuse, neglect, sexual assault or domestic violence.

15. To provide information to the National Archives and Records Administration (NARA) in records management inspections conducted under the authority of 44 U.S.C. 2901 *et seq.*

16. To provide relevant health care information to funeral directors or representatives of funeral homes to allow necessary arrangements prior to and in anticipation of an individual's impending death.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

This system of records contains individually identifiable health information. The DHHS Privacy Act Regulations (45 CFR part 5b) and the Privacy Rule (45 CFR parts 160 and 164) issued pursuant to the Health Insurance Portability and Accountability Act (HIPAA) of 1996 apply to most health information maintained by IHS. Those regulations may place additional procedural requirements on the uses and disclosures of such information beyond those found in the Privacy Act of 1974 or mentioned in this system of records notice. An accounting of all disclosures of a record made pursuant to the following routine uses will be made and maintained by IHS for five years or for the life of the records, whichever is longer.

Note: Special requirements for alcohol and drug abuse patients: If an individual receives treatment or a referral for treatment for alcohol or drug abuse, then the Confidentiality of Alcohol and Drug Abuse Patient Records Regulations, 42 CFR part 2 may apply. In general, under these regulations, the only disclosures of the alcohol or drug abuse record that may be made without patient consent are: (1) To meet medical emergencies (42 CFR 2.51), (2) for research, audit, evaluation and examination (42 CFR 2.52 and 2.53), (3) pursuant to a court order (42 CFR 2.61–2.67), and (4) pursuant to a qualified service organization agreement, as defined in 42 CFR

2.11. In all other situations, written consent of the individual is usually required prior to disclosure of alcohol or drug abuse information under the routine uses listed below.

1. Records may be disclosed to Federal and non-federal (public or private) health care providers that provide health care services to IHS individuals for purposes of planning for or providing such services, or reporting results of medical examination and treatment.

2. Records may be disclosed to Federal, State, local or other authorized organizations that provide third-party reimbursement or fiscal intermediary functions for the purposes of billing or collecting third-party reimbursements. Relevant records may be disclosed to debt collection agencies under a business associate agreement arrangement directly or through a third party.

3. Records may be disclosed to state agencies or other entities acting pursuant to a contract with CMS, for fraud and abuse control efforts, to the extent required by law or under an agreement between IHS and respective state Medicaid agency or other entities.

4. Records may be disclosed to school health care programs that serve AI/AN for the purpose of student health maintenance.

5. Records may be disclosed to organizations deemed qualified by the Secretary of DHHS and under a business associate agreement to carry out quality assessment/improvement, medical audits, utilization review or to provide accreditation or certification of health care facilities or programs.

6. Records may be disclosed under a business associate agreement to individuals or authorized organizations sponsored by IHS, such as the National Indian Women's Resource Center, to conduct analytical and evaluation studies.

7. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual. No authorization, Form IHS 810, is required for the disclosure of protected health information (PHI) contained in the medical record, unless sensitive information (e.g., alcohol/drug abuse patient information, HIV/AIDS, STD, or mental health) is included.

8. Records may be disclosed for research purposes to the extent permitted by:

(a) Determining that the use(s) or disclosure(s) are met under 45 CFR 164.512(i), or

(b) Determining that the use(s) or disclosure(s) are met under 45 CFR 164.514(a) through (c) for de-identified PHI, and 5 U.S.C. 552a(b)(5), or

(c) Determining that the requirements of 45 CFR 164.514(e) for limited data sets, and 5 U.S.C. 552a(b)(5) are met.

9. Information from records, such as information concerning the commission of crimes, suspected cases of abuse (including child, elder and sexual abuse), neglect, sexual assault or domestic violence, births, deaths, alcohol or drug abuse, immunizations, cancer, or the occurrence of communicable diseases, may be disclosed to public health authorities or other appropriate government authorities, as authorized by Federal, State, tribal or local law or regulation of the jurisdiction in which the facility is located.

Note: In federally conducted or assisted alcohol or drug abuse programs, under 42 CFR part 2, disclosure of patient information for purposes of criminal investigations must be authorized by court order issued under 42 CFR 2.65, except that reports of suspected child abuse may be made to the appropriate state or local authorities under state law.

10. Information may be disclosed from these records regarding suspected cases of child abuse to:

(a) Federal, State or tribal agencies that need to know the information in the performance of their duties, and

(b) Members of community child protection teams for the purposes of investigating reports of suspected child abuse, establishing a diagnosis, formulating or monitoring a treatment plan, and making recommendations to the appropriate court. Community child protection teams are comprised of representatives of tribes, the BIA, child protection service agencies, the judicial system, law enforcement agencies and IHS.

11. IHS may disclose information from these records in litigations and/or proceedings related to an administrative claim when:

(a) IHS has determined that the use of such records is relevant and necessary to the litigation and/or proceedings related to an administrative claim and would help in the effective representation of the affected party listed in subsections (i) through (iv) below, and that such disclosure is compatible with the purpose for which the records were collected. Such disclosure may be made to the DHHS/ Office of General Counsel (OGC) and/or Department of Justice (DOJ), pursuant to an agreement between IHS and OGC, when any of the following is a party to litigation and/or proceedings related to an administrative claim or has an

interest in the litigation and/or proceedings related to an administrative claim:

(i) DHHS or any component thereof; or

(ii) Any DHHS employee in his or her official capacity; or

(iii) Any DHHS employee in his or her individual capacity where the DOJ (or DHHS, where it is authorized to do so) has agreed to represent the employee; or

(iv) The United States or any agency thereof (other than DHHS) where HHS/ OGC has determined that the litigation and/or proceedings related to an administrative claim is likely to affect DHHS or any of its components.

(b) In the litigation and/or proceedings related to an administrative claim described in subsection (a) above, information from these records may be disclosed to a court or other tribunal, or to another party before such tribunal in response to an order of a court or administrative tribunal, provided that the covered entity discloses only the information expressly authorized by such order.

12. Records may be disclosed under a business associate agreement to an IHS contractor for the purpose of computerized data entry, medical transcription, duplication services, or maintenance of records contained in this system.

13. Records may be disclosed under a personal services contract or other agreement to student volunteers, individuals working for IHS, and other individuals performing functions for IHS who do not technically have the status of agency employees, if they need the records in the performance of their agency functions.

14. Records regarding specific medical services provided to a unemancipated minor individual may be disclosed to the unemancipated minor's parent or legal guardian who previously consented to those specific medical services, to the extent permitted under 45 CFR 164.502(g).

15. Records may be disclosed to an individual having authority to act on behalf of an incompetent individual concerning health care decisions, to the extent permitted under 45 CFR 164.502(g).

16. Information may be used or disclosed from an IHS facility directory in response to an inquiry about a named individual from a member of the general public to establish the individual's presence (and location when needed for visitation purposes) or to report the individual's condition while hospitalized (e.g., satisfactory or stable), unless the individual objects to disclosure of this information. IHS may

provide the religious affiliation only to members of the clergy.

17. Information may be disclosed to a relative, a close personal friend, or any other person identified by the individual that is directly relevant to that person's involvement with the individual's care or payment for health care.

Information may also be used or disclosed in order to notify a family member, personal representative, or other person responsible for the individual's care, of the individual's location, general condition or death.

If the individual is present or otherwise available prior to use or disclosure, and is competent to make health care decisions;

(a) May use or disclose after the facility obtains the individual's consent,

(b) Provides the individual with the opportunity to object and the individual does not object, or

(c) It could reasonably infer, based on professional judgment, that the individual does not object.

If the individual is not present, or the opportunity to agree or object cannot practicably be provided due to incapacity or emergent circumstances, an IHS health care provider may determine, based on professional judgment, whether disclosure is in the individual's best interest, and if so, may disclose only what is directly relevant to the individual's health care.

18. Information concerning exposure to the HIV may be disclosed, to the extent authorized by Federal, State or tribal law, to the sexual and/or needle-sharing partner(s) of a subject individual who is infected with HIV under the following circumstances:

(a) The information has been obtained in the course of clinical activities at IHS facilities;

(b) IHS has made reasonable efforts to counsel and encourage the subject individual to provide information to the individual's sexual or needle-sharing partner(s);

(c) IHS determines that the subject individual is unlikely to provide the information to the sexual or needle-sharing partner(s) or that the provision of such information cannot reasonably be verified; and

(d) The notification of the partner(s) is made, whenever possible, by the subject individual's physician or by a professional counselor and shall follow standard counseling practices.

(e) IHS has advised the partner(s) to whom information is disclosed that they shall not re-disclose or use such information for a purpose other than that for which the disclosure was made.

19. Records may be disclosed to federal and non-federal protection and advocacy organizations (P&A) that serve AI/AN for the purpose of investigating incidents of abuse and neglect of individuals with developmental disabilities (including mental disabilities), as defined in 42 U.S.C. 10801–10805(a)(4) and 42 CFR 51.41–46, to the extent that such disclosure is authorized by law and the conditions of 45 CFR 1386.22(a)(2) are met.

20. Records of an individual may be disclosed to a correctional institution or a law enforcement official, during the period of time the individual is either an inmate or is otherwise in lawful custody, for the provision of health care to the individual or for health and safety purposes. Disclosure may be made upon the representation of either the institution or a law enforcement official that disclosure is necessary for the provision of health care to the individual, for the health and safety of the individual and others (e.g., other inmates, employees of the correctional facility, transport officers), and for facility administration and operations. This routine use applies only for as long as the individual remains in lawful custody, and does not apply once the individual is released on parole or placed on either probation or on supervised release, or is otherwise no longer in lawful custody.

21. Records including patient name, date of birth, SSN, gender and other identifying information may be disclosed to the SSA as is reasonably necessary for the purpose of conducting an electronic validation of the SSN(s) maintained in the record to the extent required under an agreement between IHS and SSA.

22. Disclosure of relevant health care information may be made to funeral directors or representatives of funeral homes in order to allow them to make necessary arrangements prior to and in anticipation of an individual's impending death.

23. Records may be disclosed to a public or private covered entity that is authorized by law or charter to assist in disaster relief efforts (e.g., the Red Cross and the Federal Emergency Management Administration (FEMA)), for purposes of coordinating information with other similar entities concerning an individual's health care, payment for health care, notification of the individual's whereabouts and his or her health status or death.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, ledgers, card files, microfiche, microfilm, computer tapes, disk packs, digital photo discs, and automated, computer-based or electronic files.

RETRIEVABILITY:

Indexed by name, record number, and SSN and cross-indexed.

SAFEGUARDS:

Safeguards apply to records stored on-site and off-site.

1. *Authorized Users:* Access is limited to authorized IHS personnel, volunteers, IHS contractors, subcontractors, and other business associates in the performance of their duties. Examples of authorized personnel include: Medical records personnel, business office personnel, contract health staff, health care providers, authorized researchers, medical audit personnel, health care team members, and legal and administrative personnel on a need to know basis.

2. *Physical Safeguards:* Records are kept in locked metal filing cabinets or in a secured room or in other monitored areas accessible to authorized users at all times when not actually in use during working hours and at all times during non-working hours. Magnetic tapes, disks, other computer equipment (e.g., pc workstations) and other forms of personal data are stored in areas where fire and life safety codes are strictly enforced. Telecommunication equipment (e.g., computer terminal, servers, modems and disks) of the Resource and Patient Management System (RPMS) are maintained in locked rooms during non-working hours. Network (Internet or Intranet) access of authorized individual(s) to various automated and/or electronic programs or computers (e.g., desktop, laptop, handheld or other computer types) containing protected personal identifiers or personal health information (PHI) is reviewed periodically and controlled for authorizations, accessibility levels, expirations or denials, including passwords, encryptions or other devices to gain access. Combinations and/or electronic passcards on door locks are changed periodically and whenever an IHS employee resigns, retires or is reassigned.

3. *Procedural Safeguards:* Within each facility a list of personnel or categories of personnel having a demonstrable need for the records in the performance of their duties has been

developed and is maintained. Procedures have been developed and implemented to review one-time requests for disclosure to personnel who may not be on the authorized user list. Proper charge-out procedures are followed for the removal of all records from the area in which they are maintained. Records may not be removed from the facility except in certain circumstances, such as compliance with a valid court order or shipment to the Federal Records Center(s). Persons who have a need to know are entrusted with records from this system of records and are instructed to safeguard the confidentiality of these records. These individuals are to make no further disclosure of the records except as authorized by the system manager and permitted by the Privacy Act and the HIPAA Privacy Rule as adopted, and to destroy all copies or to return such records when the need to know has expired. Procedural instructions include the statutory penalties for noncompliance.

The following automated information systems (AIS) security procedural safeguards are in place for automated health and medical records maintained in the RPMS. A profile of automated systems security is maintained. Security clearance procedures for screening individuals, both Government and contractor personnel, prior to their participation in the design, operation, use or maintenance of IHS AIS are implemented. The use of current passwords and log-on codes are required to protect sensitive automated data from unauthorized access. Such passwords and codes are changed periodically. An automated or electronic audit trail is maintained and reviewed periodically. Only authorized IHS Division of Information Resources staff may modify automated files in batch mode. Personnel at remote terminal sites may only retrieve automated or electronic data. Such retrievals are password protected. Privacy Act requirements, HIPAA Privacy Rule and Security requirements and specified AIS security provisions are specifically included in contracts and agreements and the system manager or his/her designee oversee compliance with these contract requirements.

4. *Implementing Guidelines:* DHHS Chapter 45–10 and supplementary Chapter PHS.hf: 45–10 of the General Administration Manual; DHHS, “Automated Information Systems Security Program Handbook,” as amended; DHHS IRM Policy HHS–IRM–2000–0005, “IRM Policy for IT Security for Remote Access”; OMB Circular A–130 “Management of Federal

Information Resources”; HIPAA Security Standards for the Protection of Electronic Protected Health Information, 45 CFR 164.302 through 164.318; and E-Government Act of 2002 (Public Law 107–347, 44 U.S.C. Ch 36).

RETENTION AND DISPOSAL:

Patient listings which may identify individuals are maintained in IHS Area and Program Offices permanently. Inactive records are held at the facility that provided health and billing services from three to seven years and then are transferred to the appropriate Federal Records Center. Monitoring strips and tapes (e.g., fetal monitoring strips, EEG and EKG tapes) that are not stored in the individual’s official medical record are stored at the health facility for one year and are then transferred to the appropriate Federal Records Center. (See Appendix 2 for Federal Records Center addresses). In accordance with the records disposition authority approved by the Archivist of the United States, paper records are maintained for 75 years after the last episode of individual care except for billing records. The retention and disposal methods for billing records will be in accordance with the approved IHS Records Schedule. The disposal methods of paper medical and health records will be in accordance with the approved IHS Records Schedule. The electronic data consisting of the individual personal identifiers and PHI maintained in the Resource and Patient Management System (RPMS) or any subsequent revised IHS database system should be inactivated once the paper record is forwarded to the appropriate Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Policy Coordinating Official: Director, Office of Clinical and Preventive Services, Indian Health Service, Reyes Building, 801 Thompson Avenue, Suite 300, Rockville, Maryland, 20852–1627. See Appendix 1. The IHS Area Office Directors, Service Unit Directors/Chief Executive Officers and Facility Directors listed in Appendix 1 are System Managers.

NOTIFICATION PROCEDURE:

General Procedure: Requests must be made to the appropriate System Manager (IHS Area, Program Office Director or Service Unit Director/Chief Executive Officer). A subject individual who requests a copy of, or access to, his or her medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents.

Such a representative may be an IHS health professional. When a subject individual is seeking to obtain information about himself/herself that may be retrieved by a different name or identifier than his/her current name or identifier, he/she shall be required to produce evidence to verify that he/she is the person whose record he/she seeks. No verification of identity shall be required where the record is one that is required to be disclosed under the Freedom of Information Act (FOIA). Where applicable, fees for copying records will be charged in accordance with the schedule set forth in 45 CFR Part 5b.

Requests In Person: Identification papers with current photographs are preferred but not required. If a subject individual has no identification but is personally known to the designated agency employee, such employee shall make a written record verifying the subject individual's identity. If the subject individual has no identification papers, the responsible system manager or designated agency official shall require that the subject individual certify in writing that he/she is the individual whom he/she claims to be and that he/she understands that the knowing and willful request or acquisition of records concerning an individual under false pretenses is a criminal offense subject to a \$5,000 fine. If an individual is unable to sign his/her name when required, he/she shall make his/her mark and have the mark verified in writing by two additional persons.

Requests By Mail: Written requests must contain the name and address of the requester, his/her date of birth and at least one other piece of information that is also contained in the subject record, and his/her signature for comparison purposes. If the written request does not contain sufficient information, the System Manager shall inform the requester in writing that additional, specified information is required to process the request.

Requests by Telephone: Since positive identification of the caller cannot be established, telephone requests are not honored.

Parents, Legal Guardians and Personal Representatives: Parents of minor children and legal guardians or personal representatives of legally incompetent individuals shall verify their own identification in the manner described above, as well as their relationship to the individual whose record is sought. A copy of the child's birth certificate or court order establishing legal guardianship may be required if there is any doubt regarding

the relationship of the individual to the patient.

RECORD ACCESS PROCEDURES:

Same as Notification Procedures: Requesters may write, call or visit the last IHS facility where medical care was provided. Requesters should also provide a reasonable description of the record being sought. Requesters may also request an accounting of disclosures that have been made of their record, if any.

CONTESTING RECORD PROCEDURES:

Requesters may write, call or visit the appropriate IHS Area/Program Office Director or Service Unit Director/Chief Executive Officer at his/her address specified in Appendix 1, and specify the information being contested, the corrective action sought, and the reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

RECORD SOURCE CATEGORIES:

Individual and/or family members, IHS health care personnel, contract health care providers, State and local health care provider organizations, Medicare and Medicaid funding agencies, and the SSA.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

AGENCY: National Institutes of Health, Public Health Service, HHS.

ACTION: Notice.

SUMMARY: The inventions listed below are owned by an agency of the U.S. Government and are available for licensing in the U.S. in accordance with 35 U.S.C. 207 to achieve expeditious commercialization of results of federally-funded research and development. Foreign patent applications are filed on selected inventions to extend market coverage for companies and may also be available for licensing.

ADDRESSES: Licensing information and copies of the U.S. patent applications listed below may be obtained by writing to the indicated licensing contact at the Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, Maryland 20852-3804; telephone: 301/496-7057; fax: 301/402-0220. A signed Confidential Disclosure Agreement will be required to receive copies of the patent applications.

A Single Ribozyme To Catalyze Both Trimming and Transacting Catalysis—Potential Therapeutic for HPV Infection and Cervical Cancer

Joseph A. DiPaolo (NCI) *et al.*,

U.S. Provisional Application No. 60/675,076 filed 25 April 2005 (HHS Reference No. E-142-2005/0-US-01),

Licensing Contact: Robert M. Joynes; 301/594-6565; joynesr@mail.nih.gov.

This technology relates to a potential therapeutic for treating human papillomavirus (HPV) infection as well as cervical cancer. It is acknowledged that HPV is the primary agent associated with cervical cancer. The life cycle of HPVs progresses with epithelial differentiation and may persist for decades. The E6 and E7 oncogenes are responsible for two viral proteins that target p53 and Rb. The persistence of E6 and E7 in cervical carcinomas has led to them being recognized as the hallmark of cervical carcinomas and makes them excellent targets for therapy. Previously, we reported an engineered hairpin ribozyme (R434) that caused down-regulation of HPV-16 E6/E7 mRNA and inhibited growth of both HPV-16 immortalized cells and tumor cells. To increase efficiency of R434 we constructed a ribozyme expression
