Commenting

The Draft EIS is expected to be filed with the U.S. Environmental Protection Agency (EPA) and be available for review in July 2002. At that time, EPA will publish a Notice of Availability of the Draft EIS in the **Federal Register**. The comment period of the Draft EIS will be at least 45 days from the date the EPA's Notice of Availability appears in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of the draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft EIS. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated or discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, From the People's Republic of China; Preliminary Results and Preliminary Partial Rescission of Antidumping Duty Administrative Reviews, Notice of Intent Not To Revoke in Part and Extension of Final Results of Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, From the People's Republic of China: Notice of Preliminary Results and Preliminary Partial Rescission of Antidumping Duty Administrative Reviews, Notice of Intent Not To Revoke in Part and Extension of Final Results of Reviews.

SUMMARY: In response to requests by a number of interested parties, the Department of Commerce (the Department) is conducting administrative reviews of the antidumping duty orders on heavy forged hand tools, finished or unfinished, with or without handles (HFHTs), from the People's Republic of China (PRC). The period of review (POR) is February 1, 2000, through January 31, 2001.

We preliminarily determine that certain manufacturers/exporters sold subject merchandise at less than normal value (NV) during the POR. If these preliminary results are adopted in our final results of review, we will instruct the U.S. Customs Service (Customs) to assess antidumping duties on all appropriate entries. We invite interested parties to comment on these preliminary review results. Parties who submit comments in these proceedings should also submit with the argument(s): (1) a statement of the issue(s) and (2) a brief summary of their argument (not to exceed five pages).

EFFECTIVE DATE: March 6, 2002.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended, (the Act) are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations at 19 CFR Part 351 (2001).

Background

On February 19, 1991, the Department published in the Federal Register (56 FR 6622) four antidumping duty orders on HFHTs from the PRC. Imports covered by these orders comprise the following classes or kinds of merchandise: (1) hammers and sledges with heads over 1.5 kg (3.33 pounds) (hammers/sledges); (2) bars over 18 inches in length, track tools and wedges (bars/wedges); (3) picks/mattocks; and (4) axes/adzes. On February 27, 2001, the petitioner, Ames True Temper, requested administrative reviews of all four classes or kinds of subject merchandise for the following companies: Shandong Machinery Import & Export Corporation (SMC), Fujian Machinery & Equipment Import & Export Corporation (FMEC), Tianjin Machinery Import & Export Corporation (TMC), Liaoning Machinery Import & Export Corporation (LMC), and Shandong Huarong General Group Corporation (Huarong). The petitioner also requested a review of hammers/sledges from Shandong Jinma Industrial Group Co., Ltd. (Jinma). As part of its request for reviews, the petitioner also asked the Department to conduct duty absorption reviews under 19 U.S.C. § 1675(a)(4).

On February 27, 2001, four exporters of the subject merchandise requested that the Department conduct administrative reviews of their exports of subject merchandise. Specifically, TMC requested that the Department conduct administrative reviews of its exports of HFHTs within all four classes or kinds of merchandise. Huarong and LMC requested that the Department conduct an administrative review of their exports within the bars/wedges class of merchandise. SMC requested that the Department conduct an

administrative review of its exports of hammers/sledges.

On March 22, 2001, the Department published a notice of initiation of administrative review covering the four orders on HFHTs and the five companies described above. See 66 FR 16037. At the time of initiation, the Department was conducting a new shipper review of Jinma, which ultimately was completed on October 29, 2001, covering hammers/sledges and the POR, February 1, 2000 through July 31, 2000. See, 66 FR 54503. As a consequence, we initiated this administrative review of hammers/sledges from Jinma covering only August 1, 2000 through January 31, 2001 in the POR. Additionally, on September 26, 2001, the Department extended the time limits for completion of these preliminary review results until no later than February 28, 2002. See, 66 FR 49163.

The Department is conducting these administrative reviews in accordance with section 751 of the Act.

Scope of Review

The products covered by these reviews are HFHTs from the PRC, comprising the following classes or kinds of merchandise: (1) hammers and sledges with heads over 1.5 kg (3.33 pounds) (hammers/sledges); (2) bars over 18 inches in length, track tools and wedges (bars/wedges); (3) picks and mattocks (picks/mattocks); and (4) axes, adzes and similar hewing tools (axes/adzes). HFHTs include heads for drilling hammers, sledges, axes, mauls, picks and mattocks, which may or may not be painted, which may or may not be finished, or which may or may not be imported with handles; assorted bar products and track tools including wrecking bars, digging bars and tampers; and steel wood splitting wedges. HFHTs are manufactured through a hot forge operation in which steel is sheared to required length, heated to forging temperature, and formed to final shape on forging equipment using dies specific to the desired product shape and size. Depending on the product, finishing operations may include shot blasting, grinding, polishing and painting, and the insertion of handles for handled products. HFHTs are currently provided for under the following Harmonized Tariff System (HTS) subheadings: 8205.20.60, 8205.59.30, 8201.30.00, and 8201.40.60. Specifically excluded from these investigations are hammers and sledges with heads 1.5 kg. (3.33 pounds) in weight and under, hoes and rakes, and bars 18 inches in length and under. The HTS subheadings are provided for
