Compensation, Retirement Programs, and Related Benefits

AGENCY: Farm Credit Administration.

ACTION: Proposed rule.

SUMMARY: The Farm Credit Administration (FCA, us, we, or our) proposes to amend our regulations related to Farm Credit System (System) bank and association disclosures to shareholders and investors. The proposed rule would require reporting of supplemental retirement plans, a discussion of the link between senior officer compensation and performance, and timely and transparent reporting to shareholders of significant events that occur between annual reporting periods. We believe the proposed changes will provide full, transparent and consistent disclosures to shareholders. The proposed rule would identify the minimum responsibilities a compensation committee must perform to ensure it continues to exercise good stewardship, and require that System banks and associations provide for a nonbinding, advisory vote on senior officer compensation in order to engage shareholders in the management and control of their institution. Also, the proposed rule would bifurcate existing annual reporting requirements at § 620.5

and make other conforming technical changes.

SUPPLEMENTARY INFORMATION:

I. Objective

The objectives of this proposed rule are to:

• Improve the transparency and completeness of disclosures in System

institution annual reports or annual meeting information statements (collectively, Report) by requiring disclosure of all components of senior officer¹ compensation and retirement benefits;

- Promote the continued safety and soundness of System institutions by requiring certain oversight responsibilities of compensation committees;
- Strengthen timely communication with System shareholders on significant events that occur between annual reporting periods;
- Provide shareholders with a clear and complete understanding of their institution's obligations and commitments related to supplemental retirement benefit plans (SRP) for employees other than the senior officer group; and
- Encourage member participation in the control and management of their institution by providing voting shareholders an opportunity to cast a nonbinding, advisory vote on senior officer compensation.

II. Background

The Farm Credit Act of 1971, as amended (Act),² authorizes the FCA to issue regulations implementing the Act's provisions.³ Our regulations are intended to ensure the safe and sound operations of System institutions and to govern the disclosure of financial information to shareholders of, and investors in, the System. Congress explained in section 514 of the Farm Credit Banks and Associations Safety and Soundness Act of 1992 (1992 Act)⁴ that disclosures of financial information and compensation paid to senior officers, among other disclosures, provide System shareholders with information necessary to better manage their institution and make informed decisions regarding the operation of their institution.

Section 1.1(b) of the Act sets forth the objective to continue to encourage owners-borrowers to participate in the management, control, and ownership of their cooperative. In an October 14, 2010, Resolution of the Farm Credit Administration Board, we declared our commitment to support the cooperative business model and structure of System banks and associations.⁵ The FCA

emphasizes the cooperative structure and principles by advancing regulatory proposals that encourage borrowers to participate in the management, control and ownership of their institution.

A. Comments Received

On November 18, 2010, we issued an advance notice of proposed rulemaking (ANPRM) on disclosure of senior officer compensation and related topics in order to gather information for the development of a proposed rulemaking.⁶ We received 99 comment letters in response to the ANPRM from individuals and entities associated with the System, including the Farm Credit Council (FCC), acting for its membership, and the Federal Farm Credit Banks Funding Corporation (Funding Corporation). We reviewed all comment letters and evaluated their recommendations in recognition of existing law and policy considerations and the cooperative nature of the System. We are proposing rules and amendments related to senior officer compensation disclosures and related topics that were discussed in the ANPRM. Other topics in the ANPRM not included in this rulemaking may be considered in future rulemakings.⁷

We are actively reviewing the authority of the Funding Corporation's System Audit Committee (SAC) to have "unfettered ability to engage outside advisors." Section 630.6 authorizes the Funding Corporation board to deny, by a two-thirds majority vote of the full board, any SAC request for resources. The SAC requested we consider amending our regulations to remove this authority. We addressed this issue in the ANPRM and most commenters responded that it would be imprudent to provide absolute discretion on the use of resources to any bank or association board committee. The FCC expressed the view of its membership that existing FCA regulations appropriately balance audit committee need with the board's ultimate responsibility to the customer-shareholder for the safety and financial stability of the institution. However, the FCC also noted that its membership supported the Funding Corporation's request. The SAC's response to the ANPRM was that the SAC believed it must have every resource it requires at its disposal to effectively perform its function. We are not proposing changes to this authority in this rulemaking, but

may revisit the matter in future rulemakings.

B. Proposed Rule

We periodically review and update our disclosure regulations to ensure they are appropriate for current business practices, provide shareholders with necessary information, and provide investors with information necessary to assist them in making investment decisions. In keeping with today's changing economic and business environments, and in accordance with the findings of Congress under the 1992 Act and the FCA Board Resolution of October 14, 2010, we believe it is appropriate to review and update our rules on senior officer compensation disclosures and other related topics. We believe that banks and associations can continue to support the cooperative business model, fulfill the System's public policy mission in a safe and sound manner, and best serve their members by providing shareholders:

- Complete disclosure that allows them to understand senior officer compensation and retirement policies and practices and all compensation and retirement benefit obligations;
- Timely and transparent communication on significant or material events affecting their institution; and
- A nonbinding, advisory vote on senior officer compensation.

We believe the proposed rule continues to balance meaningful disclosures, committee oversight, and shareholder rights with institution safety and soundness.

III. Section-by-Section Analysis

A. Bifurcation of Annual Reporting Requirements Sections [Existing § 620.5(h) Through (k); New § 620.6]

To enhance the clarity and organization of our rules, we propose moving the disclosure requirements for directors and senior officers in § 620.5(h) through (k) to new § 620.6. Also, we propose that § 620.5(h) contain a reference to § 620.6, stating that the presentation of the § 620.6 disclosures would continue to be required in the annual report. We propose no changes to the current requirements of existing § 620.5(h), (j), and (k), except for minor rewording of the language and cross citations to recognize the proposed new locations at § 620.6(a), (b), (d), (e), and (f). However, in the process of moving § 620.5(h) through (k) to new § 620.6, some regulatory language is proposed to be changed in existing § 620.5(i) to remove redundancy and enhance clarity. Specifically, we propose

clarifying how highly compensated employees, who are not senior officers, are treated in the Summary Compensation Table (Compensation Table) at new § 620.6(c)(2)(i).

Also, we propose clarifying where to disclose the required statement that the information on compensation for any individual senior officer, as disclosed in the Compensation Table, is available to shareholders upon request. In new § 620.6(c)(2)(ii), we propose that the statement must be presented directly beneath the Compensation Table because we believe the notice of this right should be in close proximity to the related disclosure. We propose new disclosure requirements that would be contained in new § 620.6(c) and are discussed in Part III.B. of the preamble to this proposed rule.

As conforming technical changes, we propose changing references to the annual report's director and senior officer compensation and conflicts of interest disclosures, made in other areas of our rules, to their location in new § 620.6. Specifically changing references contained in § 611.330(b) of our rules from § 620.5(j) and (k) to § 620.6(e) and (f); changing references contained in § 612.2145(a)(2) of our rules from § 620.5(k) to § 620.6(f); changing references contained in § 612.2155(a)(2) of our rules from § 620.5(k) to § 620.6(f); adding § 620.6 to the references contained in §§ 612.2165(b)(12) and 620.4(c); renumbering existing § 620.5(l) through (n) as (i) through (k); and changing references in § 620.21(a)(3)(i) of our rules from § 620.5(j) ("Transactions with senior officers and directors") to § 620.6(e) and § 620.5(k) ("Involvement in certain legal proceedings") to § 620.6(f).

B. Enhanced Disclosures of Senior Officer Compensation [§ 620.5(i) and New § 620.6(c)]

Existing § 620.5(i) requires that compensation paid to or earned by senior officers be disclosed in the Compensation Table, and include discussion of benefits paid in connection with resignation, retirement, or termination.

In developing this proposed rule, we recognized that:

- Compensation and retirement benefit practices at many System institutions are increasingly more complex and diverse;
- Our current disclosure requirements may not capture all current practices; and
- Disclosures should include a clear discussion of the relationship between the risks and rewards of compensation practices.

Consequently, we believe our disclosure rules should be amended to ensure that all such practices are addressed in an institution's disclosure of senior officer compensation.

In new § 620.6(c)(4), we propose requiring that institutions disclose information related to supplemental executive retirement plans (SERP), if provided to chief executive officers (CEOs), senior officers or other highly compensated employees (collectively, senior officers). If the CEO and senior officers participate solely in pension and retirement plans offered to all employees, the disclosures would not be required. The information to be disclosed would include, at a minimum:

- Funded and unfunded present value of accumulated benefits for all CEO and senior officers' pension and retirement benefit plans, including the SERP.
- Years of credited service for the CEO and for the senior officers.
- Vested and unvested dollar amounts.

We propose that the disclosures be included in a separate pension and retirement benefits table, and that it be presented in the report with the Compensation Table.

In addition to requiring disclosure of SERPs, we propose institutions:

- Include all compensation, benefit and retirement plans when discussing compensation programs;
- Describe the overall risk and reward structure of compensation, benefit and retirements plans; and
- Discuss the link between the CEO's and senior officers' total compensation, as reported, and both the institution's overall performance and the CEO's and senior officers' performance.

In making these disclosures, we would expect an institution to discuss the criteria used in determining its overall performance (e.g., capital and risk management, credit risk and risk exposure to earnings, liquidity management, and compliance with the general financing agreement). Also, we would expect institutions to discuss the benchmarks or other factors used to determine compensation, including incentive-based compensation. Disclosures would be specific to the institution, rather than being general or boilerplate.

We further propose at new § 620.6(c)(3)(ii)(B) that institutions disclose in the Compensation Table the dollar amount of tax reimbursements or tax payments provided by the institution to senior officers. The disclosure would be classified as a perquisite and other personal benefit

and would be reported in the period in which payment is made. We are not proposing to change the threshold for perquisite disclosures.

We believe improved transparency and consistency in disclosures of senior officer compensation provides meaningful and complete disclosure to members-owners and investors. Enhanced disclosures assist members-owners and investors in making informed decisions regarding the financial condition and operations of the institution.

We also propose adding a new § 619.9335 to our general definition rules to define SRP and SERP. A SRP or SERP would be defined to mean a nonqualified retirement plan that provides benefits above and beyond those covered by other retirement plans for all employees, and that is funded in whole or in part by the institution.

C. Compensation Committee Responsibilities [§§ 620.31 and 630.6(b)]

Our existing rules at §§ 620.31 and 630.6(b) require a compensation committee to review and approve the overall compensation programs for senior officers and to review the compensation policies and plans for all employees. Our July 9, 2009, FCA Bookletter, "Compensation Committees" (BL-060), provides guidance on how compensation committees should fulfill their duties. However, we believe it is appropriate to enhance our regulations to include the minimum responsibilities a compensation committee must perform in order to carry out its duties.

Therefore, in order that a compensation committee continues to effectively fulfill its stewardship role, maintain effective and active oversight, and ensure compensation and retirement benefit practices do not jeopardize the institution's safety and soundness, we propose clarifying that the compensation committee is accountable for:

- Monitoring the terms and provisions of the incentive-based compensation programs for senior officers,
- Analyzing the institution's projected long-term obligations for compensation and retirement benefits, and
- Balancing financial rewards to senior officers against the risks to the institution.

The proposed rule would amend our regulations at §§ 620.31(b) and 630.6(b)(2) to enhance compensation committee responsibilities to emphasize that the committee must ensure that:

- CEO and senior officers' compensation promotes the continued safety and soundness of the institution and supports the institution's long-term business strategy and goals,

- Risks to the institution and the financial rewards to the CEO and senior officers are balanced (*e.g.*, compensation and benefits are not excessive relative to the results of operations and financial condition of the institution),

- The institution's projected total long-term compensation and retirement obligations for the CEO and senior officers are analyzed, and

- The compensation of employee groups, other than the CEO and senior officers, do not pose an imprudent risk to the institution (*e.g.*, loan officers).

In addition, we emphasize that compensation committees should ensure that incentive-based compensation programs:

- Are not unreasonable or disproportionate to the services performed, and
- Are structured so that the payout schedule considers the potential for future losses or risks to the institution from services performed in the current period.

Under the proposed rule, the compensation committee would be required to document in meeting minutes its actions related to the proposed enhanced responsibilities. Documenting its actions would facilitate board review of how the committee carried out its responsibilities and provide the current committee with an understanding of prior committee actions.

For organizational reasons, we propose moving the requirements that all compensation committee members must be members of the board of directors and that the compensation committee report only to the board. The requirements would be moved to the section that discusses the formation of a compensation committee. Also, we propose replacing "function" with "perform its duties" in §§ 620.31(c) and 630.6(b)(3) for clarification.

D. Notice to Shareholders [§§ 620.10, 620.11, and 620.15]

In FCA Board Policy Statement, "Cooperative Operating Philosophy—Serving the Members of Farm Credit System Institutions,"⁸ (FCA-PS-80) the FCA reaffirmed its commitment to the cooperative structure and its values and practices, including regular and relevant communication with members. As such, we believe that certain events may be of such significance or materiality to

warrant communication to members-owners throughout the institution's operating cycle. We believe that timely and transparent communication to members encourages their continued participation in the ownership, control and management of their institution.

Existing §§ 620.15 and 620.17 require that System institutions provide notice to shareholders when the institution is not in compliance with minimum permanent capital standards. This notice is a supplement to annual and quarterly reporting requirements.

In a similar manner, we propose adding a requirement in § 620.15 that significant events or circumstances occurring in interim or intervening periods be communicated to shareholders through separate notice. As proposed, notices would be made as soon as possible, but not later than 90 calendar days after occurrence. As an alternative, we propose allowing the institution to issue the notice within its quarterly report, with prominent disclosure at the front of the report.

The proposed rule would allow institutions to distribute the notice via electronic distribution (Web site) or by publication with circulation wide enough to be reasonably assured that all shareholders have timely access to the information. Also, we propose that the notice be provided to the FCA at the same time it is distributed to shareholders and that the notice be dated and signed.

The proposed rule would include a list of events that must, at a minimum, be reported. If the event would be a "significant" change to a compensation, retirement, benefit or capitalization plan, significance would be based on the change to the individual plan and not the impact of the change to the institution as a whole.

As a related change to our rules, we propose consolidating the current contents of §§ 620.15 and 620.17 on notices regarding permanent capital into § 620.17. This change would allow the placement of the above proposed notice of significant or material events to be located in § 620.15 while preserving existing requirements on notices for permanent capital. We believe the proposed consolidation would add clarity to our rules by keeping like subject matters together and removing redundant language. It is not intended that the meaning and requirements for permanent capital notices be changed.

To conform our regulations in § 620.10, "Preparing the quarterly report," with the proposed notice of significant or material events, we propose adding a new paragraph (c) to existing § 620.10. The proposed

addition would clarify that the quarterly report may be used for notices to shareholders, except minimum permanent capital notices. We also propose adding a similar provision to § 620.11 on contents of quarterly reports, but including a proposed requirement that notices included in the quarterly report be located at the front of the report. We believe this proposed requirement preserves the objective of the notices, which is that members-owners receive timely and transparent communication of significant and material events.

E. Disclosure of Supplemental Retirement Plans to Employees, Exclusive of the CEO and Senior Officers [§ 620.5(e)]

We propose adding a new paragraph (4) to existing § 620.5(e) that would require disclosure of the institution's obligations related to a SRP to employees, exclusive of any plan provided to the CEO and senior officers. The disclosure would include, at a minimum:

- A description of the plan;
- Funded and unfunded obligations of the plan; and
- Vested and unvested dollar amounts.

We believe that by disclosing an institution's current and future supplemental benefit obligations, shareholders and investors will have a more complete understanding of the related liabilities and commitments, both on- and off-balance sheet.

F. Nonbinding, Advisory Vote by Shareholders on Senior Officer Compensation [§§ 611.100, 620.5(a), and 630.20(i); New §§ 611.360, 611.410, and 620.6(c)(6)]

Our existing regulations do not require a nonbinding, advisory vote by an institution's shareholders on senior officer compensation. However, in FCA Informational Memorandum, "Serving the Members of Farm Credit System Institutions" (IM), dated November 4, 2010, we noted that boards of directors can encourage member participation in the management and control of the institution by engaging members as owners and communicating with members. The IM highlighted our belief that effective boards use information obtained from members to establish strategic direction for their institutions and to ensure business activities remain member-focused.

We continue to believe that a Government-sponsored enterprise comprised of cooperative institutions should continually strive to operate under high standards in order to achieve

⁸ See 75 FR 64728, Oct. 20, 2010.

the System's public policy mission and encourage member-owner participation in their institution. Therefore, we propose adding a new § 611.410 requiring that Farm Credit banks and associations provide shareholders the opportunity to cast a nonbinding, advisory vote on senior officer compensation.

The proposed § 611.410 advisory vote would be required at banks and associations if either the CEO's or the aggregate of all senior officers' compensation, as disclosed in the Compensation Table, increased or decreased by 15 percent or more from the previous reporting period. The vote would not be required if the 15-percent change resulted solely from a change in the CEO or a change in the composition of personnel included in the senior officer group. Also, we propose that associations be required to hold a nonbinding, advisory vote on compensation if 5 percent of their voting shareholders petition for it. We did not propose this additional petition requirement for banks because there are fewer shareholders at the bank level, thereby allowing a few shareholders to control the petition process.

We do not believe the vote would be burdensome to institutions since it would be required only when a 15-percent change in practice has occurred or, for associations, when 5 percent of their voting shareholders petition for the vote. We believe the proposed nonbinding, advisory vote would provide a means for shareholders to clearly express and communicate either their approval or disapproval of compensation practices for senior officers to their institution's board. The board could then use the information, as appropriate, when establishing the institution's strategic direction and ensure that it remains member-focused.

We selected 15 percent as a threshold change in compensation based on the recent range of percentage changes to bank and association CEO's and senior officers' compensation. We consider the 15-percent threshold to be reasonable. We selected 5 percent as the maximum percentage of voting shareholders required to petition their association for the vote because 5 percent is generally accepted as a criteria for assessing significance or materiality.

We are also proposing general procedures for advisory votes in new § 611.360. The proposed procedures would apply to all advisory votes held by an institution including, but not limited to, the proposed advisory vote on compensation. As proposed, advisory votes would be subject to the same confidentiality and security in

voting requirements of § 611.340 and would be cast on a one-member, one-vote basis, including votes cast by shareholders of Farm Credit banks. We propose that weighted and cumulative voting not be allowed in advisory votes in order to further the objective of giving equal voice to each shareholder. Also, new § 611.360 would require that institutions develop voting procedures and provide notice to shareholders of any advisory vote and the procedures used in casting the vote. In addition, proposed § 611.360 would permit the advisory votes to be made in-person, by proxy, and by mail.

We propose disclosure in the annual report when an advisory vote is held, including disclosure of the results of the vote. We propose adding a new § 620.5(a)(11) to the "Description of business" section of the annual report, requiring a discussion of the types of advisory votes held during the reporting period. We further propose that disclosure of nonbinding, advisory votes on senior officer compensation be included with senior officer compensation disclosures in new § 620.6(c)(6). This disclosure requirement is proposed to be carried forward into the System-wide report to investors at § 630.20(i).

We propose in new § 611.410(c)(6) that associations disclose that shareholders may petition for an advisory vote, disclose when a petition is received and disclose the results of the petition. The proposal would require that the disclosures be presented with the Compensation Table. We believe that providing the disclosures with the Compensation Table ensures that shareholders are aware of their right to express their opinion on senior officer compensation practices of their associations.

In addition, we propose adding a definition of "advisory vote" at § 611.100(a) to ensure a consistent meaning of the term.

G. Miscellaneous

1. Technical Changes [§§ 611.330(c), 611.400, 620.2(c), 620.4(c), and 620.11]

Our proposed amendments require additional conforming and clarifying changes to other regulatory provisions. Likewise, in the proposed process of consolidating provisions, some regulatory language is proposed to be changed to remove redundancy and enhance clarity. We propose making the following technical and conforming changes:

a. We propose adding a definition for "business day" to § 611.100 to clarify our longstanding position that when our

rules reference business day it means a day the institution is open for business, but excludes Federal holidays. As a technical change, we propose renumbering existing § 611.100 paragraphs (a) through (f) as (c) through (h).

b. In subpart D of part 611, we propose revising the name of the subpart from "Rules for Compensation of Board Members" to "Compensation Practices of Farm Credit Banks and Associations." The change will clarify that the provisions of subpart D relate to various compensation issues at the bank and association level and not just to bank board members. As a conforming change, in § 611.400, we propose revising the name of the section from "Compensation of bank board members" to "Compensation of Farm Credit bank board members" to align terminology to that used in our general definitions of part 619. We also propose replacing the phrase "Farm Credit System bank" with "Farm Credit bank" everywhere it appears to update the section for the same reason.

c. We propose updating the language in § 611.400(b) regarding annual inflationary changes in the statutory salary limit for Farm Credit bank directors. The proposed change would continue to require that we communicate the annual changes to the System, but remove the requirement that we use a booklet to do so. This will expedite communication of the information.

d. We propose clarifying that the director-nominee disclosures discussed in § 611.330(c)(1) relate to the annual meeting information statement by providing a corresponding rule citation to § 620.21(b).

e. We propose changing the language in § 620.2(c) regarding the electronic delivery of reports to shareholders to clarify that the provision applies only to those reports individually sent to shareholders, not all reports.

f. We propose a minor grammatical change to § 620.4(c) on contents of the annual report by breaking out the sentence into two sentences. No change to the meaning of the paragraph is intended.

g. We propose to reorganize and renumber the existing provisions of § 620.11 to enhance clarity. No changes to the meaning of existing language is proposed, although we propose adding an additional provision to this section on incorporating shareholder notices into a quarterly report, as discussed earlier.

2. Incorporating by Reference [§ 620.2(d)]

We propose changing the language in § 620.2(d), which allows System institutions to incorporate by reference in their reports. The proposed change is to specify that information disclosed in any part of the report may be incorporated by reference in that report unless instructions state otherwise. In a prior rulemaking, we explained that § 620.2(d) allowed institutions to provide information required to be in a specific section of the annual report through a reference to another section of the report.⁹ The proposed limit on incorporating by reference would only exist when a rule limits the location of a specific disclosure.

3. Signatures on Reports [§ 620.10(c)]

In developing this proposed rule on disclosures in annual and quarterly reports, we noticed an inadvertent omission in the preparation requirements of quarterly reports. While quarterly reports are not required to be mailed to shareholders, we have always expected them to contain signatures and certifications used for other reports. However, existing § 620.10(a) does not clearly state this requirement. Therefore, we propose adding a new paragraph (a)(3) requiring quarterly reports to be signed and financial statements contained in the report to be certified as complete and accurate.

IV. Regulatory Flexibility Act

Pursuant to section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the FCA hereby certifies that the proposed rule would not have a significant economic impact on a substantial number of small entities. Each of the banks in the Farm Credit System, considered together with its affiliated associations, has assets and annual income in excess of the amounts that would qualify them as small entities. Therefore, Farm Credit System institutions are not “small entities” as defined in the Regulatory Flexibility Act.

(b) *Compensation of directors.* Describe the arrangements under which directors of the institution are compensated for all services as a director (including total cash compensation and noncash compensation). Noncash compensation with an annual aggregate value of less than \$5,000 does not have to be reported. State the total cash and reportable noncash compensation paid to all directors as a group during the last fiscal year. For the purposes of this paragraph, disclosure of compensation paid to and days served by directors

Noncash compensation with an annual aggregate value of less than \$5,000 does not have to be reported.

(c) *Compensation of senior officers.* Disclose the information on senior officer compensation and compensation plans as required by this paragraph. (1) For each of the last 3 completed fiscal years, report the total amount of compensation paid and the amount of each component of compensation paid to the institution's chief executive officer (CEO), naming the individual. If more than one person served in the capacity of CEO during any given fiscal year, individual compensation disclosures must be provided for each CEO.

(2) For each of the last 3 completed fiscal years, report the aggregate amount of compensation paid, and the components of compensation paid, to all senior officers as a group, stating the

number of officers in the group without naming them.

(i) If applicable, when any employee who is not a senior officer has annual compensation at a level that is among the five highest paid by the institution during the reporting period, include the highly compensated employee(s) in the aggregate number and amount of compensation reported in the Compensation Table.

(ii) The report containing the aggregate compensation disclosure must include a statement that disclosure of information on the total compensation paid during the last fiscal year to any senior officer, or to any other employee included in the aggregate, is available and will be disclosed to shareholders of the institution and shareholders of related associations (if applicable) upon request. If the amount of salary or bonus earned during the fiscal year is not calculable by the time the report is prepared, the reporting institution must provide its best estimate of the compensation amount(s) and disclose that fact in a footnote to the table.

(ii) Amounts shown as "deferred/perquisites" (column (e)) must reflect the dollar value of other annual

compensation not properly categorized as salary or bonus, including but not limited to:

(A) Deferred compensation earned during the fiscal year, whether or not paid in cash; or

(B) The amount of contributions by the institution on behalf of the senior officer to a vested or unvested defined contribution plan unless the plan is

made available to all employees on the same basis.

(iv) Amounts displayed under “Total” (column (g)) shall reflect the sum total

(v) Report the sum of the funded, unfunded, and unvested columns in the “Total” column.

(5) Provide a description of all compensation, retirement, incentive, performance, and other benefit plans (plans) pursuant to which cash or noncash compensation was paid or distributed during the last fiscal year, or is proposed to be paid or distributed in the future for performance during the last fiscal year, to those individuals included in the Compensation Table. The description of each plan must include, but not be limited to:

(i) A summary of how each plan operates and who is covered by the plan. The summary must include the criteria used to determine amounts payable, including any performance formula or measure, as well as the time period over which the measurement of compensation will be determined, payment schedules, and any material amendments to the plan during the last fiscal year.

(ii) The overall risk and reward structure of the plan as it relates to senior officers’ compensation. The description must include, at a minimum, how each plan is compatible with and promotes the institution’s goals and business strategy and the mission as a Government-sponsored enterprise.

(iii) A discussion of the relationship between the CEO and senior officers’ compensation to the reporting

institution’s overall performance. The disclosure must also discuss the relationship between the CEO’s and senior officers’ compensation to their performance.

(6) In the same vicinity as the Compensation Table, discuss any advisory votes that were held under the provisions of § 611.410 of this chapter during the reporting period and the results of the vote(s). For associations, include a discussion of whether or not the vote resulted from a shareholder petition. Each association must disclose in this same location the authority of shareholders to petition for an advisory vote on CEO and senior officer compensation.

(7) Associations may disclose the information required by paragraph (c) of this section in the Annual Meeting Information Statement (AMIS) pursuant to subpart E of this part. Associations exercising this option must include a reference in the annual report stating that the senior officer compensation information is included in the AMIS and that the AMIS is available for public inspection at the reporting association offices pursuant to § 620.2(b).

(d) *Travel, subsistence, and other related expenses.*

(1) Briefly describe your policy addressing reimbursements for travel, subsistence, and other related expenses as it applies to directors and senior officers. The report shall include a statement that a copy of the policy is available to shareholders of the institution and shareholders of related associations (if applicable) upon request.

(2) *Transactions other than loans.* For each person who served as a senior officer or director on January 1 of the year following the fiscal year of which the report is filed, or at any time during the fiscal year just ended, describe briefly any transaction or series of transactions other than loans that occurred at any time since the last annual meeting between the institution and such person, any member of the immediate family of such person, or any organization with which such person is affiliated.

(i) For transactions relating to the purchase or retirement of preferred stock issued by the institution, state the name of each senior officer or director that held preferred stock issued by the institution during the reporting period, the current amount of preferred stock held by the senior officer or director, the average dividend rate on the preferred stock currently held, and the amount of purchases and retirements by the individual during the reporting period.

(ii) For all other transactions, state the name of the senior officer or director who entered into the transaction or whose immediate family member or affiliated organization entered into the transaction, the nature of the person’s interest in the transaction, and the terms of the transaction. No information need be given where the purchase price, fees, or charges involved were determined by competitive bidding or where the amount involved in the transaction (including the total of all periodic payments) does not exceed \$5,000, or the interest of the person arises solely as a result of his or her status as a stockholder of the institution and the benefit received is not a special or extra benefit not available to all stockholders.

(3) *Loans to senior officers and directors.*

(i) To the extent applicable, state that the institution (or in the case of an association that does not carry loans to its senior officers and directors on its books, its related bank) has had loans outstanding during the last full fiscal year to date to its senior officers and directors, their immediate family members, and any organizations with which such senior officers or directors are affiliated that:

(A) Were made in the ordinary course of business; and

(B) Were made on the same terms, including interest rate, amortization schedule, and collateral, as those prevailing at the time for comparable transactions with other persons.

(ii) To the extent applicable, state that no loan to a senior officer or director, or to any organization affiliated with such person, or to any immediate family member who resides in the same household as such person or in whose loan or business operation such person has a material financial or legal interest, involved more than the normal risk of collectability; provided that no such statement need be made with respect to any director or senior officer who has resigned before the time for filing the applicable report with the Farm Credit Administration (but in no case later than the actual filing), or whose term of office will expire or terminate no later than the date of the meeting of stockholders to which the report relates.

(iii) If the conditions stated in paragraphs (e)(3)(i) and (ii) of this section do not apply to the loans of the persons or organizations specified therein, with respect to such loans state:

(A) The name of the officer or director to whom the loan was made or to whose relative or affiliated organization the loan was made.

(B) The largest aggregate amount of each indebtedness outstanding at any time during the last fiscal year.

(C) The nature of the loan(s).

(D) The amount outstanding as of the latest practicable date.

(E) The reasons the loan does not comply with the criteria contained in paragraphs (e)(3)(i) and (e)(3)(ii) of this section.

(F) If the loan does not comply with paragraph (e)(3)(i)(B) of this section, the rate of interest payable on the loan and the repayment terms.

(G) If the loan does not comply with paragraph (e)(3)(ii) of this section, the amount past due, if any, and the reason the loan is deemed to involve more than a normal risk of collectability.

(f) *Involvement in certain legal proceedings.* Describe any of the following events that occurred during the past 5 years and that are material to

an evaluation of the ability or integrity of any person who served as director or senior officer on January 1 of the year following the fiscal year for which the report is filed or at any time during the fiscal year just ended:

(1) A petition under the Federal bankruptcy laws or any State insolvency law was filed by or against, or a receiver, fiscal agent, or similar officer was appointed by a court for the business or property of such person, or any partnership in which such person was a general partner at or within 2 years before the time of such filing, or any corporation or business association of which such person was a senior officer at or within 2 years before the time of such filing;

If any amount that would otherwise be required to be shown by this subpart with respect to any item is not material, it need not be separately shown. The combination of insignificant items is permitted.

* * * * *

(c) *Required content.* A quarterly report must, at a minimum, contain the following items:

(1) *Management's discussion and analysis of financial condition and results of operations.* Discuss material changes, if any, to the information provided to shareholders pursuant to § 620.5(g) that have occurred during the periods specified in paragraphs (c)(2)(i) and (ii) of this section. Such additional information as is needed to enable the reader to assess material changes in financial condition and results of operations between the periods specified in paragraphs (c)(2)(i) and (ii) of this section shall be provided.

(i) *Material changes in financial condition.* Discuss any material changes in financial condition from the end of the preceding fiscal year to the date of the most recent interim balance sheet provided. If the interim financial statements include an interim balance sheet as of the corresponding interim date of the preceding fiscal year, any material changes in financial conditions from that date to the date of the most recent interim balance sheet provided also shall be discussed. If discussions of changes from both the end and the corresponding interim date of the preceding fiscal year are required, the discussions may be combined at the discretion of the institution.

(ii) *Material changes in results of operations.* Discuss any material changes in the institution's results of operations with respect to the most recent fiscal year-to-date period for which an income statement is provided and the corresponding year-to-date period of the preceding fiscal year. Such discussion also shall cover material changes with respect to that fiscal

quarter and the corresponding fiscal quarter in the preceding fiscal year. In addition, if the institution has elected to provide an income statement for the 12-month period ended as of the date of the most recent interim balance sheet provided, the discussion also shall cover material changes with respect to that 12-month period and the 12-month period ended as of the corresponding interim balance sheet date of the preceding fiscal year.

(iii) Interim statements of changes in protected borrower capital and at-risk capital for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the comparable period for the preceding fiscal year.

(iv) For banks, interim statements of cash flows for the period between the end of the preceding fiscal year and the end of the most recent fiscal quarter, and for the comparable period for the preceding fiscal year. For associations, interim statements of cash flows are optional.

(3) *Other related financial items.* State that the financial statements were prepared under the oversight of the audit committee. The interim financial information need not be audited or reviewed by a qualified public accountant or external auditor prior to filing. If, however, a review of the data is made in accordance with the established professional standards and procedures for such a review, the institution may state that a qualified public accountant or external auditor has performed such a review under the supervision of the institution's audit committee. If such a statement is made, the report of a qualified public accountant or external auditor on such review must accompany the interim financial information.

Airworthiness Directives; Bombardier, Inc. Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Bombardier, Inc. Model CL-600-2B19 (Regional Jet Series 100 & 440) airplanes. This proposed AD was prompted by a report of a fire which started in the vicinity of an electrical panel that was fed by oxygen escaping from a damaged third crew person oxygen line that occurred while the airplane was on the ground. This proposed AD would require replacing and changing the routing of the flexible oxygen hose of the third crew person oxygen line and modifying the entrance compartment assembly. We are proposing this AD to prevent the possibility of damage to the third crew person oxygen line and an oxygen-fed fire in the airplane.

DATES: We must receive comments on this proposed AD by March 8, 2012.

ADDRESSES: You may send comments by any of the following methods:

Discussion

Transport Canada Civil Aviation (TCCA), which is the aviation authority for Canada, has issued Canadian Airworthiness Directive CF-2011-23, dated July 14, 2011 (referred to after this

as "the MCAI"), to correct an unsafe condition for the specified products. The MCAI states:

An operator has reported a ground fire in the CL-600-2B19 aeroplane. The fire burnt an 18 inch hole through the left upper fuselage skin panel in the cockpit area. The fire started in the vicinity of the Junction Box 1 (JB1) electrical panel, and was fed by oxygen escaping from a damaged third crewman oxygen line.

This [TCCA] Airworthiness Directive (AD) was issued to prevent the possibility of damage to the third crewman oxygen line and an oxygen fed fire in the aeroplane.

The required actions include replacing and changing the routing of the flexible oxygen hose of the third crew person oxygen line and modifying the entrance compartment assembly. You may obtain further information by examining the MCAI in the AD docket.

Relevant Service Information

Bombardier has issued Service Bulletin 601R-35-017, Revision A, dated June 9, 2011. The actions described in this service information are intended to correct the unsafe condition identified in the MCAI.

FAA's Determination and Requirements of This Proposed AD

This product has been approved by the aviation authority of another country, and is approved for operation in the United States. Pursuant to our bilateral agreement with the State of Design Authority, we have been notified of the unsafe condition described in the MCAI and service information referenced above. We are proposing this AD because we evaluated all pertinent information and determined an unsafe condition exists and is likely to exist or develop on other products of the same type design.

Costs of Compliance

Based on the service information, we estimate that this proposed AD would affect about 588 products of U.S. registry. We also estimate that it would take about 13 work-hours per product to comply with the basic requirements of this proposed AD. The average labor rate is \$85 per work-hour. Required parts would cost about \$108 per product. Where the service information lists required parts costs that are covered under warranty, we have assumed that there will be no charge for these parts. As we do not control warranty coverage for affected parties, some parties may incur costs higher than estimated here. Based on these figures, we estimate the cost of the proposed AD on U.S. operators to be \$713,244, or \$1,213 per product.
