

launched in 2007. As it was designed to provide baseline information and to be repeated every two years, it was conducted again in 2009 and 2011. The survey inquired about patient education and support for breastfeeding throughout the maternity stay as well as staff training and maternity care practices.

OMB approval for the 2007 survey included a request to CDC to provide, prior to the fielding of the 2009 iteration, a report to the Office of Management and Budget (OMB) on the results of the 2007 collection. In this report, CDC provided survey results by geographic and demographic characteristics and a summary of activities that resulted from the survey. A summary of mPINC findings was also the anchor of all activities related to the CDC August 2011 Vital Signs activity, marking the first time that CDC decided to highlight improving hospital maternity practices as the CDC-wide public health priority for the month.

A major strength of the mPINC survey design is its structure as an ongoing, national census. The 2013 and 2015 mPINC surveys repeat the prior iterations (2007, 2009, and 2011). Ensuring that the methodology, content, and administration of these will match

those used before maximizes the utility not only of the data to be collected in the upcoming survey, but also that of data already collected; fidelity to the original design allows for analyses of the wide spectrum of changes and factors at the hospital, regional, state, and national levels that affect any given hospital's practices. The census design does not employ sampling methods. Facilities are identified by using the American Association of Birth Centers (AABC) and the American Hospital Association (AHA) Annual Survey of Hospitals. Facilities that will be invited to participate in the survey include those that participated in previous iterations and those that were invited but did not participate in the previous iterations, as well as those that have become eligible since the most recent mPINC survey. All birth centers and hospitals with ≥1 registered maternity bed will be screened via a brief phone call to assess their eligibility, identify additional locations, and identify the appropriate point of contact. The extremely high response rates to the previous iterations of the mPINC survey (82% in 2007 and 2009, and 83% in 2011) indicate that the methodology is appropriate and also reflects unusually

high interest among the respondent population. The estimated burden for the Telephone Screening Interview is five minutes, and the estimated burden for completing the mPINC Survey is 30 minutes.

As with the initial surveys, a major goal of the 2013 and 2015 follow-up surveys is to be fully responsive to facilities' needs for information and technical assistance. CDC will provide direct feedback to respondents in a customized benchmark report of their results and identify and document progress since 2007 on their quality improvement efforts. CDC will use information from the mPINC surveys to identify, document, and share information related to incremental changes in practices and care processes over time at the hospital, state, and national levels. Data will be also used by researchers to better understand the relationships between hospital characteristics, maternity-care practices, state level factors, and breastfeeding initiation and continuation rates.

Participation in the survey is voluntary, and responses may be submitted by mail or through a Web-based system. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
AHA Hospitals with either > 1 birth or > 1 registered maternity bed.	Telephone Screening Interview	2,398	1	5/60	200
	mPINC Survey	1,730	1	30/60	865
AABC Birth Centers	Telephone Screening Interview	173	1	5/60	14
	mPINC Survey	95	1	30/60	48
Total					1,127

Advisory Council for the Elimination of Tuberculosis Meeting (ACET)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC)

announces the following meeting of the aforementioned committee:

Time and Date:

11:00 a.m.–2:30 p.m., March 5, 2013.

Place: This meeting is accessible by Web conference. Toll-free +1 (888) 324-9613, Toll +1 (312) 470-7151;

Participant Code: ACET

For Participants: URL: <https://www.mymeetings.com/nc/join/>

Conference number: PW4516585

Audience passcode: ACET

Participants can join the event directly at: <https://www.mymeetings.com/nc/join.php?i=PW4516585&p=ACET&t=c>.

Status: Open to the public limited only by web conference. Participation by web conference is limited by the number of ports available (150).

Purpose: This council advises and makes recommendations to the Secretary of Health and Human Services, the Assistant Secretary for Health, and the Director, CDC, regarding the elimination of tuberculosis. Specifically, the Council makes recommendations regarding policies, strategies, objectives, and priorities; addresses the development and application of new technologies; and reviews the extent to which progress has been made toward eliminating tuberculosis.

Matters to Be Discussed: Agenda items include the following topics: (1) ACET Chair's report to the Secretary; (2) Roles and responsibilities for Federal Advisory Committees; (3) Recommendations of topics for the June 2013 ACET meeting; and (4) other

tuberculosis-related issues. Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Margie Scott-Cseh, CDC, 1600 Clifton Road, NE., M/S E-07, Atlanta, Georgia 30333, telephone (404) 639-8317; Email: zkr7@cdc.gov

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** Notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Elaine L. Baker,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).
