

allocation application to the Fund. Upon receipt of such applications, the Fund will conduct a competitive review process to evaluate applications for the receipt of NMTC allocations. Entities receiving an NMTC allocation must enter into an allocation agreement with the Fund. The allocation agreement contains the terms and conditions, including all reporting requirements, associated with the receipt of a NMTC allocation. The Fund will require each allocatee to use an electronic data collection and submission system, known as the allocation tracking system, to report on the information related to its receipt of a Qualified Equity Investment.

The Fund has developed the allocation tracking system to, among other things: (1) Enhance the allocatee's ability to report to the Fund timely information regarding the issuance of its Qualified Equity Investments; (2) enhance the Treasury Department's ability to monitor the issuance of Qualified Equity Investments to ensure that no allocatee exceeds its allocation authority, and to ensure that Qualified Equity Investments are issued within the timeframes required by the allocation agreement and the NMTC Program regulations; and (3) provide the Treasury Department with basic investor data which may be aggregated and analyzed in connection with NMTC Program evaluation efforts.

Current Actions: Selected allocatees for the NMTC Program.

Type of Review: Renewal.

Affected Public: Business or other for-profit institutions, not-for-profit institutions and State, local and Tribal entities.

SUPPLEMENTARY INFORMATION:

Title: The Community Development Financial Institutions Fund—Conflict of Interest Package for Non-Federal Readers.

OMB Number: 1559-0011.

Abstract: Through its programs the Fund supports financial institutions around the country that are specifically dedicated to financing and supporting community and economic development activities. This strategy builds strong institutions that make loans and investments and provide financial services in markets (including economically distressed investments areas and targeted populations) whose needs for loans, investments, and financial services have not been fully met by traditional financial institutions, particularly in the areas of promoting homeownership, developing of affordable housing, and stimulating small business development, as well as providing financial services to those that have not previously accessed financial institutions.

Consistent with the Federal Acquisition Regulations provisions on conflicts of interest, the Fund has applied, and will continue to apply, a conflict of interest policy with respect to its contract (non-Federal employee) readers that avoids a reader's participation in the evaluation or process of selection of applications where such participation creates a conflict of interest or an appearance of a conflict of interest. The conflict of interest review materials are used by the Fund to determine whether or not a contractor's financial interest, or that of the contractor's spouse, parent, dependent child, or member of household, may result in a conflict, or apparent conflict of interest with the individual's duties and responsibilities as a contractor evaluating applications. The completion of the package is mandatory for all contractors prior to their selection as readers.

Current Action: Extension.

Type of Review: Renewal.

Affected Public: Individuals.

Estimated Number of Respondents: 150.

Estimated Annual Time per Respondent: 45 minutes (0.75 hours).

Estimated Total Annual Burden Hours: 112.5 hours.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services required to provide information.
