Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR is to maintain PRA approval for the information collections contained in regulations 30 CFR parts 48 and 75 to improve emergency evacuation and rescue in underground coal mines. These regulations include requirements for immediate accident notification applicable to all mines. In addition, the regulations contain reporting and record keeping requirements for training, including evacuation drills; self-contained self-rescuer storage, training, and use; and installation and maintenance of lifelines in underground coal mines. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 6, 2013 (78 FR 14592).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0141.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on July 31, 2013. The DOL seeks to extend PRA authorization for this information collection for three (3) more years,

without any change to existing requirements. It should also be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review.

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0141. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Information Collection Request of the ETA 207, Nonmonetary Determination Activities Report; Comment Request on Extension Without Change (OMB 1205-0150)

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collection of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The current expiration date is February 28, 2014.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before September 3, 2013.

ADDRESSES: Send comments to Edward Medlin, U.S. Department of Labor, Employment and Training Administration, Office of Unemployment Insurance, 200 Constitution Avenue NW., Frances Perkins Bldg. Room S-4524, Washington, DC 20210, telephone number (202)-693-3259 (this is not a toll-free number) or by email: Medlin.Edward@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Background

The ETA 207 Report, Nonmonetary Determination Activities, contains state data on the number and types of issues that are adjudicated when unemployment insurance (UI) claims are filed. It also has data on the number of disqualifications that are issued for reasons associated with a claimant's separation from employment and reasons related to a claimant's continuing eligibility for benefits. These data are used by the Office of

Unemployment Insurance (OUI) to determine workload counts for allocation of administrative funds, to analyze the ratio of disqualifications to determinations, and to examine and evaluate the program effect of nonmonetary activities.

II. Desired Focus of Comments

Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension collection of the ETA 207, Nonmonetary Determinations Activities Report. Comments are requested to:

- Evaluate whether the proposed collection of information is necessary to assess performance of the nonmonetary determination function, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The continued collection of the information contained on the ETA 207 report is necessary to enable the OUI to continue evaluating state performance in the nonmonetary determination area and to continue using the data as a key input to the administrative funding process.

Type of Review: Extension without change.

Agency: Employment and Training Administration (ETA)

Title: Nonmonetary Determination Activities Report

OMB Number: 1205-0150

Total Responses: 53 respondents \times 4 responses per year = 212 responses for the regular program, 53 respondents \times 4 responses per year = 212 responses for the Emergency Unemployment Compensation 2008 program, 53 respondents \times 4 responses per year = 212 responses for the Federal-State extended benefit program for an estimated total of 636 responses.

Average Estimated Response Time: 4 hours per response

Estimated Annual Burden Hours: 2,544 hours

Total Burden Cost (capital/startup): \$0

Total Burden Cost (operating/maintaining): \$0

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the ICR; they will also become a matter of public record.

Signed in Washington, DC on this 17th Day of June, 2013.

Gerri Fiala,

Acting Assistant Secretary, Employment and Training Administration.

SUPPLEMENTARY INFORMATION:

I. Background

Under Section 313 of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 873, any explosives used in underground coal mines must be permissible with certain exceptions. The Mine Act also provides that, under safeguards prescribed by the Secretary of Labor, a mine operator may permit the firing of more than 20 shots and the use of nonpermissible explosives in sinking shafts and slopes from the surface in rock. Title 30 CFR 75.1321 outlines the procedures by which a permit may be issued for the firing of more than 20 boreholes and/or the use of nonpermissible blasting units in underground coal mines. In those instances in which there is a misfire of explosives, § 75.1327 requires that a qualified person post each accessible entrance to the affected area with a warning to prohibit entry. Section 77.1909-1 outlines the procedures by which a coal mine operator may apply for a permit to use nonpermissible explosives and/or shot-firing units in the blasting of rock while sinking shafts or slopes for underground coal mines.

II. Desired Focus of Comments

The Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Application for a Permit to Fire More than 20 Boreholes and/or for the use of Nonpermissible Blasting Units, Explosives, and Shot-firing Units; Posting Notices of Misfires. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper
