## FEDERAL COMMUNICATIONS COMMISSION

[GN Docket No. 22–352; DA 22–974; FR ID 107907]

### 180-Day Freeze on Applications for New or Modified Authorizations for the 12.7–13.25 GHz Band

**AGENCY:** Federal Communications Commission.

**ACTION:** Announcement of temporary freeze.

**SUMMARY:** In this document, the International, Public Safety and Homeland Security, Media, and Wireless Telecommunications Bureaus (Bureaus) announce a 180-day freeze, effective September 19, 2022 on the filing of new or modification applications for licenses or other authorizations in the 12.7–12.75 GHz and 12.75–13.250 GHz bands (collectively, 12.7 GHz band). The purpose of this temporary freeze is to preserve the current landscape of authorized operations in the 12.7 GHz band pending the Commission's consideration of actions that might encourage the larger and more effective use of this radio spectrum in the public interest.

**DATES:** Filing of certain applications is frozen as of September 19, 2022.

**FOR FURTHER INFORMATION CONTACT:** Simon Banyai, Broadband Division, Wireless Telecommunications Bureau, (202) 418–1443 or [simon.banyai@fcc.gov](mailto:simon.banyai@fcc.gov).

**SUPPLEMENTARY INFORMATION:** This a summary of the Commission's document, DA 22–974, released on September 19, 2022. The full text of this document is available at <https://docs.fcc.gov/public/attachments/DA-22-974A1.pdf>. To request materials in accessible formats (braille, large print, computer diskettes, or audio recordings), please send an email to [FCC504@fcc.gov](mailto:FCC504@fcc.gov) or call the Consumer & Government Affairs Bureau at (202) 418–0530 (VOICE), (202) 418–0432 (TTY).

*Filing Freeze in 12.7–12.75 GHz and 12.75–13.25 GHz Band (12.7 GHz Band).* To preserve the current landscape of authorized operations in the 12.7 GHz band to facilitate the Commission's consideration of spectrum management and planning options, the Bureaus

announce a 180-day freeze, effective as of September 19, 2022, on the filing of new or modification applications for fixed satellite service (FSS) space stations serving earth stations located in the United States, FSS earth stations, broadcast auxiliary services, cable television relay service, and fixed microwave services stations, in the 12.7 GHz band, except as otherwise noted herein. The decision to impose this temporary freeze is procedural in nature, and therefore the freeze is exempt from the notice and comment and effective date requirements of the Administrative Procedure Act. Moreover, and in the alternative, the Commission finds good cause to conclude that prior notice and comment or a delay in effectiveness would be impractical, unnecessary, and contrary to the public interest because it would undermine the purposes of the freeze. The Bureaus find that this temporary freeze will help preserve the options available to the Commission for consideration of additional uses of the band while limiting the potential for speculative applications that might be filed in anticipation of potential future actions by the Commission. The Commission or the Bureaus may extend the freeze if doing so is deemed necessary to avoid undermining the purpose of the freeze. Any conditional authority conferred by rule during the pendency of an application is inapplicable to an application that will be dismissed under this freeze.<sup>1</sup> Any temporary authority to operate in the 12.7 GHz band at temporary locations conferred by rule or license will remain operative.<sup>2</sup>

*Space stations.* During the freeze, the International Bureau will dismiss any new space station license applications and new requests for access to the U.S. market through non-U.S.-licensed space stations, or those parts of any such applications and requests, that seek to operate in the 12.7 GHz band. *Exceptions:* The freeze does not apply to new applications for space stations limited to serving earth stations outside the United States, applications for modification of existing space station authorizations,<sup>3</sup> relocations of existing space stations pursuant to the Commission's fleet management

policy,<sup>4</sup> or to applications for replacement space stations.<sup>5</sup>

*Earth stations.* During the freeze, the International Bureau will dismiss applications, or those portions of applications, received for new earth station licenses, and modifications to earth stations currently authorized, to operate in the 12.7 GHz band. *Exceptions:* The freeze does not extend to applications for renewal or cancellation of current earth station authorizations,<sup>6</sup> or modifications to correct location or other data required in the earth station file,<sup>7</sup> or to certain other earth station modifications described below.

*Broadcast Auxiliary.*<sup>8</sup> During the freeze, the Wireless Telecommunications Bureau will dismiss applications received for new or major modifications to fixed or mobile BAS stations to operate in the 12.7 GHz band. *Exceptions:* The freeze does not extend to applications for renewal, cancellation, and certain minor modifications described below.

*Cable Television Relay.*<sup>9</sup> During the freeze, the Media Bureau will dismiss applications received for new or major modifications to fixed or mobile CARS stations to operate in the 12.7 GHz band. *Exceptions:* The freeze does not extend to applications for renewal, cancellation, and certain minor modifications discussed below.

*Fixed Microwave.*<sup>10</sup> During the freeze, the Wireless Telecommunications and Public Safety and Homeland Security Bureaus will dismiss applications received for new or major modifications to fixed or mobile microwave stations to operate in the 12.7 GHz band. *Exceptions:* The freeze does not extend to applications for renewal, cancellation, or certain minor modifications discussed below.

*Exception to freeze for certain modification applications.* Under the Commission's emerging technology

policies (ET),<sup>11</sup> microwave incumbents in 1.9 GHz and 2.1 GHz bands that were allocated for emerging technologies were permitted to retain primary status for certain minor modifications if they affirmatively justified primary status and established that the modification would not add to the relocation costs of ET licensees. Based on this precedent, under the instant freeze, incumbents with primary status will be permitted to make the following modifications on a primary basis to any future ET licensees if the incumbent licensee establishes that the modification would not add to any relocation costs, if applicable in the future:

- earth stations: modifications not requiring prior Commission authorization,<sup>12</sup>

- BAS, CARS, and Fixed Microwave stations: minor modifications.<sup>13</sup>

The appropriate Bureau will consider requests for waiver of this freeze on a case-by-case basis and upon a demonstration that waiver will serve the public interest and not undermine the objectives of the freeze.

### Agency Information Collection Activities: Proposed Collection Renewal; Comment Request

**AGENCY:** Federal Deposit Insurance Corporation (FDIC).

**ACTION:** Notice and request for comment.

**SUMMARY:** The FDIC, as part of its obligations under the Paperwork Reduction Act of 1995, invites the general public and other Federal agencies to take this opportunity to comment on the request to renew the existing information collections described below (OMB Control No. 3064-0026, -0070, -0079, -0188 and -0211). The notice of the proposed renewal for these information collections was previously published in the **Federal Register** on August 22, 2022, and August 29, 2022, allowing for a 60-day comment period.

**DATES:** Comments must be submitted on or before November 18, 2022.

**ADDRESSES:** Interested parties are invited to submit written comments to the FDIC by any of the following methods:

- **Agency Website:** <https://www.fdic.gov/resources/regulations/federal-register-publications/>.
- **Email:** [comments@fdic.gov](mailto:comments@fdic.gov). Include the name and number of the collection in the subject line of the message.

- **Mail:** Manny Cabeza (202-898-3767), Regulatory Counsel, MB-3128, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.

- **Hand Delivery:** Comments may be hand-delivered to the guard station at the rear of the 17th Street NW building (located on F Street NW), on business days between 7 a.m. and 5 p.m.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**General Description of Collection:** Section 17A(c) of the Security Exchange Act of 1934 (the Act) requires all transfer agents for securities registered under section 12 of the Act or, if the security would be required to be registered except for the exemption from registration provided by section 12(g)(2)(B) or section 12(g)(2)(G), to “fil[e] with the appropriate regulatory agency . . . an application for

registration in such form and containing such information and documents . . . as such appropriate regulatory agency may prescribe as necessary or appropriate in furtherance of the purposes of this section.” In general, an entity performing transfer agent functions for a security is required to register with its appropriate regulatory agency if the security is registered on a national securities exchange or if the issuer of

the security has total assets exceeding \$10 million and a class of equity security held of record by 2,000 persons or, for an issuer that is not a bank, BHC, or SLHC, by 500 persons who are not accredited investors. The Federal Reserve Board of Governors’ Regulation H (12 CFR 208.31(a)) and Regulation Y (12 CFR 225.4(d)), the OCC’s 12 CFR 9.20, and the FDIC’s 12 CFR part 341 implement these provisions of the Act.
