III. Description of Programs and Potential Disclosure of Information Claimed as Confidential Business Information (CBI) to Contractors

EPA's Office of Transportation and Air Quality (OTAQ) has responsibility for protecting public health and the environment by regulating air pollution from motor vehicles, engines, and the fuels used to operate them, and by encouraging travel choices that minimize emissions. In order to implement various Clean Air Act programs, and to permit regulated entities flexibility in meeting regulatory requirements (e.g., compliance on average), we collect compliance reports and other information from them. Occasionally, the information submitted is claimed to be confidential business information (CBI). Information submitted under such a claim is handled in accordance with EPA's regulations at 40 CFR part 2, subpart B and in accordance with EPA procedures, including comprehensive system security plans (SSPs) that are consistent with those regulations. When EPA has determined that disclosure of information claimed as CBI to contractors is necessary, the corresponding contract must address the appropriate use and handling of the information by the contractor and the contractor must require its personnel who require access to information claimed as CBI to sign written non-disclosure agreements before they are granted access to data.

In accordance with 40 CFR 2.301(h), we have determined that the contractors, subcontractors, and grantees (collectively referred to as "contractors") listed below require access to CBI submitted to us under the Clean Air Act and in connection with the nonroad diesel engine program and we are providing notice and an opportunity to comment. OTAQ collects this data in order to monitor compliance with the nonroad diesel engine program and to permit regulated parties flexibility in meeting regulatory requirements through the trading of RINs. We are issuing this **Federal Register** notice to inform all affected submitters of information that we plan to grant access to material that may be claimed as CBI to the contractors identified below on a need-to-know basis.

Under Contract Number EP-W-11-003, Abt Associates, 4550 Montgomery

Avenue, Suite 800 North, Bethesda, MD 20814, and its subcontractor, Engine, Fuel, and Emissions Engineering, Incorporated (EF&EE), 3221 Fitzgerald Road, Rancho Cordova, CA 95670, is providing support to EPA's National Center for Environmental Economics (NCEE) on a retrospective analysis of costs of selected regulatory actions, evaluating the degree to which ex-ante costs and ex-post costs of regulations differ and exploring possible reasons for cost divergence where it exists, that involves access to information claimed as CBI, including the sales projections provided by nonroad diesel engine manufacturers in their certification applications. Access to data, including information claimed as CBI, will commence on February 22, 2013, and will continue until September 10, 2013. If the contract is extended, this access will continue for the remainder of the contract without further notice.

Parties who wish further information about this **Federal Register** notice or about OTAQ's disclosure of information claimed as CBI to contractors may contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Abstract: Section 3005 of Subtitle C of RCRA requires treatment, storage or disposal facilities (TSDFs) to obtain a permit. To obtain the permit, the TSDFs must submit an application describing the facility's operation. There are two

parts to the RCRA permit application—Part A and Part B. Part A defines the processes to be used for treatment, storage, and disposal of hazardous wastes; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. Part B requires detailed site specific information such as geologic, hydrologic, and engineering data. In the event that permit modifications are proposed by the applicant or EPA, modifications must conform to the requirements under Sections 3004 and 3005.

Form Numbers: None.

Respondents/affected entities:

Business or other for-profit; as well as State, Local, or Tribal governments.

Respondent's obligation to respond: Mandatory (RCRA 3005).

Estimated number of respondents: 67.

Frequency of response: On occasion.

Total estimated burden: 23,669 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$3,996,222 (per year), includes \$2,791,804 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is decrease of 9,591 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to the smaller number of affected facilities.

John Moses,

Director, Collection Strategies Division.
