

product registrations at the close of the comment period for this announcement.

III. Proposed Existing Stocks Provisions

The registrants have requested voluntary cancellation for the disulfoton and naled registrations identified in the table. EPA intends to grant the requests for voluntary cancellations and use deletions. For purposes of the cancellation order that the Agency intends to issue at the close of the comment period for this announcement, the term "existing stocks" will be defined, as prescribed in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4), as those stocks of a registered pesticide product which are currently used in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation or amendment. For disulfoton products, EPA intends to permit registrants of these products to distribute and sell existing stocks of cancelled products or products bearing deleted uses for 12 months from the effective date of cancellation. In the case of naled, the registrant has requested the effective date of cancellation to be March 1, 2002, as well as a provision for the sale or distribution of existing stocks until December 31, 2002. EPA intends to grant this request. The Agency also intends to permit all persons other than the registrant to sell, distribute, or use disulfoton or naled products until

supplies are exhausted. Any distribution, sale, or use of existing stocks that is not consistent with the terms of that order will be considered a violation of section 12(a)(2)(K) and/or 12(a)(1)(A) of FIFRA.
