Implementation of the Partners' refrigeration management plan to reduce refrigerant emissions enhances the protection of the environment and may save Partners money and improve operational efficiency. The GreenChill Program offers the opportunity for any individual store to earn GreenChill Certification at the silver, gold, platinum, or other level when it demonstrates that the amount of refrigerant used is below a specified limit, based on the store's million British Thermal Units per hour (MBTU/hr) cooling load, and that the refrigerant emitted from the store in the prior 12 months is below a specified percentage depending on each GreenChill Store Certification level. Information submitted for the certification of individual stores is compared to these set criteria for each certification level. The certification of a store provides the opportunity for broad recognition within the food retail industry and with the store's customers.
