[Project No. 13954-000]

Mahoning Hydropower, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

January 31, 2011.

On December 30, 2010, Mahoning Hydropower, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Berlin Lake Hydroelectric Project (Berlin Lake Project or project) to be located on the Mahoning River, in the town of Berlin Center, in Portage and Mahoning counties, Ohio. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application

during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission. The project would use Federal lands owned and managed by the United States Army Corps of Engineers' Pittsburgh District.

The proposed project would consist of the following: (1) A 40-foot-long, 30-foot-wide concrete powerhouse located below the existing Berlin Lake Dam containing one tubular S-Type propeller turbine-generator unit with a capacity of 1.1 megawatts placed inside the existing 5-foot-wide, 7-foot-tall, 80-foot-long sluice intake conduit through the existing eastern pier; (2) a new 12.5-kilovolt, 300-foot-long transmission line connecting the powerhouse to an existing sub-transmission system to the east; and (3) appurtenant facilities. The estimated annual generation of the Berlin Lake Project would be 6,200 megawatt-hours at a head range of 40-70 feet.
