

In addition, the following types of non-Federal Government links require the filing with the Commission an FCC Form 601 (OMB Control Number 3060-0798) for each link for the purpose of coordination and registration, in addition to registering each link in the third-party database:

- (1) Facilities requiring the submission of an Environmental Assessment,
- (2) Facilities requiring international coordination, and
- (3) Operation in quiet zones.

The Commission believes the licensee is in the best position to determine the nature of its operations and whether those operations impact these settings, and is required to submit to a database manager, as part of the registration package, documentation that an FCC Form 601 has been filed.

The recordkeeping, reporting and third party disclosure requirements will be used by the Commission to verify licensee compliance with Commission rules and regulations, and to ensure that licensees fulfill their statutory responsibilities in accordance with the Communications Act of 1934, as amended. Such information has been used in the past and will continue to be used to minimize interference, verify that applicants are legally and technically qualified to hold licenses, and to determine compliance with Commission rules.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.
