**SUPPLEMENTARY INFORMATION:****Background**

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Wallace Environmental Testing Laboratories, Inc (“WETL”), of Houston,

Texas (Registered Importer R–09–005) has petitioned NHTSA to decide whether non-U.S. certified 2003 BMW K 1200 GT motorcycles are eligible for importation into the United States. The vehicles that WETL believes are substantially similar are 2003 BMW K 1200 GT motorcycles that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it carefully compared non-U.S. certified 2003 BMW K 1200 GT motorcycles to their U.S. certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

WETL submitted information with its petition intended to demonstrate that non-U.S. certified 2003 BMW K 1200 GT motorcycles, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards. Specifically, the petitioner claims that non-U.S. certified 2003 BMW K 1200 GT motorcycles are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 106 *Brake Hoses*, 116 *Brake Fluid*, 119 *New Pneumatic Tires for Vehicles other than Passenger Cars*, 122 *Motorcycle Brake Systems*, 205 *Glazing Materials*.

The petitioner further contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated below:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:* installation of the following U.S.-certified components: front amber reflectors, rear red reflectors, and front running lights.

Standard No. 111 *Rearview Mirrors:* installation of U.S.-model mirrors.

Standard No. 120 *Tire Selection and Rims for Vehicles other than Passenger Cars:* installation of a tire information placard and inspection of each vehicle to assure compliance with rim marking requirements.

Standard No. 123 *Motorcycle Controls and Displays:* installation of a U.S.-model speedometer/odometer unit.

WETL further states that labels will be affixed to conform to the requirements of 49 CFR part 567: *Certification*.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered.

Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

**Authority:** 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.95 and 501.8.

Issued On: May 14, 2013.
