1. In this document, the Wireless Telecommunications Bureau (WTB) of the Federal Communications Commission (Commission) amends the part 97 Amateur Radio Service rules to clarify certain rules and codifies existing procedures governing the amateur service vanity call sign system. The Commission also revises certain rules applicable to amateur service club stations. The Commission found that certain provisions in the rules applicable to the vanity call sign system should be codified in our rules, and others added, so that the vanity call sign

system will be fair, equitable, and transparent to all amateur service licensees. Specifically, the Commission proposes in the *NPRM* to amend the amateur service's vanity call sign rules to: clarify the process by which such call signs become available for reassignment after the license expires or is canceled; clarify the exceptions to the rule that a call sign shown on a canceled license is unavailable to the vanity call sign system for two years; require that applications requesting a change in trustee include documentation signed by an officer of the club when the application is submitted to the Club Station Call Sign Administrator; and, to limit club stations to holding one call sign.
