

Transco states that the Trenton Woodbury Expansion will include approximately 7.17 miles of 36-inch diameter pipeline loop and appurtenant facilities from milepost 8.23 to milepost 15.40 on Transco's existing Trenton Woodbury Line in Mercer and Burlington Counties, New Jersey. Transco estimates that the proposed Trenton Woodbury Expansion facilities will cost approximately \$19.6 million and will place these facilities into service on November 1, 2003.

Transco states that the Fairless Delivery Lateral will include approximately 2.48 miles of 24-inch diameter pipeline from a tap located near milepost 17.46 on Transco's Trenton Woodbury Line in Burlington County, New Jersey, to a point of interconnection with the Fairless Energy power generation plant in Bucks County, Pennsylvania, including a meter station and appurtenant facilities. Transco estimates that the proposed Fairless Delivery Lateral will cost approximately \$13 million and will place these facilities into service on August 1, 2003.

Transco states that it conducted an open season for the Trenton Woodbury Expansion in February 2001 and, as a result, Transco executed precedent agreements with PECO and VAPEM for the incremental firm transportation capacity to be created on Transco's Trenton Woodbury Line under the expansion.

Any questions concerning this application may be directed to Gina L. Johnson, Transcontinental Gas Pipe Line Corporation, P. O. Box 1396, Houston, Texas 77251-1396, call (713) 215-4243 or fax (713) 215-2229. Transco has also established a toll-free telephone number (1-866-857-7094) for parties to call with questions.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before May 31, 2002, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant

and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Magalie R. Salas,
Secretary.
