

primary nuclear liability insurance of “\$500,000,000”.

IV. Regulatory Flexibility Certification

The Regulatory Flexibility Act does not apply to regulations for which a Federal agency is not required by law, including the rulemaking provisions of the Administrative Procedure Act, 5 U.S.C. 553(b), to publish a general notice of proposed rulemaking (5 U.S.C. 604). As discussed in this document under Section II, “Rulemaking Procedure,” the NRC is not publishing this final rule for notice and comment. Accordingly, the NRC has determined that the requirements of the Regulatory Flexibility Act do not apply to this final rule.

V. Regulatory Analysis

A regulatory analysis was not prepared for this final rule because the change in the maximum amount of nuclear liability insurance is mandated by the Price-Anderson Act. This final rule does not involve an exercise of Commission discretion.

VI. Backfitting and Issue Finality

The NRC has not prepared a backfit analysis for this final rule. This final rule does not involve any provision that would impose a backfit, nor is it inconsistent with any issue finality provision, as those terms are defined in 10 CFR chapter I. These mandatory adjustments are non-discretionary, required by statute, and do not represent any change in position by the NRC with respect to the design, construction, or operation of a licensed facility.

VII. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, “Plain Language in Government Writing,” published June 10, 1998 (63 FR 31885).

VIII. National Environmental Policy Act

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(1). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

IX. Paperwork Reduction Act

This final rule does not contain any new or amended collections of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501

et seq.). Existing collections of information were approved by the Office of Management and Budget, approval number 3150–0039.

Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the document requesting or requiring the collection displays a currently valid OMB control number.

X. Congressional Review Act

This final rule is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

List of Subjects in 10 CFR Part 140

Criminal penalties, Extraordinary nuclear occurrence, Insurance, Intergovernmental relations, Nuclear materials, Nuclear power plants and reactors, Penalties, Reporting and recordkeeping requirements.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended; the Energy Reorganization Act of 1974, as amended; and 5 U.S.C. 552 and 553, the NRC is adopting the following amendments to 10 CFR part 140.

PART 140—FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

■ 1. The authority citation for part 140 continues to read as follows:

Authority: Atomic Energy Act of 1954, secs. 161, 170, 223, 234 (42 U.S.C. 2201, 2210, 2273, 2282); Energy Reorganization Act of 1974, secs. 201, 202 (42 U.S.C. 5841, 5842); 44 U.S.C. 3504 note.

§ 140.11 [Amended]

■ 2. In § 140.11, amend paragraph (a)(4) by removing the number “\$450,000,000” and adding in its place the number “\$500,000,000”.

Dated: September 29, 2023.

For the Nuclear Regulatory Commission.

Scott A. Morris,

Acting Executive Director for Operations.

RIN 2120–AA66

Amendment of VOR Federal Airway V–36 and Establishment of RNAV Route T–675; Northcentral United States

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, delay of effective date.

SUMMARY: This action changes the effective date of a final rule published in the **Federal Register** on September 22, 2023, amending Very High Frequency Omnidirectional Range (VOR) Federal airway V–36 and establishing Canadian Area Navigation (RNAV) route T–675 in the northcentral United States (U.S.). The FAA is delaying the effective date to coincide with the expected completion of the associated aeronautical data requirements for establishing all segments of Canadian RNAV route T–675 within U.S. airspace and to adopt the rule amendments concurrently.

DATES: The effective date of the final rule published on September 22, 2023 (88 FR 65311) is delayed from November 30, 2023, to March 21, 2024. The Director of the Federal Register
