

The Final EIS evaluated the potential environmental impacts of the Proposed Action and the No Action Alternative. Under the No Action Alternative, the FAA would not issue a Launch Site Operator License to the Camden County Board of Commissioners.

The FAA published a Draft EIS for public review and comment on March 16, 2018. The FAA held a public hearing on Wednesday, April 11, and another on Thursday, April 12, 2018 at Camden County Public Service Authority Recreation Center Community Room, 1050 Wildcat Drive, Kingsland, GA 31548. The FAA received over 15,500 public comments on the Draft EIS (see Appendix A of the Final EIS). All comments received during the comment period were considered in the preparation of the Final EIS.

The Final EIS addresses modifications to the Proposed Action since the release of the 2018 Draft EIS and includes corresponding updates across all environmental resource areas. In December 2019, Camden County notified the FAA that it intended to submit an amended application for a Launch Site Operator License that would limit proposed launch operations to small launch vehicles, as opposed to the medium-large launch vehicles included in its original application and analyzed by the FAA in the Draft EIS. The County submitted an amended application on January 15, 2020. The amended application included data and analyses specific to launches of small launch vehicles. The amended application omitted booster flybacks, which are not a capability of small launch vehicles, and reduced the range of potential trajectories identified in the original application to a single 100 degree trajectory. The FAA has updated the EIS analyses to focus only on the small launch capability and parameters described in Camden County's amended application.

The FAA has posted the Final EIS on the FAA Office of Commercial Space Transportation website: https://www.faa.gov/space/environmental/nepa_docs/camden_eis/. In addition, links to the Final EIS were sent to persons and agencies on the distribution list (see Chapter 9 of the Final EIS).
